SETUP GUIDE

1. Physical Setup

- Place the projector on a stable, flat surface.
- Adjust the projection angle using the adjustable foot at the front of the projector if needed.
- Ensure adequate ventilation around the projector.

Image: A family enjoying a movie projected onto a large screen in a dimly lit room, demonstrating the large screen experience.

2. Power On

- Connect the power cable to the projector's power port and then to a power outlet.
- Press the power button on the projector or the remote control to turn it on.

3. Focus & Keystone Correction

- **Focus:** Rotate the focus ring around the lens until the image is sharp and clear.
- **Keystone Correction:** Use the keystone correction dial (or remote buttons if available) to adjust the image shape if it appears trapezoidal. The projector supports auto trapezoid correction for convenience.

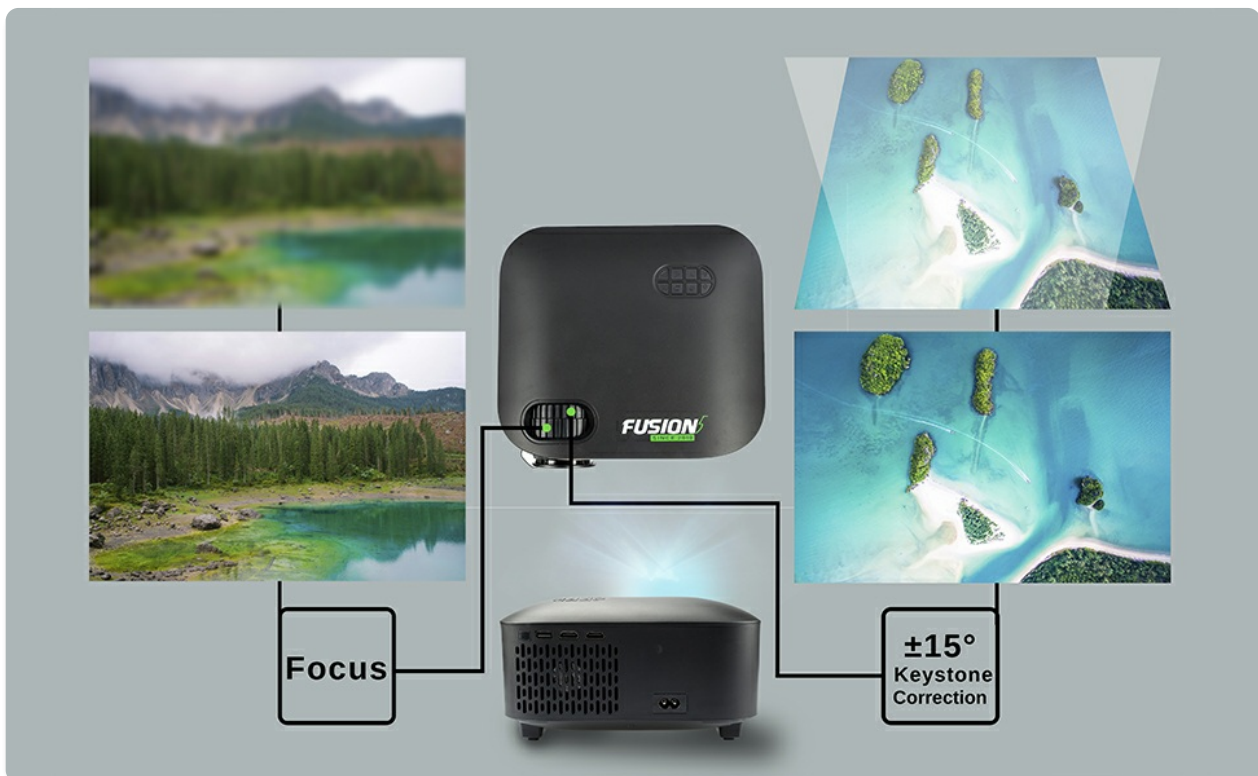

Image: A diagram illustrating how to adjust the focus and $\pm 15^\circ$ keystone correction on the FUSION5 projector to achieve a clear, rectangular image.

4. Connectivity

- **HDMI/USB/AV:** Connect your device (laptop, game console, TV stick, DVD player, USB drive) to the corresponding port on the projector using the appropriate cable.
- **Wireless Mirroring (iOS/Android):** Access the 'iOS Wi-Fi Mirroring' or 'Android Mirroring' option from the main menu. Follow the on-screen instructions to connect your smartphone or tablet wirelessly.
- **Bluetooth Speaker:** Select 'Bluetooth' from the main menu to pair with external Bluetooth speakers for enhanced audio.

OPERATING INSTRUCTIONS

1. Navigation

- Use the directional buttons (up, down, left, right) and 'OK' button on the projector or remote control to navigate the menu.
- The 'S' button is for Source selection, 'M' for Menu, and the curved arrow for Return/Back.

2. Input Source Selection

- From the main menu, select 'Source' to choose your desired input (HDMI1, HDMI2, AV, USB, Wireless Mirroring).

3. Projection Settings

- Access 'Settings' from the main menu to adjust projection mode (Front-Desktop, Rear-Desktop, Front-Ceiling, Rear-Ceiling), projection rotation, zoom, vertical/horizontal correction, and corner correction.

4. Media Playback

- For USB media, select 'USB' as the source and browse your files.
- For mirrored content, ensure your device is successfully connected via Wi-Fi mirroring.

MULTIFUNCTIONAL

Soft diffuse light, protects your eyes from blue light from Television.

MAINTENANCE

1. Lens Cleaning

- Use the provided lens cleaning kit to gently clean the projector lens. Avoid using abrasive materials that could scratch the lens.
- Always replace the lens cap when the projector is not in use to protect it from dust and damage.

2. Air Filter Cleaning

- Regularly check and clean the air filter to prevent overheating and maintain optimal performance. The filter can be removed for cleaning.

TROUBLESHOOTING

- **No Image:** Check power connections, input source selection, and cable connections.
- **Blurry Image:** Adjust the focus ring and keystone correction.
- **No Sound:** Check volume settings, ensure external speakers are properly connected (if used), and verify audio output settings on your source device.
- **Wireless Mirroring Issues:** Ensure both devices are on the same Wi-Fi network and follow the mirroring instructions carefully. Some streaming services may restrict mirroring due to copyright.
- **Overheating:** Ensure proper ventilation and clean the air filter.
