ULTIMEA 2.1ch Sound Bar with Subwoofer

Model: Tapio V User Manual

1. Introduction

Thank you for purchasing the ULTIMEA 2.1ch Sound Bar with Subwoofer, Model Tapio V. This sound system is designed to enhance your home entertainment experience with powerful audio and deep bass. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device. Please read this manual thoroughly before use and retain it for future reference.

2. Safety Information

- Do not expose this appliance to dripping or splashing.
- Do not place objects filled with liquids, such as vases, on the apparatus.
- Ensure proper ventilation. Do not block any ventilation openings.
- Place the sound bar and subwoofer on a stable, flat surface.
- Use only the power adapter supplied with the unit.
- Unplug the appliance during lightning storms or when unused for long periods.
- Do not attempt to disassemble or modify the unit. Refer all servicing to qualified personnel.

3. Package Contents

Carefully unpack your ULTIMEA Sound Bar system and ensure all items listed below are present and in good condition. If any items are missing or damaged, please contact your retailer.

Figure 3.1: What's in the Box

- ULTIMEA Sound Bar (Detachable)
- Wired Subwoofer
- Remote Control
- Power Adapter
- Optical Cable

- 2 to 1 RCA Cable
- Wall Brackets (2 pcs)
- Mini Cable
- User Manual (this document)

4. Product Overview

4.1 Sound Bar Components

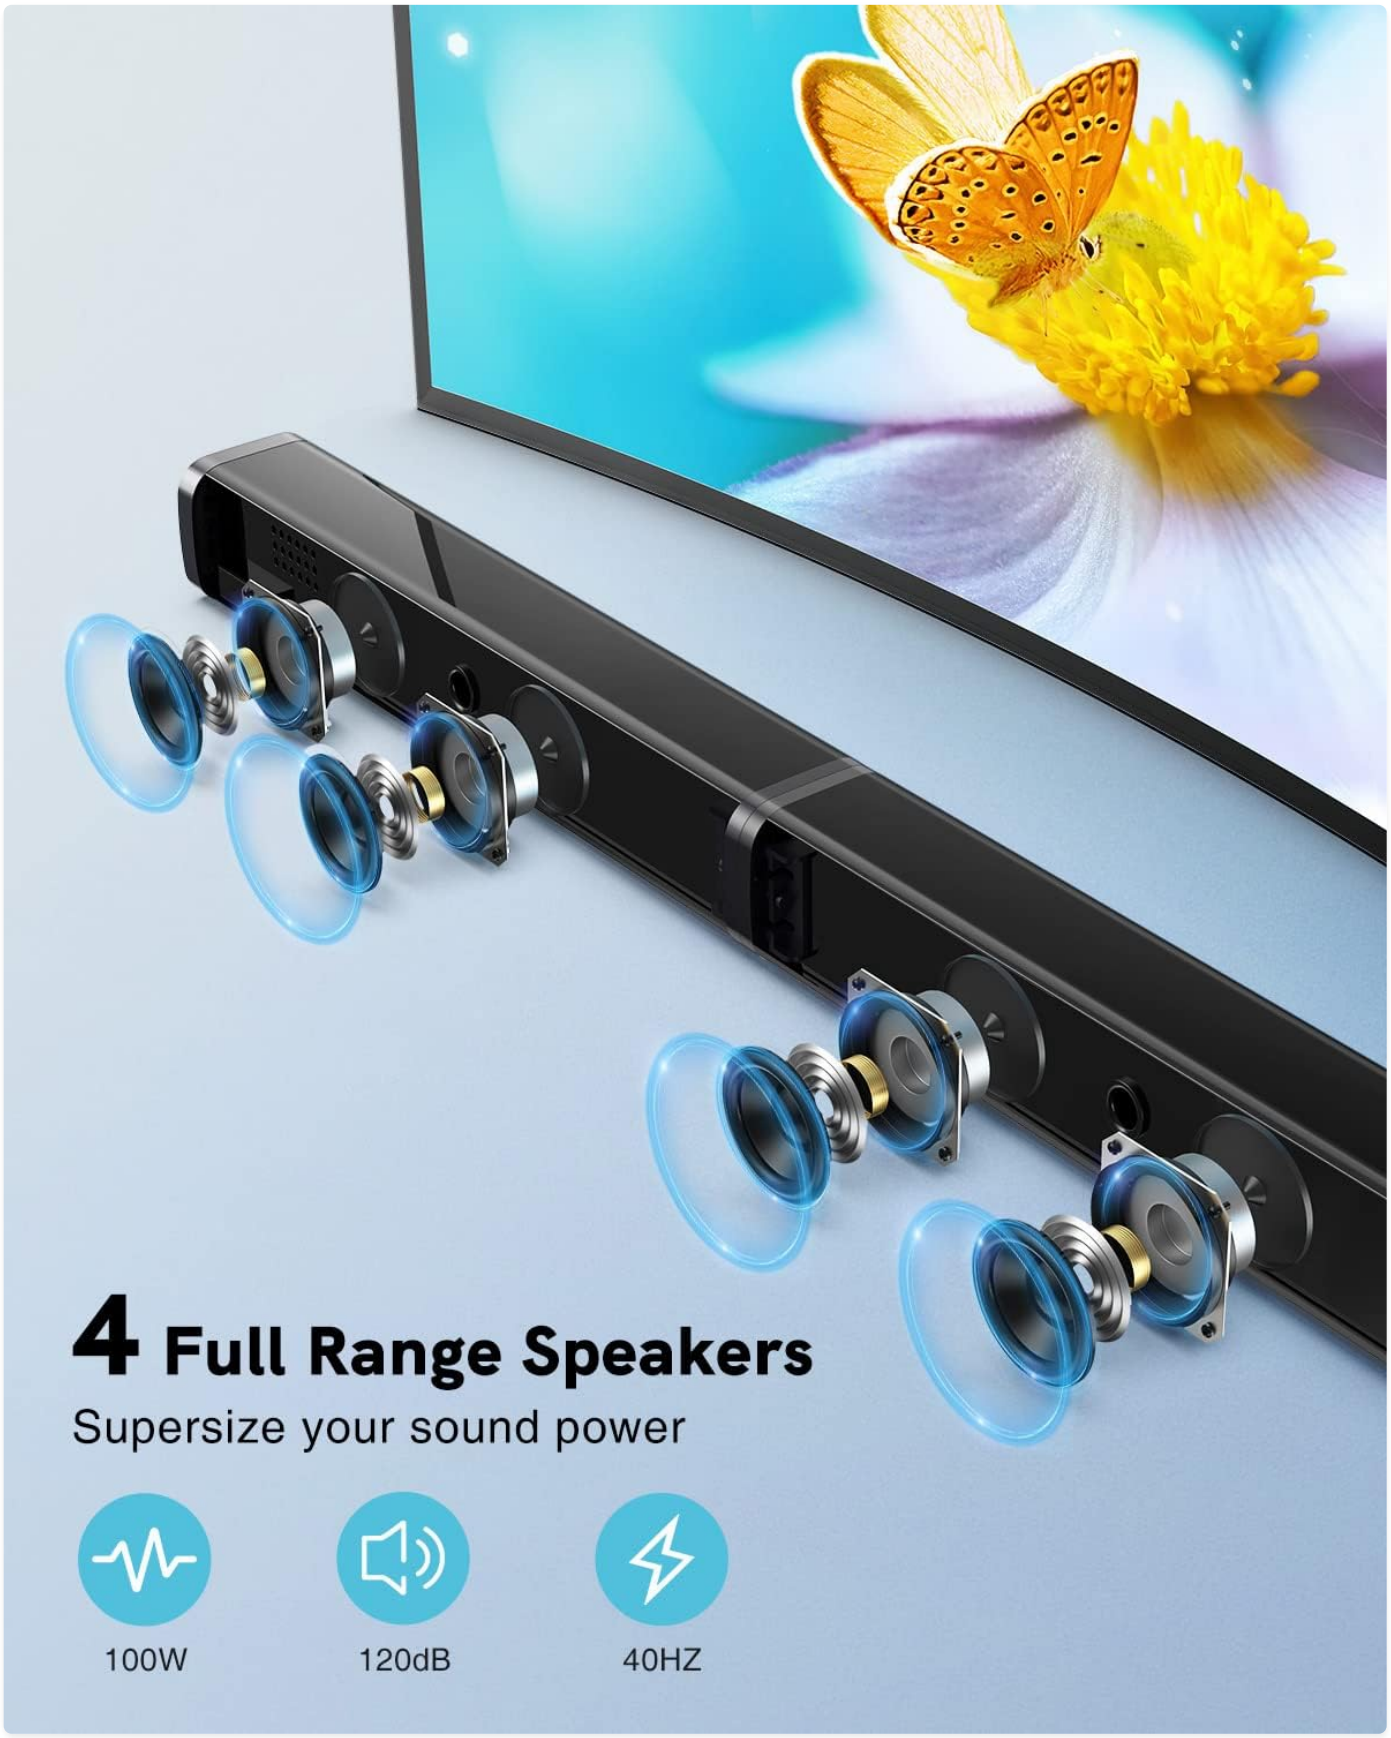

Figure 4.1: Sound Bar Internal Speakers

The sound bar features four full-range speakers designed to deliver clear and powerful audio. It has a detachable design, allowing it to be split into two pieces for flexible placement or storage.

Figure 4.2: Detachable Sound Bar Design

4.2 Subwoofer Components

Figure 4.3: Subwoofer Internal Driver

The dedicated 4-inch wired subwoofer provides deep, rich, and extended bass, enhancing the overall audio experience, especially for action-packed movies and bass-heavy music.

4.3 Control Panel and Remote Control

The sound bar features an integrated control panel for basic functions. A full-function remote control is also included for convenient operation from a distance.

5. Setup

5.1 Placement

The sound bar can be placed in front of your TV on a flat surface or mounted on the wall. The detachable design allows for flexible placement options. The subwoofer should be placed on the floor, ideally near the sound bar, for optimal bass performance.

Figure 5.1: Recommended Placement

5.2 Connections

The sound bar offers multiple connectivity options to suit your TV and other devices:

Figure 5.2: Multiple Input Options

1. **Optical Connection:** For the best audio quality, connect your TV's Optical Digital Audio Out port to the sound bar's OPTICAL IN port using the provided optical cable.
2. **AUX Connection:** Connect your TV's Audio Out (RCA L/R) or headphone jack to the sound bar's AUX IN port using the provided 2 to 1 RCA cable or a 3.5mm audio cable.
3. **USB/TF Card:** Insert a USB drive or TF card into the respective port on the sound bar to play audio files directly.
4. **Bluetooth:** For wireless connection, refer to Section 6.2 for Bluetooth pairing instructions.
5. **Subwoofer Connection:** Connect the wired subwoofer to the SUB OUT port on the sound bar.

5.3 Power On/Off

After connecting all cables, plug the power adapter into the sound bar's DC 18V port and then into a wall outlet. Press the Power button on the sound bar or remote control to turn the unit on or off.

6. Operating

6.1 Basic Operation

- **Power:** Press the Power button to turn the sound bar on or off.
- **Volume:** Use the Volume Up (+) and Volume Down (-) buttons on the sound bar or remote control to adjust the volume.
- **Input Selection:** Press the Input/Mode button to cycle through available input sources (Optical, AUX, Bluetooth, USB, TF Card). The LED indicator will show the current mode.
- **Mute:** Press the Mute button on the remote control to mute or unmute the sound.

6.2 Bluetooth Pairing

To connect your Bluetooth-enabled device to the sound bar:

Figure 6.1: Bluetooth 5.0 Connectivity

1. Turn on the sound bar and switch to Bluetooth mode. The LED indicator will flash, indicating it's in pairing mode.
2. Enable Bluetooth on your device (smartphone, tablet, etc.) and search for available devices.
3. Select "ULTIMEA Tapio V" from the list of devices.
4. Once connected, the LED indicator will stop flashing and remain solid. You can now play audio from your device through the sound bar.

6.3 Equalizer (EQ) Modes

The sound bar features 5 smart EQ modes to optimize audio for different content types. Use the EQ buttons on the remote control to switch between modes:

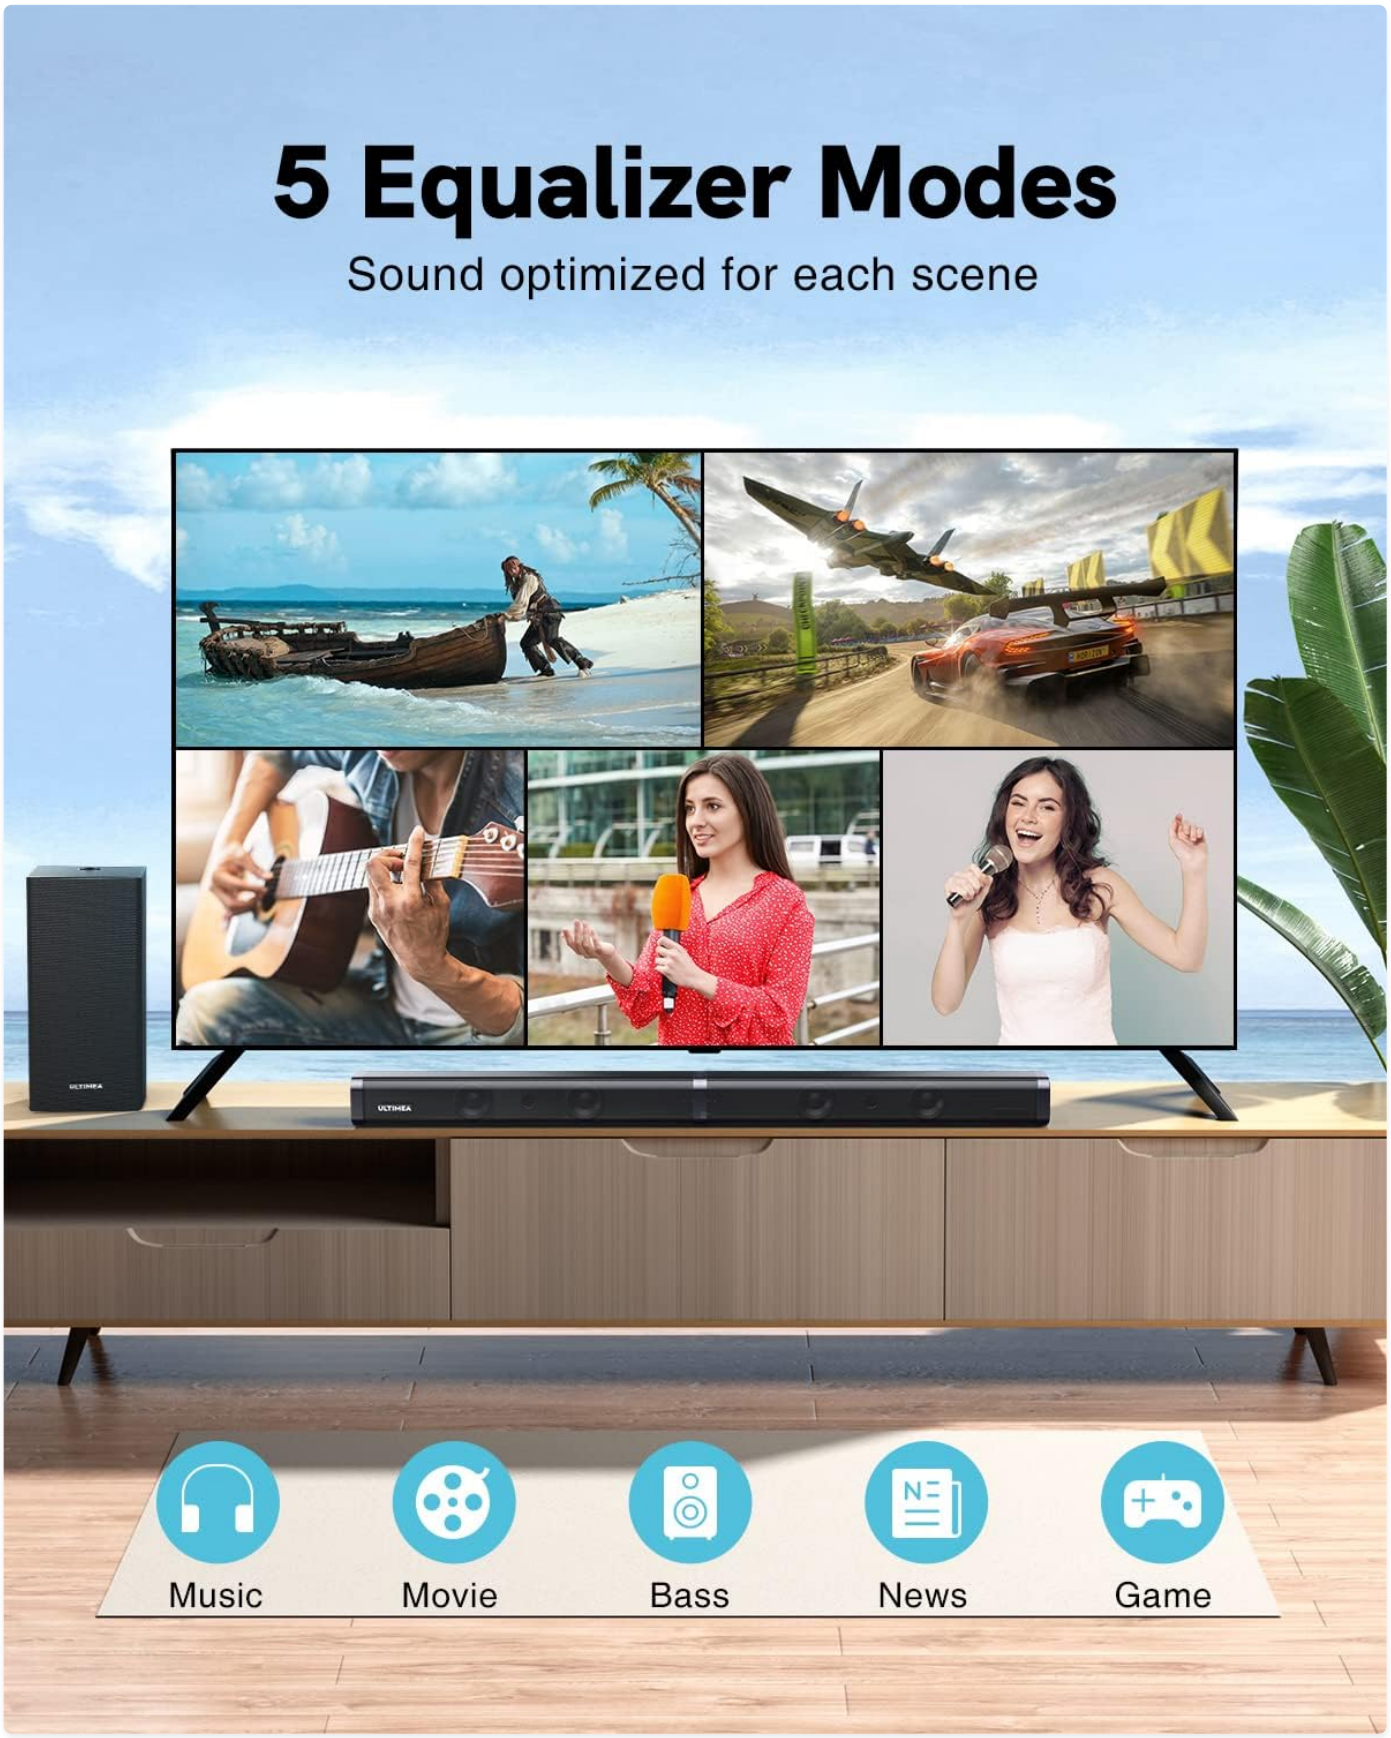

Figure 6.2: 5 Equalizer Modes

- **Music:** Optimized for music playback, providing balanced sound.
- **Movie:** Enhances dialogue clarity and surround effects for movies.
- **Bass:** Boosts low frequencies for a more impactful bass experience.
- **News:** Focuses on vocal clarity, ideal for news and talk shows.
- **Game:** Provides immersive sound effects for gaming.

6.4 LED Indicator Control

The sound bar features an LED display. If you find the LED lights distracting, you can turn them off using the 'LED OFF' button on the remote control.

Figure 6.3: LED Off Function

7. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the sound bar and subwoofer. Do not use liquid cleaners or aerosols.
- **Storage:** If storing the unit for an extended period, disconnect it from the power outlet and store it in a cool, dry place. The detachable design allows for more compact storage.
- **Ventilation:** Ensure the ventilation openings are not blocked to prevent overheating.

8. Troubleshooting

If you encounter any issues with your sound bar, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Power cable not connected; Power outlet not working	Ensure power cable is securely connected; Try a different power outlet.
No sound	Incorrect input source; Volume too low; Cables not connected properly	Select the correct input source; Increase volume; Check all cable connections.
Bluetooth not connecting	Sound bar not in pairing mode; Device Bluetooth off; Interference	Ensure sound bar is in Bluetooth mode (flashing LED); Turn Bluetooth on your device; Move closer to the sound bar.
Remote control not working	Batteries low/dead; Obstruction between remote and sound bar	Replace batteries; Remove any obstructions; Point remote directly at the sound bar.

Problem	Possible Cause	Solution
Distorted sound	Volume too high; Poor audio source quality	Lower the volume; Try a different audio source.

If the problem persists after trying these solutions, please contact ULTIMEA customer support.
