SAFETY INFORMATION

Please read and understand all safety warnings before assembly and use. Failure to do so may result in injury or damage to the product.

- **Maximum Weight Capacity:** Do not exceed the maximum weight capacity of 285 pounds (129 kg).
- **Proper Assembly:** Ensure all components are securely fastened according to the assembly instructions to avoid injury or product damage.
- **Stable Surface:** Always use the chair on a flat, stable surface.
- **Avoid Standing:** Do not stand on the chair or use it as a step stool.
- **Children and Pets:** Keep children and pets away from the chair during assembly and adjustment.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

Component	Quantity
Backrest	1
Seat Base	1
Armrests (4D)	2
Multi-tilt Mechanism	1
Gas Lift	1
Wheelbase (Aluminum)	1
Casters	5
Magnetic Head Pillow	1
Assembly Tools & Hardware	1 Set

SETUP AND ASSEMBLY

Assembly is straightforward and typically takes 15-30 minutes. It is recommended to assemble the chair on a soft, clean surface to prevent scratches.

- 1. Attach Casters to Wheelbase:** Insert each of the five casters firmly into the holes at the end of the aluminum wheelbase until they click into place.
- 2. Insert Gas Lift:** Place the gas lift into the central hole of the assembled wheelbase. Ensure it is seated securely.
- 3. Attach Multi-tilt Mechanism to Seat Base:** Align the multi-tilt mechanism with the pre-drilled holes on the underside of the seat base. Secure it using the provided screws and tools. Ensure the front of the mechanism faces the front of the seat.
- 4. Attach Armrests:** Secure the 4D armrests to the sides of the seat base using the designated screws. Ensure they are firmly attached.
- 5. Connect Seat Base to Gas Lift:** Carefully place the assembled seat base onto the gas lift, ensuring the central hole of the mechanism aligns with the top of the gas lift. Apply gentle pressure to secure.
- 6. Attach Backrest to Seat Base:** Align the backrest with the mounting brackets on the seat base. Secure it using the remaining screws. Adjust the recline angle as desired before fully tightening.
- 7. Attach Magnetic Head Pillow:** The magnetic head pillow can be easily positioned on the upper part of the backrest. Its magnetic properties allow for wide-range adjustment and secure placement.

OPERATING INSTRUCTIONS

The Secretlab Titan Evo chair offers multiple adjustment points for personalized comfort and ergonomic support.

1. Seat Height Adjustment

Locate the lever on the right side, beneath the seat. Pull the lever up to raise the seat. To lower, remain seated and pull the lever up. Release the lever at the desired height.

2. Backrest Recline (165° Max)

Pull the recline lever located on the right side of the seat, near the backrest. Lean back to recline or forward to bring the backrest upright. Release the lever to lock the position.

3. Multi-tilt Mechanism

The multi-tilt mechanism allows for rocking motion. To enable, pull out the lever on the left side of the seat. Push it in to lock the tilt. The tension knob beneath the seat (front-center) adjusts the resistance of the rocking motion. Turn clockwise to increase tension, counter-clockwise to decrease.

4. 4D Armrests with CloudSwap™

The armrests can be adjusted in four directions: height, forward/backward, left/right, and pivot in/out. Use the buttons and levers on the armrests to make these adjustments. The CloudSwap™ system allows for easy replacement of armrest tops (additional tops sold separately).

5. 4-Way L-ADAPT™ Lumbar Support

Adjust the lumbar support using the two knobs on the right side of the backrest. One knob controls the depth (in & out) of the lumbar support, while the other controls its height (up & down). This system adapts to your spine for personalized support.

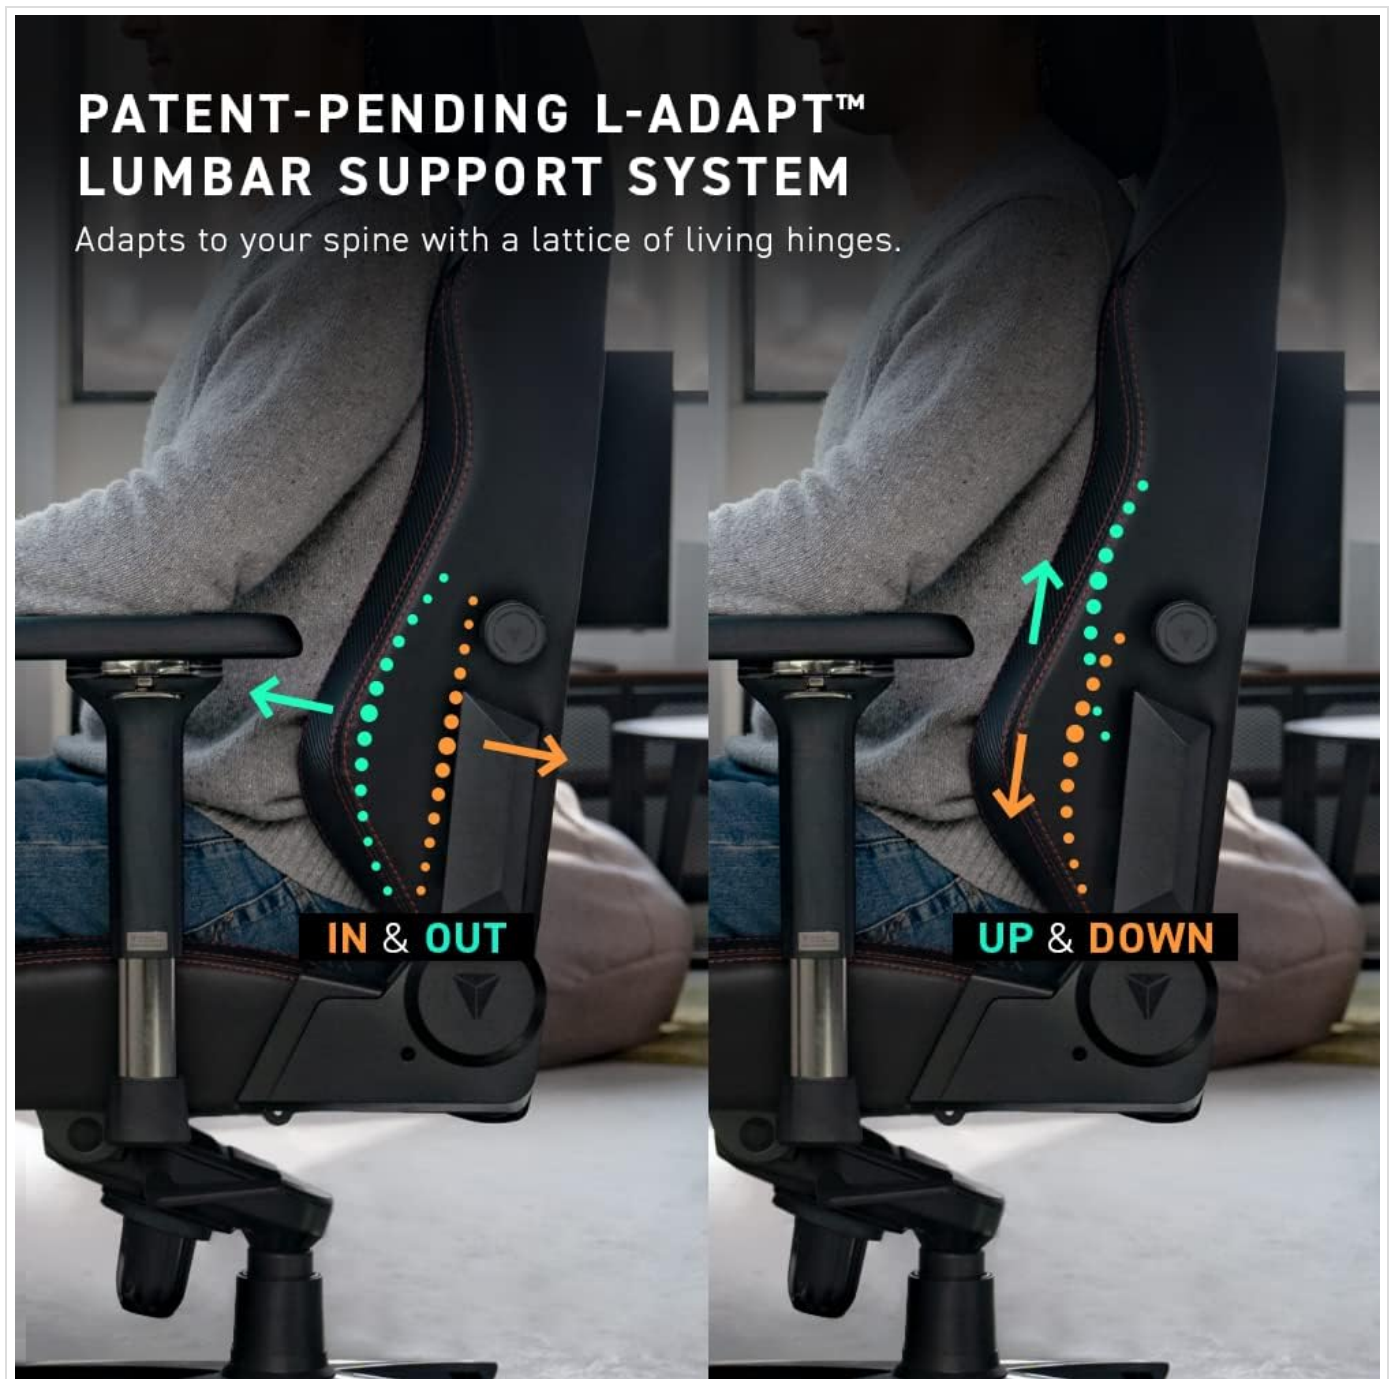

Figure 3: L-ADAPT™ Lumbar Support adjustments (In & Out, Up & Down).

6. Magnetic Memory Foam Head Pillow

The head pillow attaches magnetically to the backrest, allowing for easy vertical adjustment to provide optimal neck support. Simply slide it up or down to your preferred position.

PATENT-PENDING MAGNETIC MEMORY FOAM HEAD PILLOW

Easy adjustments. With custom embedded neodymium magnets.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your Secretlab Titan Evo chair.

- **Cleaning Leatherette:** For daily cleaning, wipe the surface with a soft, damp cloth. For deeper cleaning, use a mild soap solution and wipe dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning Fabric (if applicable):** For fabric areas, use a soft brush or vacuum cleaner to remove dust and debris. Spot clean with a mild fabric cleaner if necessary, testing on an inconspicuous area first.
- **Caster Maintenance:** Periodically check casters for hair or debris buildup and clean as needed to ensure smooth rolling.
- **Hardware Check:** Every few months, check all screws and bolts to ensure they are tight. Re-tighten if necessary.

- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause material degradation and fading.

TROUBLESHOOTING

If you encounter issues with your Secretlab Titan Evo chair, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Chair does not raise/lower	Gas lift issue or lever not engaged	Ensure the height adjustment lever is fully pulled. If the issue persists, the gas lift may need replacement. Contact support.
Backrest does not recline/lock	Recline mechanism jammed or lever not engaged	Check if the recline lever is fully engaged. Ensure no obstructions are preventing movement.

Problem	Possible Cause	Solution
Chair wobbles or feels unstable	Loose screws or uneven floor	Check and tighten all assembly screws, especially those connecting the backrest and mechanism to the seat. Ensure the chair is on a level surface.
Casters not rolling smoothly	Debris in casters	Remove any hair, dust, or debris from the caster wheels.

SPECIFICATIONS

Feature	Detail
Brand	Secretlab
Model Name	Titan Evo (R22PU-Stealth)
Model Number	M07-E24PU-STELH3R
Color	Stealth (Black Leatherette)
