

Autel MV108S

Autel MaxiVideo MV108S Digital Inspection Camera User Manual

Model: MV108S | Brand: Autel

1. INTRODUCTION

The Autel MaxiVideo MV108S is a digital inspection camera designed to provide visual access to confined and hard-to-reach areas. It functions as an add-on accessory for compatible Autel diagnostic scan tools and personal computers, enabling detailed visual inspections of vehicle components, HVAC systems, pipes, and other inaccessible spaces. The 8.5mm diameter imager head features integrated LED lights for illumination in dark environments.

Figure 1: Autel MaxiVideo MV108S Digital Inspection Camera and its retail packaging.

2. PRODUCT FEATURES

- **High-Resolution Imaging:** Captures images at 1920x1080 (2MP) resolution, offering clear visual detail.
- **Optimal Viewing Distance:** Effective inspection range from 3cm to 8cm.
- **Compact Imager Head:** Features an 8.5mm diameter imager head, suitable for narrow openings.
- **Integrated LED Lighting:** Bright LED lights illuminate dark inspection areas.
- **IP67 Waterproof Rating:** The imager head and cable are waterproof, allowing for inspection in wet conditions.
- **Semi-Rigid Cable:** Provides flexibility for maneuvering while maintaining shape for precise positioning.
- **Wide Compatibility:** Works with Autel MaxiCOM, MaxiCheck, MaxiPRO, MaxiSys series diagnostic tools, and personal computers via USB.
- **Versatile Accessories:** Includes magnet, hook, and mirror attachments for various inspection tasks.

Figure 2: Key features of the Autel MaxiVideo MV108S.

3. PACKAGE CONTENTS

The Autel MaxiVideo MV108S package typically includes the following items:

- 1x Autel MV108S Digital Inspection Camera
- 1x Magnet Accessory
- 1x Hook Accessory
- 1x Mirror Accessory
- 1x Quick Start Guide

4. SETUP INSTRUCTIONS

Follow these steps to set up your Autel MaxiVideo MV108S Digital Inspection Camera:

1. **Connect the Imager Head Cable:** Connect the removable imager head cable to the handgrip. Ensure the key and slot are properly aligned. Finger-tighten the knurled knob to secure the connection.
2. **Power Up Autel Tablet:** Power on your compatible Autel diagnostic tablet.
3. **Select Digital Inspection Application:** On the tablet's Job Menu, select the "Digital Inspection" application.
4. **Connect MV108S to Tablet/PC:** Connect the MV108S inspection camera to the Autel tablet or PC using the USB connection.

Note: For MX808/MK808/MP808/DS808 series tablets, ensure the system software is updated to V2.62 or above to access the "Digital Inspection" software.

Steps Easy Installation

1

Connect the Removable Imager Head Cable to the Handgrip. Make sure the key and slot are properly aligned. Once they are aligned, finger-tighten the knurled knob to hold the connection firmly in place.

2

Power up the Autel Tablet, and select the "Digital Inspection" Icon on the Job Menu.

3

Connect the MV108 inspection camera to the Autel Tablet with the USB connection

Figure 3: Visual guide for the 3-step installation process.

5. OPERATING INSTRUCTIONS

Once the MV108S is connected and the "Digital Inspection" application is open on your Autel tablet or PC, you can begin your inspection:

- **Live View:** The screen will display a live video feed from the MV108S camera.
- **Adjust LED Lights:** Use the controls on your Autel tablet or PC software to adjust the brightness of the LED lights on the imager head for optimal visibility.
- **Capture Images:** To take a still photograph, select the Camera icon within the "Digital Inspection" application.
- **Record Videos:** To record a video, select the Video icon within the "Digital Inspection" application.

- **Navigate:** Carefully maneuver the semi-rigid cable and imager head into the area you wish to inspect.

Select the Camera icon at the lower-right corner to take images.

Select the Video icon at the lower-right corner to record a video.

Figure 4: Capturing images and recording videos using the Autel tablet interface.

6. ACCESSORIES

The MV108S comes with three useful accessories that attach to the imager head to assist with various inspection tasks:

- **Hook:** Designed to retrieve small objects or clear minor obstructions in confined spaces.
- **Magnet:** Useful for picking up small metallic items, such as dropped screws or rings.
- **Mirror:** Provides an angled view, allowing inspection around corners or in areas not directly visible.

Figure 5: Included accessories: Hook, Magnet, and Mirror.

7. COMPATIBILITY

The Autel MV108S Digital Inspection Camera is designed for seamless integration with a range of Autel diagnostic tools and standard personal computers:

- **Autel Diagnostic Tablets:** Compatible with Autel MaxiCOM, MaxiCheck, MaxiPRO, and MaxiSys series products. It displays real-time images of inspected parts directly on the tablet screen.
- **Personal Computers (PC):** Can be connected to a PC via its USB port. This allows users to view, record, and capture images using appropriate software.

Works with All Autel Diagnostic Tablet for Visual Check

Useful Add-on for Extended Functions,
Note: MX808/ MP808 in V2.62 or above.

Figure 6: The MV108S in use with an Autel diagnostic tablet.

8. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your MV108S inspection camera:

- **Cleaning:** After each use, especially in dirty or wet environments, gently wipe the imager head and cable with a soft, damp cloth. Ensure no debris obstructs the camera lens or LED lights.
- **Storage:** Store the camera in a clean, dry place, away from extreme temperatures and direct sunlight. Avoid kinking or sharply bending the semi-rigid cable.
- **Lens Care:** If the lens becomes dirty, use a lens cleaning solution and a microfiber cloth to clean it carefully. Avoid abrasive materials that could scratch the lens.
- **Accessory Care:** Clean the magnet, hook, and mirror accessories as needed and store them securely to prevent loss.

9. TROUBLESHOOTING

If you encounter issues with your MV108S, consider the following troubleshooting steps:

- **No Image Display:**
 - Ensure the imager head cable is securely connected to the handgrip.
 - Verify the USB connection to the Autel tablet or PC is firm.
 - Confirm the "Digital Inspection" application is open and selected on the tablet.
 - For Autel tablets, check if the system software is updated to V2.62 or above.
 - If using a PC, ensure necessary drivers or software are installed and the device is recognized.
- **Poor Image Quality:**
 - Clean the camera lens for any smudges or debris.
 - Adjust the LED light brightness for better illumination.
 - Ensure the object being inspected is within the optimal viewing distance (3cm to 8cm).
- **LED Lights Not Working:**
 - Check the connection of the imager head cable.
 - Verify that the LED brightness control in the software is not set to minimum.

If issues persist after attempting these steps, please contact Autel customer support for further assistance.

10. SPECIFICATIONS

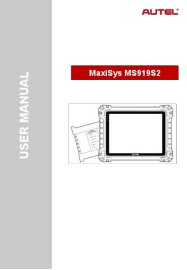

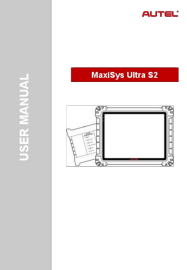

Feature	Specification
Model Number	Autel MaxiVideo MV108S
Imager Head Diameter	8.5mm (0.33 inches)
Image Resolution	1920 x 1080 (2 Megapixels)
Optimal Macro Focus Range	3cm to 8cm
Waterproof Rating	IP67 (Imager Head and Cable)
Lighting	Adjustable LED Lights
Exposure Control Type	Automatic
Shooting Modes	Picture, Video
Color	Black
Product Dimensions	3.94 x 3.15 x 2.36 inches
Item Weight	14.4 ounces

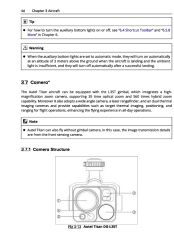

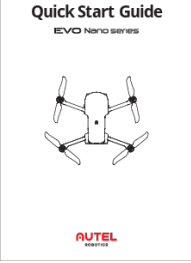

11. WARRANTY AND SUPPORT

The Autel MaxiVideo MV108S Digital Inspection Camera is backed by a 1-year quality warranty. Additionally, a 30-day return and replacement policy is offered.

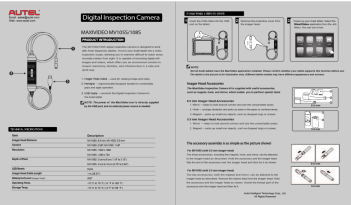

For any questions or assistance, please contact Autel customer support. Contact information can typically be found on the official Autel website or within the product packaging.
