Walimex Pro 23131

Walimex Pro Streaming Frame Multifunctional Holder

Model: 23131

INTRODUCTION

The Walimex Pro Streaming Frame is a versatile and lightweight multifunctional holder designed to consolidate multiple photography and videography accessories onto a single mounting solution. It eliminates the need for numerous tripods by providing various connection points for cameras, microphones, LED lights, flash units, and smartphone holders. With a robust load capacity of up to 3 kg, this frame facilitates the creation of compact and mobile photo or video studios, suitable for both professional and hobbyist applications.

WHAT'S IN THE BOX

Please check the package contents upon receipt to ensure all items are present:

- 1 x Walimex Pro Streaming Frame (Multifunctional Holder)
- 3 x 1/4 inch Screws

1x MULTIFUNKTIONSHALTER
3x 1/4 ZOLL SCHRAUBEN

PRODUCT FEATURES

- **Multifunctional Mounting:** Allows attachment of various photography and videography equipment to a single frame, supporting up to 7 individual accessories simultaneously.
- **High Compatibility:** Equipped with two hot shoe connectors, three 1/4 inch threads, and three matching 1/4 inch screws. Universally compatible with smartphone holders, compact cameras, DSLR cameras, LED lighting, flashes, and microphones.
- **Versatile Applications:** Ideal for live streaming, product photography, mobile photo studios, video calls, podcast recordings, and content creation.
- **Space-Saving Design:** Lightweight and compact, mountable in both portrait and landscape orientations. Multiple frames can be connected for expanded setups.
- **Robust Construction:** Designed for durability and high functionality, supporting a load capacity of up to 3 kg.

MEHR ANSCHLÜSSE, MEHR FLEXIBILITÄT

2x Blitzschuh-Anschlüsse

Anschlüsse für parallele Nutzung von unterschiedlichem Zubehör

3x 1/4 Zoll Schrauben

Für die Befestigung von zusätzlichem Equipment

3x 1/4 Zoll Gewinde

Halter kann an allen gängigen Stativen angebracht werden

SETUP INSTRUCTIONS

1. Mounting to a Tripod:

Locate the 1/4 inch thread at the center base of the streaming frame. Attach the frame to any standard tripod equipped with a 1/4 inch screw. Ensure it is securely tightened for stability.

2. Attaching Accessories via Hot Shoe:

The frame features two hot shoe connections. Slide accessories such as LED lights, microphones, or flash units into these hot shoe mounts until they click into place or are securely fastened by their locking mechanism.

3. Attaching Accessories via 1/4 inch Screws/Threads:

Utilize the three 1/4 inch threads on the frame to attach compatible accessories directly. For accessories requiring a screw connection, use the provided 1/4 inch screws to secure them to the frame's designated mounting points. This is ideal for smartphone holders, cameras, or other devices with a 1/4 inch screw hole.

4. Orientation Adjustment:

The streaming frame can be mounted on a tripod in both portrait and landscape orientations, depending on your shooting requirements. Adjust the tripod head or the frame's attachment point as needed.

OPERATING INSTRUCTIONS

The Walimex Pro Streaming Frame is designed for intuitive use, allowing you to quickly set up your desired equipment configuration.

- **Device Placement:** Position your camera, smartphone, microphone, or lighting units onto the frame using the appropriate hot shoe or 1/4 inch screw connections. Ensure all devices are securely fastened before operation.
- **Balancing Load:** When attaching multiple accessories, distribute the weight as evenly as possible across the frame to maintain stability, especially when mounted on a tripod. The maximum load capacity is 3 kg.
- **Adjusting Position:** Once accessories are mounted, make any necessary adjustments to their

angles or positions to achieve optimal lighting, sound, or framing for your content.

- **Connecting Multiple Frames:** For more extensive setups, multiple Walimex Pro Streaming Frames can be linked together using their 1/4 inch threads and screws, creating a larger mounting surface.

KOMPATIBILITÄT walimex_{pro}

MAINTENANCE

To ensure the longevity and optimal performance of your Walimex Pro Streaming Frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the frame with a soft, dry cloth to remove dust and fingerprints. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid abrasive cleaners or solvents.
- **Storage:** Store the streaming frame in a dry, cool place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check all screws and connection points for tightness. Ensure there are no signs of damage or wear that could affect stability.

TROUBLESHOOTING

If you encounter any issues with your Walimex Pro Streaming Frame, refer to the following common problems and solutions:

- **Issue:** Accessories feel loose or unstable on the frame.
Solution: Ensure all hot shoe mounts are fully engaged and any locking mechanisms are tightened. For 1/4 inch screw connections, verify that the screws are securely fastened. Check if the accessory itself has a stable mounting point.
- **Issue:** The frame is unstable when mounted on a tripod.
Solution: Confirm that the frame is tightly screwed onto the tripod's 1/4 inch thread. Ensure the tripod itself is stable and on a level surface. Redistribute the weight of attached accessories if they are heavily unbalanced.
- **Issue:** An accessory does not fit the hot shoe or 1/4 inch thread.
Solution: Verify that the accessory is compatible with standard hot shoe or 1/4 inch connections. Some accessories may require specific adapters not included with the streaming frame.

SPECIFICATIONS

Model Number	23131
Brand	Walimex Pro
