CubicFun Santa Maria Ship Model

CubicFun Santa Maria Ship Model 3D Puzzle Instruction Manual

Brand: CubicFun | Model: Santa Maria Ship Model

INTRODUCTION

This instruction manual provides detailed guidance for assembling your CubicFun Santa Maria Ship Model 3D Puzzle. The Santa Maria was the largest of the three Spanish ships used by Christopher Columbus in his first voyage across the Atlantic Ocean in 1492. This model kit allows you to recreate this historic vessel with intricate details. Please read all instructions carefully before beginning assembly.

SAFETY INFORMATION

- Recommended for ages 10 and up. Adult supervision is recommended for younger users.
- Keep small parts away from children under 3 years old to prevent choking hazards.
- Handle pieces with care to avoid bending or breaking.
- This product is made from paper foam board. Do not expose to open flames or excessive heat.

PACKAGE CONTENTS

Verify that all components are present before starting assembly.

WHAT'S IN THE BOX?

- Pre-cut foam board puzzle sheets (204 pieces)
- Illustrated instruction booklet
- Small accessory bag (if applicable, for ropes or flags)

ASSEMBLY INSTRUCTIONS

Follow the numbered steps in the included instruction booklet. No glue or tools are required for assembly, as pieces are designed to interlock.

General Assembly Tips:

1. **Identify Pieces:** Each piece is numbered. Match the numbers on the puzzle sheets to the steps in the instruction booklet.
2. **Punch Out Carefully:** Gently push out the pieces from the foam board. Do not force them to avoid damage.
3. **Follow Order:** Assemble the model strictly according to the numerical sequence provided in the manual.
4. **Interlocking Tabs:** Ensure all tabs are fully inserted into their corresponding slots for a secure fit.
