JEKCA ST19ML60

JEKCA Buffalo 01S Building Blocks Instruction Manual

Model: ST19ML60

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, use, and maintenance of your JEKCA Buffalo 01S Animal Plastic Building Blocks set, model ST19ML60. Please read this manual thoroughly before beginning assembly to ensure a smooth and enjoyable building experience. This set is designed for individuals aged 14 and above.

SAFETY INFORMATION

- **Small Parts Warning:** This product contains small parts and is not suitable for children under 3 years of age due to choking hazards.
- **Age Recommendation:** Recommended for ages 14 and above. Adult supervision is advised for younger builders within the recommended age range.
- **Material Safety:** The building blocks are made from durable plastic. Do not ingest any parts.
- **Tool Use:** The included pin driver is a small tool. Use it carefully and store it safely after use.

INCLUDED COMPONENTS

Your JEKCA Buffalo 01S set includes the following components:

- Building Bricks (over 1620 pieces)
- Instruction Manual (this document)
- Pins

- Pin Driver
- Quick Guide

SETUP AND ASSEMBLY

The JEKCA Buffalo 01S model utilizes a unique interlocking brick-through system for enhanced stability. Follow the detailed step-by-step instructions provided in the separate printed instruction manual included in your package. The general assembly process involves connecting bricks using pins and the pin driver.

Understanding the Interlocking System

JEKCA bricks are designed to interlock securely using small pins. This system creates a sturdy structure without the need for glue.

Image: Patented Interlocking Brick-through Technology. This diagram shows how JEKCA bricks are connected using pins for a strong, stable build.

Basic Assembly Steps

Refer to the included instruction manual for specific model assembly. The general principle is as follows:

1. **Connect Bricks:** Align the studs of one brick with the holes of another.
2. **Insert Pins:** Place the small pins into the designated holes to secure the connection.
3. **Use Pin Driver:** Gently push the pins fully into place using the provided pin driver. Ensure pins are inserted at a 90-degree angle for proper locking.

Image: Basic JEKCA Assembly Steps. This image illustrates the three fundamental steps for connecting JEKCA bricks: aligning, inserting pins, and securing with the pin driver.

Proceed through the manual step-by-step, ensuring each connection is firm before moving to the next. Patience and attention to detail will result in a robust and accurate model.

OPERATING (USAGE)

Once fully assembled, your JEKCA Buffalo 01S model is a sturdy display piece. It is designed for static display and

appreciation. While the interlocking system provides significant stability, the model is not intended for rough play or excessive handling. Handle the finished model with care to preserve its integrity.

MAINTENANCE

To keep your JEKCA Buffalo 01S model in excellent condition:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For more thorough cleaning, gently wipe with a slightly damp cloth and then dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** If disassembling for storage, keep all bricks, pins, and the pin driver in a secure container to prevent loss. Store in a cool, dry place away from direct sunlight to prevent material degradation or discoloration.
- **Handling:** Always lift the model from its base or sturdy sections to avoid putting stress on individual brick connections.

TROUBLESHOOTING

If you encounter any issues during assembly or with the finished model, consider the following:

- **Loose Connections:** Ensure all pins are fully inserted using the pin driver. Sometimes a pin may not be pushed all the way through, leading to a loose connection.
- **Missing Pieces:** Double-check the packaging and your work area. If a piece is genuinely missing, refer to the support section for assistance.
- **Difficulty Fitting Bricks:** Ensure you are using the correct bricks and following the manual's orientation. Some connections may require a firm, but gentle, push. Do not force pieces together.
- **Model Instability:** Review previous steps in the instruction manual to confirm all connections are correctly made and pins are fully secured. The interlocking system is designed for stability, so instability usually indicates an assembly error.

SPECIFICATIONS

Brand	JEKCA
Model Number	ST19ML60
Product Name	Buffalo 01S Animal Plastic Building Blocks
Number of Pieces	1620

Material Type	Plastic
Recommended Age	14 years and above
Approximate Assembled Dimensions (L x W x H)	14.02 x 5.91 x 8.35 inches (35.6 x 15.0 x 21.2 cm)
Assembly Required	Yes
