SANODESK E4W

The logo for SANODESK, with 'SANO' in red and 'DESK' in grey, set within a white rectangular box.

SANODESK 55" Electric Standing Desk

USER MANUAL

Product Overview

The SANODESK 55" Electric Standing Desk is designed for home and office use, featuring a stable and durable 3-stage height adjustable frame with dual motors. This desk allows for seamless transitions between sitting and standing positions, promoting a healthier and more efficient workspace.

User Guide

For detailed instructions on assembly, operation, and troubleshooting, please refer to the official installation manual:

[Download Installation Manual \(PDF\)](#)

Setup and Assembly

Your SANODESK electric standing desk arrives in two separate packages: one for the desktop and one for the desk frame. These may arrive on different days.

ARRIVES IN 2 BOXES

 *May come 1-2 days apart*

Image: Illustration showing the desk components arriving in two separate boxes, labeled "DESK TOP" and "DESK FRAME", with a note that they may arrive 1-2 days apart.

Assembly is straightforward and typically takes less than an hour with minimal assistance. All necessary parts are well-packaged and clearly labeled. Refer to the detailed instructions in the [Installation Manual](#) for step-by-step guidance.

Operating Instructions

The SANODESK electric standing desk features a user-friendly handset for height adjustment and memory presets.

Height Adjustment

The desk boasts a 3-stage lifting system, offering a wide height range from 23.6 inches (60 cm) to 49.2 inches (125 cm). This allows for comfortable use by individuals of various heights, from children to extra-tall adults.

I **THREE-STAGE LEG**

Continuous Height Adjustment from 23.6"-49.2"

40"-49.2" for the extra tall

31.4"-39.9" for adults

23.6"-31.3" for kids

Image: A close-up of the three-stage leg mechanism, illustrating the continuous height adjustment range from 23.6" to 49.2", with suggested height ranges for kids, adults, and extra-tall users.

WHY WE NEED 3 STAGE LEGS?

The 3 stage legs offers a wider adjustment range, providing greater flexibility and adaptability to accommodate users of different heights, allowing everyone to find a comfortable working height.

Adjustment Range

23.6 inch- 49.2 inch / 60 cm-125 cm

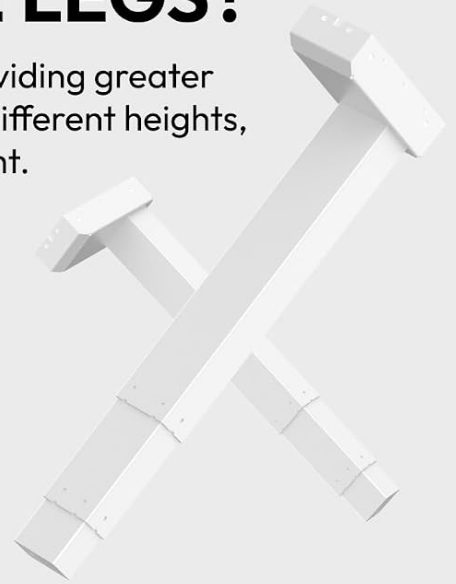

Image: A diagram illustrating the benefit of 3-stage legs, showing a wider adjustment range (23.6 to 49.2 inches) compared to 2-stage systems, accommodating different user heights for comfortable working positions.

Handset Features

The handset includes an LED screen displaying the current height, 3 memory presets for saving preferred sitting and standing positions, and a sit-stand reminder function to encourage regular movement. Use the up and down arrows to adjust the height manually.

Height Adjustment

- Customize High/Low Limit(within the allowable range)

Image: A detailed view of the desk's control panel, showing the digital height display, up/down arrows, and four memory preset buttons. Below, an illustration demonstrates the anti-collision feature preventing the desk from lowering onto obstacles.

Dual Motor System

Equipped with silent and efficient dual motors, the desk operates at less than 50 dB, ensuring a quiet environment. The dual motors also provide a higher weight capacity of 220 lbs (100 kg) and smoother, more stable movement compared to single-motor desks.

WHY WE NEED SANODESK DUAL MOTOR?

Bigger and thicker tables, more electronic devices, game consoles, CPU

Support up to

71" x 31.5" / 180 x 80 cm table top!

220LBS / 100KG

Weight Capacity

Maintenance

To ensure the longevity and optimal performance of your SANODESK electric standing desk, follow these simple maintenance guidelines:

- **Cleaning:** The eco-friendly whole-piece desktop is designed for easy cleaning. Use a soft, damp cloth with mild soap to wipe down the surface. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cable Management:** Utilize the included cable management ties to keep wires organized and prevent them from getting caught during height adjustments.
- **Regular Checks:** Periodically check all screws and bolts to ensure they are tightened securely.

Troubleshooting

If you encounter any issues with your SANODESK electric standing desk, please refer to the following common

troubleshooting tips:

- **Desk Not Moving:** Check all power connections to ensure the desk is properly plugged in. If the issue persists, try resetting the control panel (refer to the [Installation Manual](#) for specific reset procedures).
- **Uneven Movement/Noise:** Ensure the desk is on a level surface and that no obstacles are impeding the legs' movement. The dual motors are designed for quiet operation (less than 50 dB), but unusual noises may indicate an obstruction or loose component.
- **Desk Bending/Wobbling:** While the desk is designed for stability, ensure the maximum weight recommendation of 220 lbs (100 kg) is not exceeded. Verify that all assembly components are correctly installed and tightened.
- **Memory Presets Not Working:** Re-program your memory presets according to the instructions in the manual.

For more complex issues or if troubleshooting steps do not resolve the problem, please contact SANODESK customer support.

Specifications

Key specifications for the SANODESK 55" Electric Standing Desk (Model E4W):

Feature	Detail
Brand	SANODESK
Model Number	E4
Model Name	E4W
