Velivi Velivi-KMYL120-3

Velivi 24 Inch Dual Zone Wine and Beverage Refrigerator

Model: Velivi-KMYL120-3

INTRODUCTION

Thank you for choosing the Velivi 24 Inch Dual Zone Wine and Beverage Refrigerator. This appliance is designed to provide optimal storage conditions for both your wine collection and various beverages, featuring independent temperature control for each zone. Please read this manual thoroughly before installation and operation to ensure proper use, maximize performance, and maintain safety.

SAFETY INFORMATION

To reduce the risk of fire, electric shock, or injury when using your appliance, follow these basic precautions:

- Read all instructions before using the appliance.
- Do not touch cold surfaces, especially when the appliance is operating.
- Never clean appliance parts with flammable fluids. The fumes can create a fire hazard or explosion.
- Do not store or use gasoline or any other flammable vapors and liquids in the vicinity of this or any other appliance.
- Unplug the appliance from the electrical outlet before cleaning or performing any maintenance.
- Ensure the appliance is properly grounded.
- Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.
- Do not damage the refrigerant circuit.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

PRODUCT FEATURES

- **Dual Zone Cooling:** Independent temperature control for wine (41°F-64°F) and beverages (35°F-50°F).
- **Large Capacity:** Designed to hold up to 20 standard Bordeaux bottles and 90 standard 12oz/330ml cans.
- **Carbon Purification System:** Built-in system to effectively reduce odors inside the refrigerator.
- **Advanced Cooling System:** Equipped with a powerful and quiet compressor for stable and consistent temperatures.
- **Energy Saving:** Intelligent cooling and energy-saving control system for efficient operation.
- **Removable & Adjustable Shelves:** Allows for flexible storage of various bottle and can sizes.
- **Safety Lock:** Provides security for your stored collection.
- **Low Noise Operation:** Operates at approximately 40dB, ensuring minimal disturbance.

INSTALLATION & SETUP

Location and Placement

This appliance is designed for both under-counter built-in installation and freestanding use. The front vent design allows for proper air circulation in either setup.

- Ensure the appliance is placed on a level surface.
- Avoid placing the appliance in direct sunlight or near heat sources (e.g., ovens, radiators).
- Allow adequate clearance around the unit for proper ventilation, especially if freestanding.

Dimensions

The overall dimensions of the unit are approximately 23.42 inches (W) x 22.63 inches (D) x 34.25 inches (H).

Initial Setup

After delivery, it is crucial to allow the refrigerator to stand upright for at least 24 hours before plugging it in. This allows the refrigerant gas to settle, preventing potential damage to the cooling system.

1. Unpack the appliance and remove all packaging materials.
2. Clean the interior with a damp cloth and mild detergent.
3. Place the unit in its desired location, ensuring it is level.
4. Allow the unit to stand upright for 24 hours.
5. Plug the power cord into a dedicated, grounded electrical outlet.
6. Allow the unit to reach desired temperatures before loading with contents.

OPERATING INSTRUCTIONS

Control Panel

The refrigerator features an intuitive digital control panel located at the top of the unit, allowing independent temperature adjustment for each zone.

MULTI-FUNCTIONAL DRINK & WINE ASSISTANT

Image: Close-up of the digital control panel, detailing each button's function for lighting, temperature adjustment, unit conversion, and power.

- **Lighting Button:** Controls the internal LED lighting.
- **Temperature Up/Down:** Adjusts the temperature setting for the selected zone.
- **Display Window:** Shows the current temperature.
- **Fahrenheit & Celsius Switch Button:** Toggles between °F and °C.
- **Power Button:** Turns the unit on or off.

Temperature Zones

The refrigerator is divided into two independent cooling zones:

- **Left Beverage Zone:** Temperature range of 35°F - 50°F (1.7°C - 10°C) for various drinks.
- **Right Wine Zone:** Temperature range of 41°F - 64°F (5°C - 17.8°C) for wine storage.

Adjusting Shelves

The shelves are removable, allowing you to customize the internal space to accommodate different bottle and can sizes. Carefully slide shelves out and reposition them as needed.

MAINTENANCE

Cleaning

- Always unplug the appliance before cleaning.
- Clean the interior with a solution of lukewarm water and mild baking soda solution (2 tablespoons of baking soda to 1 quart of water).
- Wash the shelves and drawers with a mild detergent solution, then rinse and dry.
- Clean the exterior with a soft cloth and mild soap or non-abrasive cleaner.
- Regularly vacuum the condenser coils at the back or bottom of the unit to ensure efficient operation.

Defrosting

This appliance features an automatic defrost system, minimizing the need for manual defrosting. If excessive frost builds up, unplug the unit and allow it to defrost naturally, then wipe away any melted water.

Carbon Purification System

The built-in carbon purification system helps maintain a fresh interior environment. Consult the manufacturer for recommended replacement intervals for the carbon filter, if applicable.

TROUBLESHOOTING

Before contacting customer support, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution
Appliance does not operate	Not plugged in; Circuit breaker tripped; Temperature control set to OFF.	Ensure plug is secure; Reset circuit breaker; Adjust temperature setting.
Temperature is not cold enough	Door not closed properly; Frequent door openings; Warm items added; Poor ventilation; Ambient temperature too high.	Check door seal; Reduce door openings; Allow items to cool before placing inside; Ensure proper clearance; Move to cooler location.
Appliance is noisy	Unit not level; Vibrating against wall/cabinet; Normal compressor/fan operation.	Adjust leveling feet; Move unit slightly; Some operational noise is normal.
Moisture buildup inside	High humidity; Door left open; Items not sealed.	Ensure door is closed tightly; Seal food/drinks properly.
