#### Codnida BM101

# **Codnida Baby Monitor Instruction Manual**

Model: BM101

# 1. PRODUCT OVERVIEW

The Codnida Baby Monitor provides comprehensive monitoring of your baby with advanced features designed for peace of mind. This manual will guide you through the setup, operation, and maintenance of your new baby monitor.

Image 1: Codnida Baby Monitor components.

# **Key Features:**

- 5" 720P HD Display: Provides a clear view of your baby.
- 4X Digital Zoom: Zoom in to see your little one up close.
- Pan 340° & Tilt 50°: Offers a wide coverage area with no blind spots.
- Two-Way Talk: Communicate with your baby remotely.
- Cry & Motion Detection: Alerts you to your baby's needs.
- Temperature & Humidity Monitoring: Ensures a comfortable environment.
- Feeding Reminder: Helps maintain a consistent feeding schedule.
- Automatic Night Vision: Clear viewing in low light or darkness.
- 18 Gentle Lullabies: Soothe your baby to sleep.
- 1000ft Transmission Range: Reliable connection throughout your home.
- Long Battery Life: Up to 10 hours in live view, 6 days in sleep mode.
- Mobile App Support: Monitor from your smartphone (CloudEdge app).

#### 2. PACKAGE CONTENTS

Please check the package contents upon unboxing to ensure all items are present:

- 1 x Baby Camera Unit
- 1 x Display Screen (Parent Unit)
- 2 x Charging Cables with Adapters
- 1 x Set of Screws for Mounting
- 1 x Mounting Bracket
- 1 x Reset Pin
- 1 x User Manual (this document)

Image 2: All items included in the product package.

### 3. SETUP GUIDE

#### 3.1 Charging the Units

Before first use, fully charge both the baby camera unit and the display screen using the provided charging cables and adapters. A full charge ensures optimal performance and battery life.

#### 3.2 Camera Placement

Place the baby camera unit in a location that provides a clear and unobstructed view of your baby. Ensure it is out of reach of children and away from any potential hazards. The camera can be placed on a flat surface or mounted to a wall using the included bracket and screws.

Image 3: The camera unit offers 340° pan and 50° tilt for comprehensive room coverage.

# 3.3 Initial Connection (Monitor & Camera)

The baby camera unit and display screen are pre-paired at the factory. Simply power on both devices, and they should automatically connect. If they do not connect, or if you are adding a new camera, follow the pairing instructions in the Operating Instructions section.

# 3.4 Mobile App Connection (Optional)

For remote monitoring via your smartphone, download the "CloudEdge" app from your device's app store. Follow the inapp instructions to connect your baby camera unit to your home Wi-Fi network. This allows you to view your baby from anywhere with an internet connection.

Your browser does not support the video tag.

Video 2: A step-by-step guide on how to connect your Codnida Baby Monitor to Wi-Fi for mobile app access.

# 4. OPERATING INSTRUCTIONS

# 4.1 Display and Zoom

The 5-inch 720P HD display provides a clear live feed. Use the zoom function on the parent unit to get a closer look at your baby. The monitor supports up to 4X digital zoom.

# 5" Large Screen with 4X Digital Zoom Keep closer eyes on your baby Yall **(**) 0 MENU Codnida

Image 4: The 5-inch display with 4X digital zoom capability.

# 4.2 Camera Control (Pan & Tilt)

Control the camera's viewing angle directly from the parent unit. The camera can pan 340 degrees horizontally and tilt 50 degrees vertically, ensuring you can see every corner of the room.

Image 5: Illustrates the camera's pan and tilt range.

# 4.3 Two-Way Talk

Press and hold the microphone button on the parent unit to speak to your baby. Your voice will be transmitted through the camera unit's speaker, allowing you to soothe your baby from another room.

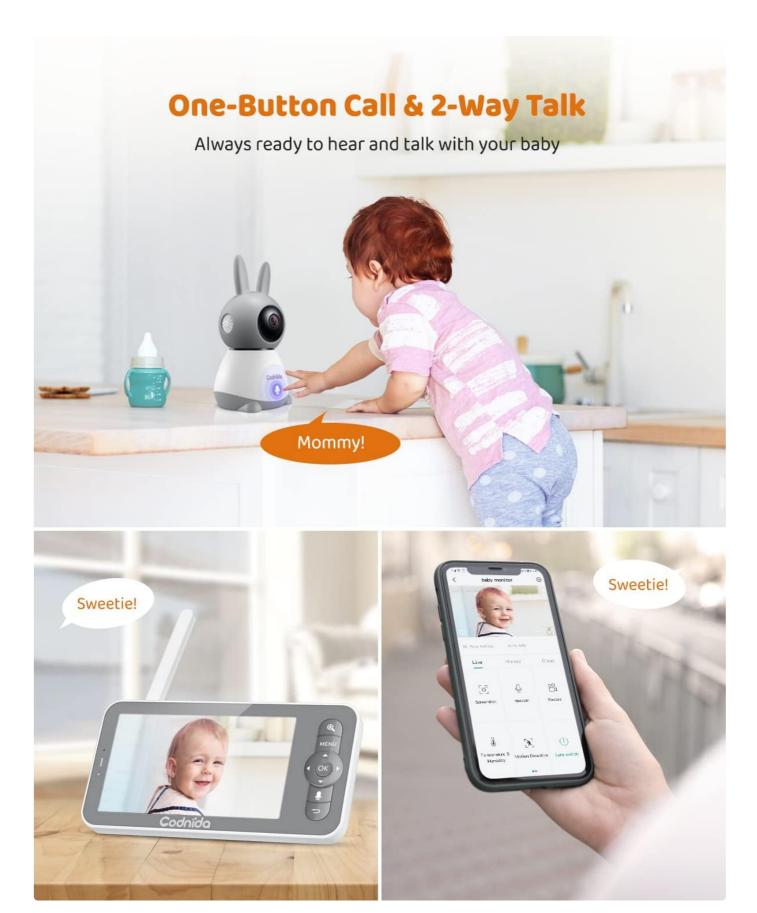

Image 6: Two-way talk feature in action, allowing parents to communicate with their baby.

# **4.4 Monitoring Features**

- Cry & Motion Detection: The monitor will alert you when it detects crying or significant motion from your baby. This feature helps you respond promptly to your baby's needs.
- **Temperature & Humidity:** The camera unit includes sensors to monitor the room's temperature and humidity, displayed on the parent unit.

- Feeding Reminder: Set customizable feeding reminders to ensure your baby is fed on schedule.
- Alarm Zone: Define a safe area for your baby. If your baby moves outside this pre-set zone, an alert will be triggered on the parent unit.

Image 7: Visual representation of various alert features including motion, cry, temperature, and feeding reminders.

# 4.5 Automatic Night Vision

The camera automatically switches to infrared (IR) night vision in low-light conditions, providing a clear black-and-white image of your baby without disturbing their sleep.

Image 8: Clear night vision allows monitoring even in complete darkness.

#### 4.6 Lullabies

The monitor comes with 18 gentle lullables that can be played through the camera unit to help soothe your baby to sleep. Access this feature through the parent unit's menu.

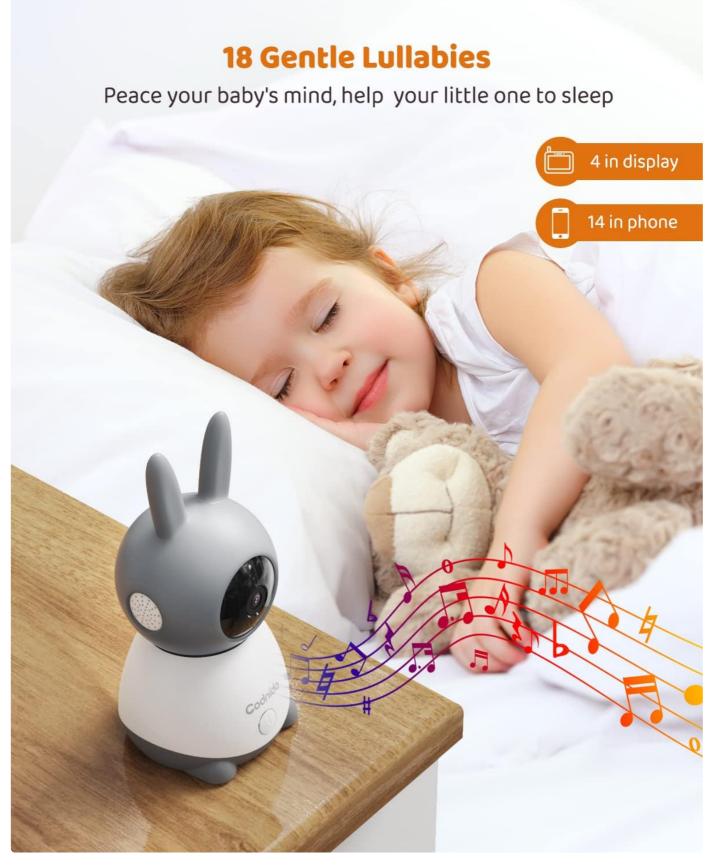

Image 9: The baby monitor can play 18 gentle lullabies.

# 4.7 Recording and Playback

The camera unit supports an SD card (not included) for local recording of video and images. You can review recorded footage directly from the parent unit or via the mobile app.

# **Capture the Key Moment**

Capture the image and video as you want

Video 3: Demonstrates various features of the Codnida Baby Monitor, including recording and playback.

# 5. BATTERY LIFE & TRANSMISSION RANGE

## **5.1 Battery Performance**

The parent unit features low power consumption technology, offering extended battery life. It can last up to 10 hours in live view mode and up to 6 days in sleep mode (VOX mode), where the display activates only upon detecting motion, noise, or abnormal temperature.

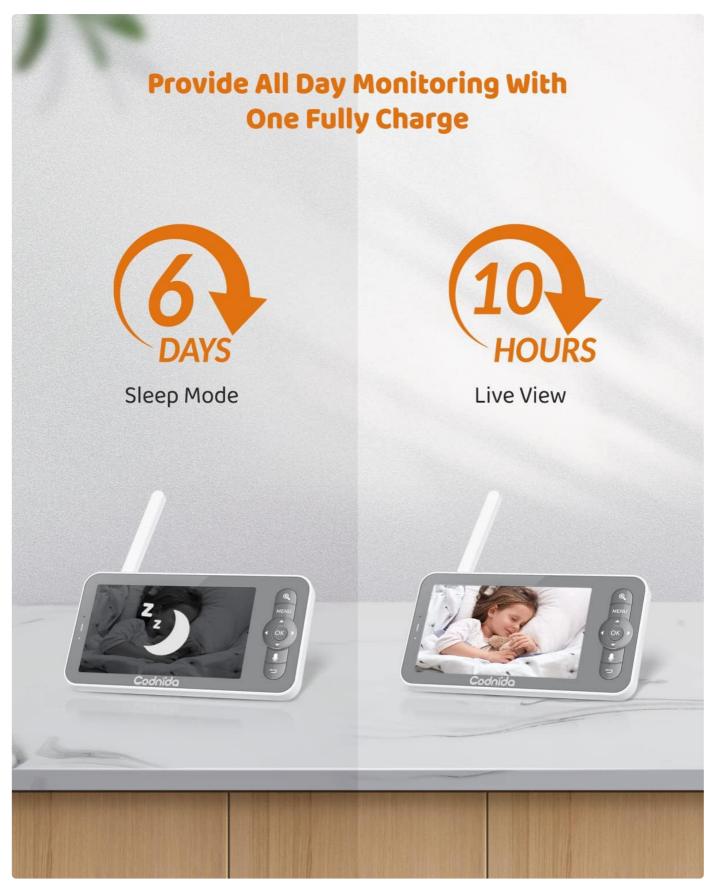

Image 11: Battery life indicators for sleep mode and live view.

The video baby monitor covers a transmission range of up to 1000 feet in an open area, allowing you to monitor your baby from various locations within your home with a stable video feed.

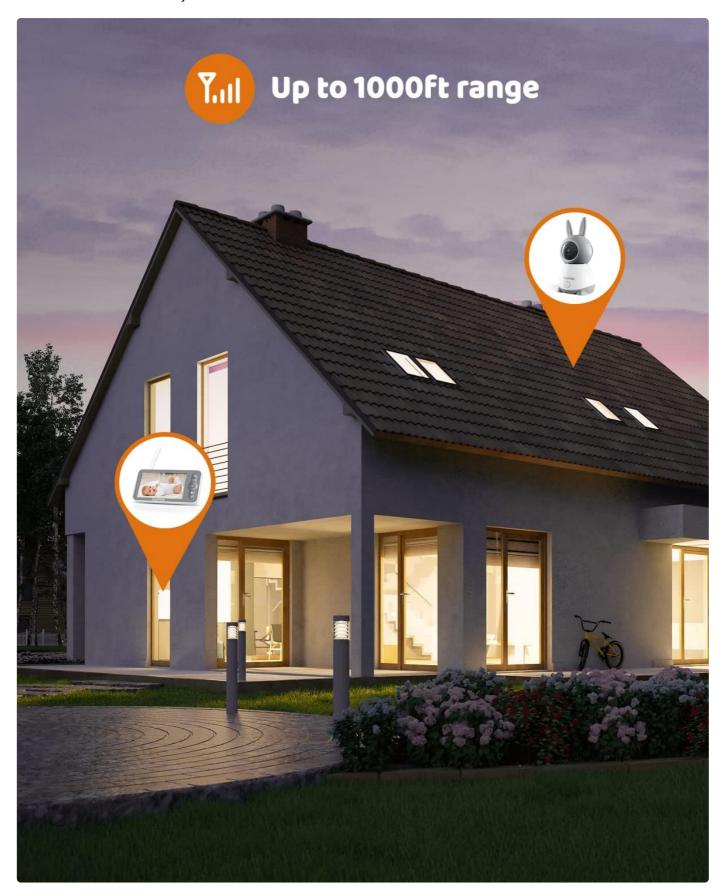

Image 12: The monitor offers a transmission range of up to 1000ft.

# 6. MAINTENANCE

To ensure the longevity and optimal performance of your Codnida Baby Monitor, follow these maintenance guidelines:

- Cleaning: Use a soft, dry cloth to clean the camera lens and display screen. Do not use abrasive cleaners or solvents.
- Storage: When not in use for extended periods, store the monitor in a cool, dry place away from direct sunlight and extreme temperatures.
- Battery Care: Avoid fully discharging the battery frequently. Charge the unit regularly to maintain battery health.

# 7. TROUBLESHOOTING

If you encounter any issues with your Codnida Baby Monitor, please refer to the following common troubleshooting tips:

- No Picture/Sound: Ensure both the camera and parent unit are powered on and fully charged. Check that they are within range of each other.
- **Poor Signal:** Move the parent unit closer to the camera unit. Reduce obstacles between the units (e.g., thick walls, large appliances).
- Interference: Keep the monitor away from other electronic devices that may cause interference (e.g., Wi-Fi routers, microwaves).
- Reset: If issues persist, try resetting both units. Refer to the included manual for specific reset instructions using the reset pin.
- **App Connection Issues:** Ensure your Wi-Fi network is stable and the password is correct. Restart your router and try connecting again.

# 8. SPECIFICATIONS

Feature	Specification
Model Name	BM101-M
