suddus 200LED White Fairy Lights

suddus 66ft 200 LED Outdoor String Lights User Manual

MODEL: 200LED WHITE FAIRY LIGHTS

Brand: suddus

Introduction

Thank you for choosing the suddus 66ft 200 LED Outdoor String Lights. This manual provides essential information for the safe and effective use of your new fairy lights. These versatile, battery-operated lights are designed to enhance both indoor and outdoor environments with their bright white glow and multiple lighting effects.

Product Features

- **Waterproof Design:** The lights and battery box are IP44 rated, ensuring durability and functionality in wet weather conditions.
- **Remote Control Functionality:** Easily switch between 8 lighting modes, adjust brightness, and set a timer with the included remote control.
- **Flexible Copper Wire:** The durable copper wire can be bent and shaped to fit various decorative needs without breaking.
- **Adjustable Brightness:** Features 10 adjustable brightness levels to create the desired ambiance.
- **Portable and Convenient:** Battery-operated design eliminates the need for power outlets, offering flexibility in placement.
- **Extended Length:** A generous 66ft (20m) length with 200 LEDs provides ample coverage for large-scale decorations.

Setup Instructions

1. **Unpack the Lights:** Carefully unroll the string lights from the winding card. Handle the copper wire gently to avoid tangling.
2. **Install Batteries:** Open the battery box. Insert 3 AA batteries (not included) according to the polarity

indicators inside the compartment. Close the battery box securely.

3. **Remote Control Battery:** The remote control typically comes with a pre-installed CR2025 battery. Remove any plastic tab to activate it.
4. **Placement:** Position the lights as desired. The flexible copper wire allows for easy shaping around objects, furniture, or outdoor structures. Ensure the battery box is placed in a location that allows for remote signal reception if using the remote control.

Operating Instructions

Your suddus fairy lights can be operated using the included remote control or the button on the battery box.

Using the Remote Control:

- **ON/OFF:** Press the **ON** button to turn the lights on, and the **OFF** button to turn them off.
- **Mode Selection:** Use buttons **1** through **8** to select from the following 8 lighting modes:
 - I. Combination
 - II. In wave
 - III. Sequential
 - IV. Slo glo
 - V. Chasing/Flash

VI. Slow fade

VII. Twinkle/Flash

VIII. Steady on

- **Brightness Adjustment:** Use the **DIM -** and **DIM +** buttons to adjust between 10 levels of brightness.
- **Timer Function:** Press the **TIMER** button to activate the 6-hour timer. The lights will stay on for 6 hours and then turn off automatically for 18 hours, repeating the cycle daily.

Using the Battery Box Button:

A button on the battery box allows you to cycle through the 8 lighting modes and turn the lights off, providing basic control without the remote.

Maintenance

- **Water Resistance:** The IP44 rating means the lights are protected against splashing water from any direction. However, avoid submerging the battery box in water.
- **Handling:** The copper wire is flexible but should be handled with care to prevent damage. Avoid excessive pulling or sharp bends.

- **Battery Replacement:** When lights dim or stop working, replace all 3 AA batteries in the battery box. Ensure correct polarity.
- **Storage:** When not in use, gently re-coil the lights onto the winding card to prevent tangling and store them in a cool, dry place.

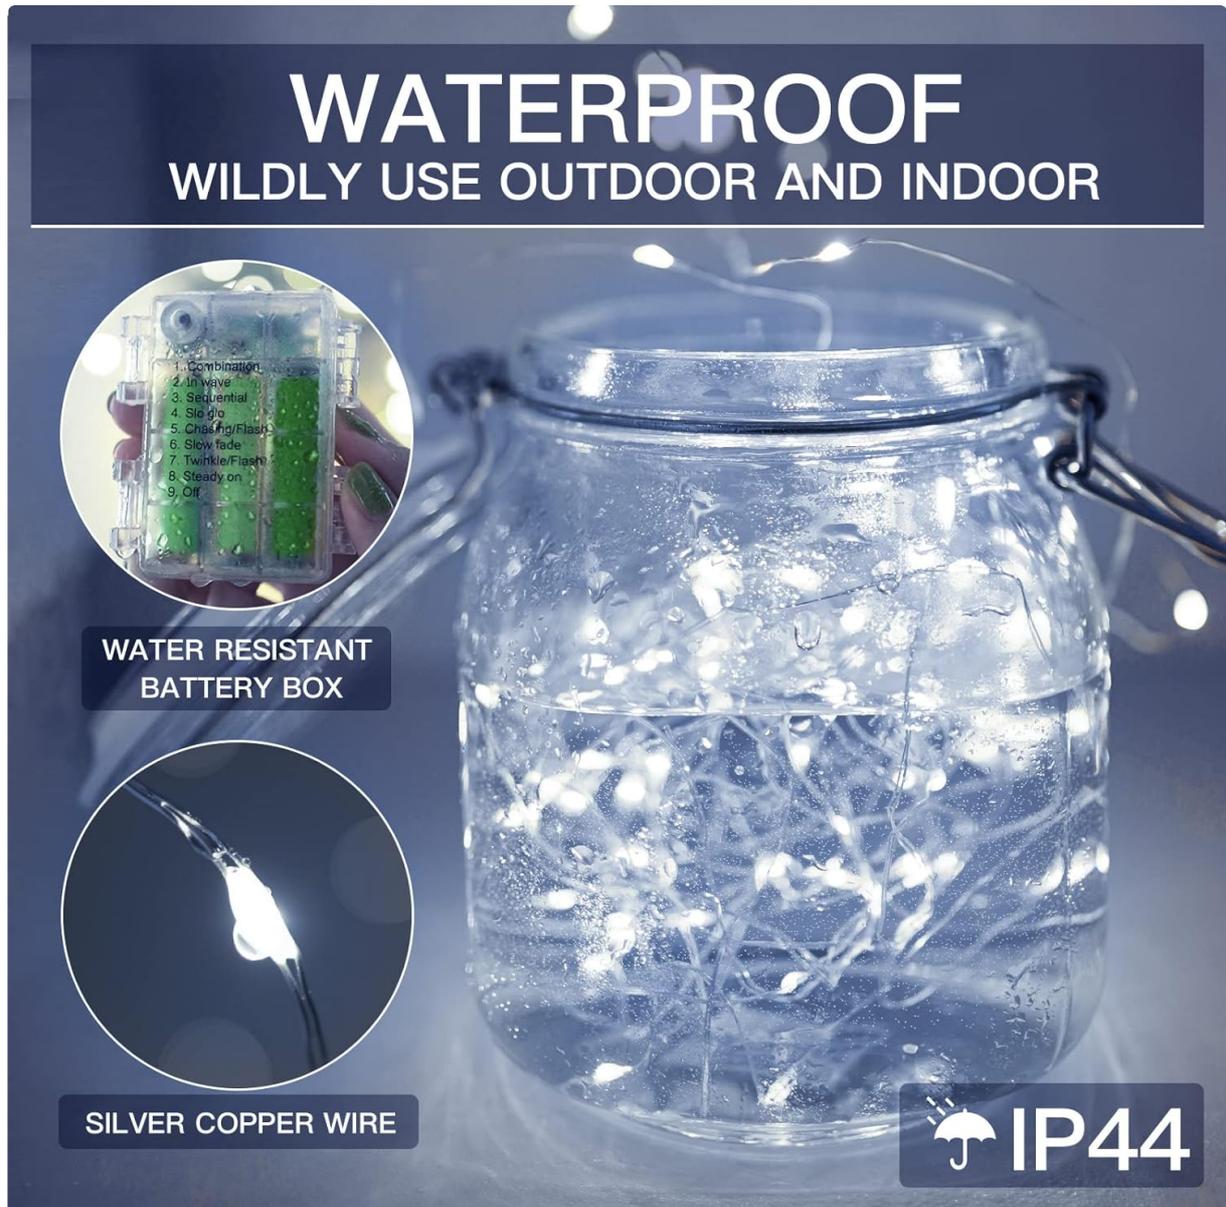

Figure 3: This image focuses on the waterproof features, showing the IP44-rated battery box and the durable silver copper wire, emphasizing its suitability for outdoor conditions.

Troubleshooting

- **Lights not turning on:**
 - Check if the AA batteries in the battery box are correctly inserted and not depleted. Replace if necessary.
 - Ensure the remote control's battery (CR2025) is functional and the plastic tab has been removed.
 - Verify that the ON button on the remote or battery box has been pressed.
- **Remote control not responding:**
 - Ensure there is a clear line of sight between the remote and the battery box.
 - Replace the remote control battery (CR2025).

- **Lights flickering or dimming unexpectedly:**

- This usually indicates low battery power. Replace all 3 AA batteries in the battery box.
- Check the copper wire for any visible damage or breaks.

Specifications

Feature	Detail
Brand	suddus
Model	200LED White Fairy Lights
Length	66 Feet (20 meters)
Number of LEDs	200
