QKXC X3Pro

QKXC 3-in-1 Wireless Charging Station User Manual

Model: X3Pro

Brand: QKXC

PRODUCT OVERVIEW

The QKXC 3-in-1 Wireless Charging Station is designed to simplify your charging experience by providing a single, compact solution for your iPhone, Apple Watch, and AirPods. This station eliminates cable clutter and offers efficient, simultaneous charging for all your essential Apple devices.

Key Features

- **3-in-1 Charging:** Simultaneously charge your iPhone, Apple Watch, and AirPods from a single device.
- **Compact and Space-Saving Design:** With a small footprint, it helps reduce clutter on your nightstand, desk, or workspace.
- **Foldable Apple Watch Charger:** Features a built-in magnetic watch charger that can be folded for portability, making it ideal for travel.
- **Multiple Security Protections:** Equipped with over-current, over-voltage, over-temperature, short-circuit protection, and foreign object detection for safe charging.
- **Case-Friendly Charging:** Charges most phones with cases up to 4mm thick. Please remove any metal or magnetic attachments from your phone case before charging.

- **Flexible Charging Orientations:** Supports both vertical (portrait) and horizontal (landscape) charging for your phone, allowing for comfortable viewing angles while charging.
- **Wide Compatibility:** Compatible with a broad range of Apple devices, including various iPhone models (16/15/14/13/12/11/X series), Apple Watch models (Ultra 10 9 8 7 6 SE 5 4 3), and AirPods Pro/2/3 (with wireless charging case).

SETUP GUIDE

1. Unboxing and Included Components

Carefully remove all items from the packaging. Ensure you have the following components:

- QKXC 3-in-1 Wireless Charging Station
- USB-C to USB-C Cable (3.3 ft)
- 20W PD Power Adapter

2. Connecting to Power

1. Connect one end of the provided USB-C cable to the USB-C port on the back of the charging station.
2. Connect the other end of the USB-C cable to the 20W PD power adapter.
3. Plug the power adapter into a wall outlet. The charging station is now ready for use.

OPERATING INSTRUCTIONS

Charging Your iPhone

Place your iPhone directly onto the phone charging pad. The charging station supports both vertical (portrait) and horizontal (landscape) orientations. Ensure the phone is centered on the pad for optimal charging.

New full-screen experience

Turn your iPhone on its side while charging to make it even more useful when you set it down.

- ✓ **StandBy Mode**
- ✓ **Horizontal charging**

Other

- ✗ **StandBy Mode**
- ✗ **Horizontal charging**

Charging Your Apple Watch

The charging station features a built-in magnetic charger for your Apple Watch. Simply unfold the watch charger arm and place

your Apple Watch onto the magnetic pad. The watch will snap into place and begin charging.

Built-in Apple Watch Charger

Charging Your AirPods

Place your AirPods (with wireless charging case) onto the designated AirPods charging area on the base of the station. Ensure the case is properly aligned for charging to begin.

Simultaneous Charging

You can charge all three devices (iPhone, Apple Watch, and AirPods) simultaneously. The station is designed to deliver appropriate power to each device for efficient charging.

Case Compatibility

The charging station is designed to work with most phone cases up to 4mm thick. For optimal charging performance, please remove any metal or magnetic attachments, credit cards, or pop sockets from your phone case before placing it on the charger, as these can interfere with wireless charging.

Charge With Case On

Please remove any metal objects before charging

SAFETY INFORMATION

Your QKXC Wireless Charging Station is built with multiple safety features to protect your devices and ensure a reliable charging experience:

- **Over-Current Protection:** Prevents damage from excessive current.
- **Over-Voltage Protection:** Safeguards against voltage surges.
- **Over-Temperature Protection:** Monitors and regulates temperature to prevent overheating.
- **Short-Circuit Protection:** Protects against electrical shorts.
- **Foreign Object Detection (FOD):** Detects metallic objects on the charging surface that could interfere with charging or cause heat buildup.
- **Anti-Slip Silicone Pads:** Equipped with silicone pads to prevent your devices from scratching or sliding off the station.

Multiple Security Protections

Safe & Reliable

MAINTENANCE

To ensure the longevity and optimal performance of your charging station, follow these maintenance guidelines:

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry cloth to wipe the surface of the charging station. Do not use abrasive cleaners, solvents, or harsh chemicals.
- **Storage:** When not in use for extended periods, store the charging station in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping or subjecting the charging station to strong impacts, as this may damage internal components.
- **Ventilation:** Ensure the charging station has adequate ventilation during use. Do not cover it with cloths or place it in enclosed spaces that could trap heat.

TROUBLESHOOTING

If you encounter issues with your QKXC Wireless Charging Station, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging	Incorrect placement; Foreign object detected; Incompatible case; Power issue.	Ensure device is centered; Remove metal objects; Remove thick/magnetic case; Check power adapter and cable connection.
Slow charging	Not using 20W PD adapter; Background apps; Misalignment.	Use the provided 20W PD adapter; Close unnecessary apps; Realign device on the charging pad.
Station indicator light not on	No power; Faulty cable/adapter.	Ensure power adapter is plugged into a live outlet; Try a different USB-C cable or adapter if available.
Device gets warm during charging	Normal operation; Misalignment; Foreign object.	Slight warmth is normal. Ensure proper alignment; Remove any foreign objects. If excessively hot, discontinue use and contact support.
