## 2. Installation and Setup

Before operating your new Haier washer-dryer, ensure proper installation to guarantee safety and optimal performance. This appliance requires a stable, level surface and appropriate electrical and water connections.

### 2.1 Unpacking

Carefully remove all packaging materials, including the transport bolts located at the rear of the machine. Retain packaging for future transport if needed.

### 2.2 Positioning

Place the appliance on a firm, flat floor. Ensure there is adequate space around the machine for ventilation and access. Adjust the leveling feet to ensure the machine is perfectly stable and balanced.

## 2.3 Connections

- **Water Supply:** Connect the inlet hose to a cold water tap with a 3/4" thread. Ensure connections are tight to prevent leaks.
- **Drainage:** Securely place the drain hose into a standpipe or connect it to a sink trap, ensuring it is not kinked or obstructed.
- **Electrical:** Plug the power cord into a grounded electrical outlet. Ensure the voltage and power rating match your household supply (230 Volts, 2000 Watts).

## 2.4 Dimensions

The compact design of the I-Pro Series 5 allows for flexible placement. Refer to the diagram below for detailed dimensions.

Dimensional drawing of the Haier I-Pro Series 5 HWD80-B14959U1, showing a depth of 46 cm, width of 59.5 cm, and height of 85 cm. The diagram also indicates a total depth of 108.5 cm with the door fully open.

Product Dimensions (L x W x H): 55 x 60 x 85 cm; Weight: 75 kg.

## 3. Operating Instructions

Your Haier I-Pro Series 5 washer-dryer offers a variety of programs and features to cater to different fabric types and laundry needs.

### 3.1 Control Panel Overview

The intuitive control panel allows you to select programs, adjust settings, and monitor the wash/dry cycle. Refer to the main product image for a visual guide to the control panel.

### 3.2 Loading Laundry

Open the large drum door and load your laundry. The appliance has a washing capacity of 8 kg and a drying capacity of 5 kg. Do not overload the machine to ensure optimal cleaning and drying results.

## Tambor XL

Amplio tambor con iluminación led interior y diseño almohadillado que garantiza un máximo cuidado de tus prendas.

Image showing the large 36 cm drum opening of the Haier I-Pro Series 5, designed for easy loading and unloading of laundry. The drum features an interior LED light for visibility.

### 3.3 Program Selection

Turn the program selector dial to choose the desired wash or wash-dry program. Available programs are designed for various fabric types and soil levels.

### 3.4 Special Functions

- **Direct Motion Motor:** This innovative motor is directly connected to the drum, reducing noise and vibrations while enhancing durability and efficiency.
- **I-Refresh Technology:** Utilizes micro-steam to refresh clothes, remove odors, fine dust, and allergens, and reduce wrinkles without water or detergent contact. Ideal for delicate items or quick refreshes.

## Tecnología de Vapor I-Refresh

El vapor elimina olores, reduce pliegues y desinfecta las fibras acabando con las bacterias y los alérgenos que se encuentran en tus prendas.

Visual representation of the I-Refresh Steam Technology, illustrating how steam eliminates odors, reduces wrinkles, and disinfects fibers by targeting bacteria and allergens in garments.

- **hOn App Connectivity:** Connect your washer-dryer to the hOn app via Wi-Fi for remote control, access to additional programs, and features like Washing-Lens, which helps identify fabric types and suggests optimal wash cycles.

## Experiencia Conectada

Controla tu lavadora secadora a distancia con la App hOn y crea un armario virtual con la función Washing-Lens para saber el ciclo más adecuado para cada prenda.

An image depicting a hand holding a smartphone displaying the hOn app interface, demonstrating the connected experience for controlling the washer-dryer remotely and utilizing features like Washing-Lens.

### 4. Maintenance and Care

Regular maintenance ensures the longevity and hygienic operation of your Haier washer-dryer.

#### 4.1 Cleaning the Appliance

- **Exterior:** Wipe the exterior surfaces with a soft, damp cloth. Avoid abrasive cleaners.
- **Detergent Drawer:** Periodically remove and clean the detergent drawer to prevent residue buildup.
- **Door Seal:** After each wash, wipe the door seal to remove any lint or moisture, preventing mold growth.
- **Smart Dual Spray:** This automatic cleaning system activates at the end of each cycle, spraying water to clean the door seal and glass, ensuring a more hygienic wash.

## Tecnología Smart Dual Spray

Garantiza un lavado más higiénico y prolonga la durabilidad de la lavadora secadora con un sistema de limpieza automático al finalizar cada ciclo de lavado.

An image illustrating the Smart Dual Spray Technology, which ensures a more hygienic wash and prolongs the washer-dryer's durability by automatically cleaning the machine at the end of each cycle.

- **ABT (Antibacterial Treatment):** Haier's exclusive antibacterial material protects vulnerable areas like the detergent drawer and door seal from mold and bacteria formation, contributing to a 99% more hygienic wash cycle.

### 4.2 Filter Cleaning

Regularly check and clean the drain pump filter to prevent blockages and ensure efficient drainage. Refer to the full user manual for detailed instructions on accessing and cleaning the filter.

### 5. Troubleshooting

This section provides solutions to common issues you might encounter with your washer-dryer. For more complex problems, contact customer support.

Problem	Possible Cause	Solution
Machine does not start	Power cord unplugged, door not closed properly, program not selected.	Check power connection, ensure door is securely latched, select a program and press start.
Excessive vibration/noise	Transport bolts not removed, machine not level, uneven load.	Remove transport bolts, adjust leveling feet, redistribute laundry inside the drum.
Water not draining	Drain hose kinked/blocked, drain pump filter clogged.	Check drain hose for kinks, clean the drain pump filter.
Clothes not drying properly	Overloaded, wrong drying program, lint filter clogged.	Reduce load size, select appropriate drying program, clean the lint filter.

## 6. Technical Specifications

Specification	Value
Brand	Haier
Model Number	HWD80-B14959U1 (31019000)
Type	Freestanding Washer-Dryer
Washing Capacity	8 Kilograms
Drying Capacity	5 Kilograms
Spin Speed	1400 RPM
Product Dimensions (L x W x H)	55 x 60 x 85 cm
Weight	75 Kilograms
Voltage	230 Volts
Power	2000 Watts
Noise Level	72 dB
International Article Code (EAN/UPC)	06921081593547

## 7. Warranty and Support

For warranty information, please refer to the warranty card included with your appliance or visit the official Haier website for your region. Keep your purchase receipt as proof of purchase.

For technical support, spare parts, or service requests, please contact Haier customer service. Contact details can typically be found on the Haier website or in the documentation provided with your product.

When contacting support, please have your model number (HWD80-B14959U1) and serial number (if applicable) ready.
