3. INSTALLATION GUIDE

The DowiTech replacement earpads are designed for easy installation without the need for special tools or adhesives. Follow these steps to replace your old earpads:

1. **Remove Old Earpads:** Gently peel off the existing earpads from your headphone cups. They are typically held in place by a thin rim or groove.
2. **Clean Headphone Surface:** Ensure the surface of your headphone cups is clean and free of any debris or residue from the old earpads.
3. **Align New Earpads:** Take one new DowiTech earpad. Locate the thin flap or skirt around the edge of the earpad.
4. **Insert Earpad Flap:** Carefully stretch the flap of the new earpad over the edge of the headphone cup. Begin by tucking a small section of the flap into the groove or rim of the headphone cup.
5. **Work Around the Edge:** Gradually work your way around the entire circumference of the headphone cup, gently stretching and tucking the earpad flap into the groove until it is fully seated and secure.
6. **Adjust and Secure:** Once the earpad is fully installed, gently press around the edges to ensure it is firmly attached and evenly positioned.

Easy Installation

**NO Glue or special tools needed.
Fit for Your Headphone FLAWLESSLY.**

5. MAINTENANCE AND CARE

To ensure the longevity and hygiene of your DowiTech replacement earpads, follow these simple care guidelines:

- **Cleaning:** Wipe the surface of the earpads regularly with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, but ensure the cloth is only slightly damp to avoid saturating the material.
- **Drying:** Allow the earpads to air dry completely before using your headphones again. Do not use direct heat sources like hair dryers.
- **Avoid Harsh Chemicals:** Do not use strong cleaning agents, alcohol, or abrasive materials, as these can damage the protein leather and foam.
- **Storage:** When not in use, store your headphones in a clean, dry environment away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

If you encounter any issues with your new earpads, consider the following:

- **Earpads Not Fitting Securely:** Ensure the thin flap around the earpad is fully tucked into the groove of the

headphone cup. Sometimes, starting from one point and working around the circumference helps achieve a snug fit. Apply gentle, even pressure.

- **Reduced Sound Quality:** Verify that the earpads are installed correctly and are not obstructing the headphone drivers. Ensure there are no gaps between the earpad and the headphone cup that could lead to sound leakage.
- **Discomfort:** Allow a short period for the memory foam to adapt to the shape of your ears. If discomfort persists, re-check the installation to ensure the earpads are not twisted or misaligned.

If these steps do not resolve the issue, please contact DowiTech Customer Service for further assistance.

7. SPECIFICATIONS

Product Name	DowiTech Headphone Replacement Earpads
Brand	DowiTech
Compatible Models	Sony MDR-RF6500, Sony MDR RF 6000
Material	Protein Leather, High-Quality Memory Foam
Item Weight	1.41 ounces (approx. 40 grams)
