Equantu SQ600

Equantu Azan Clock Quran Speaker

MODEL: SQ600 USER MANUAL

Introduction

The Equantu Azan Clock Quran Speaker SQ600 is an Islamic device designed to assist with daily prayer times and Quranic learning. This device functions as an alarm clock, a Quran speaker, and an Azan (Athan/Prayer) clock, offering features such as one-click Azan time setting, voice reminders for prayer, and integrated Quran recitations.

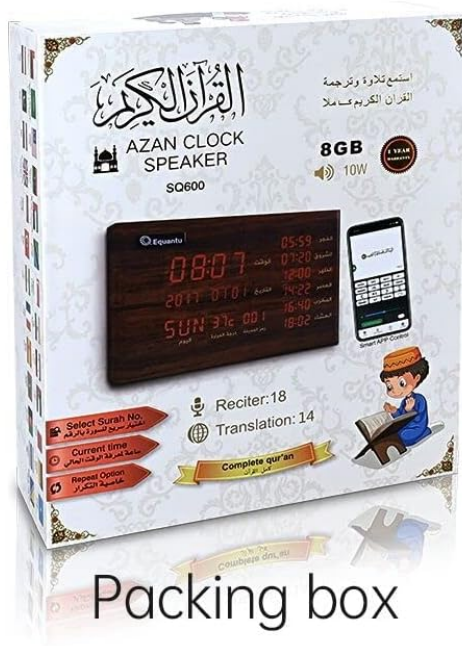

It supports control via touch, Bluetooth, and a dedicated mobile application, providing flexibility in operation. The clock is designed for indoor use and features a wooden frame with an analog display.

Package Contents

Please verify that all items listed below are included in your package:

- Equantu Azan Clock Quran Speaker (SQ600)
- Remote Control
- User Manual
- Power Adapter

Setup

- Power Connection:** Connect the provided power adapter to the DC input port on the back of the Azan Clock. Plug the adapter into a standard electrical outlet. The clock will power on automatically.
- Initial Setup:** Upon first power-on, the clock may display default settings. It is recommended to set the correct time zone and location for accurate Azan times.
- Mobile App Download (Optional):** For enhanced control and features, download the official Equantu app from your smartphone's app store (available for Android and iOS). Search for "Equantu" or refer to the QR code in the printed manual if available.
- Bluetooth Pairing (Optional):** If using Bluetooth for audio playback, activate Bluetooth on your mobile device

and search for the Azan Clock (e.g., "Equantu SQ600"). Pair the devices.

Operating Instructions

Setting Azan Time and Location

The Azan Clock supports over 6000 cities worldwide for accurate prayer time calculations. You can set the Azan time and location using the mobile application or the remote control.

- **Using the Mobile App:** Open the Equantu app and connect to your device. Navigate to the "Azan Setting" or "Location Setting" menu. The app allows for one-click setting of Azan times by automatically detecting your current position or by manually entering longitude and latitude.
- **Manual Setting (Remote Control):** Refer to the detailed instructions in the printed manual for manual setting using the remote control buttons. This typically involves navigating through menus to select city, time zone, and calculation methods.

One-click set Azan time

Support 6000+ cities around the world

This product can be used with APP that can be used by both Android and ios devices to set azan time, support 6000+ cities around the world, and can locate with one key, eliminating the tedious setting steps

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the surface of the clock. Avoid using abrasive cleaners or solvents, which may damage the wood finish or display.
- **Power:** Ensure the clock is connected to a stable power source. If using batteries (not included), replace them when the display dims or functions become erratic.
- **Environment:** Keep the clock in a dry environment, away from direct sunlight, extreme temperatures, and high humidity to prevent damage to electronic components and the wooden casing.

Troubleshooting

- **Clock Not Powering On:**
 - Check if the power adapter is securely connected to both the clock and the power outlet.
 - Ensure the power outlet is functional.

- **Incorrect Azan Times:**

- Verify that the correct city, time zone, and calculation method are selected in the settings (via app or remote control).
- Ensure the clock's internal time is accurate.

- **App Connectivity Issues:**

- Ensure Bluetooth is enabled on your smartphone and the clock.
- Make sure the app is updated to the latest version.
- Try restarting both the clock and your smartphone.

- **No Sound from Speaker:**

- Check the volume level on the clock and via the remote/app.
- Ensure the speaker is not muted.
