Secretlab M08-E24PU-CLASS3X

Secretlab Titan Evo Classic X-Large Gaming Chair User Manual

Model: M08-E24PU-CLASS3X

1. INTRODUCTION

Welcome to the Secretlab Titan Evo Classic X-Large Gaming Chair user manual. This guide provides essential information for setting up, operating, maintaining, and troubleshooting your new ergonomic gaming chair. Designed for users between 5'11" - 6'9" and 175lbs - 395lbs, this chair offers advanced adjustability and durable construction for extended comfort during work and play.

2. PRODUCT FEATURES

- **Ergonomic Design:** Cold-cure foam construction promotes ideal posture for prolonged use.
- **Magnetic Head Pillow:** Memory foam head pillow provides enhanced neck support and pressure relief, easily adjustable and securely attaches to the backrest.
- **4D Armrests:** Full-metal armrests allow smooth, precise adjustments in four directions, featuring replaceable armrest tops for customization.
- **Adjustable Lumbar Support:** A 4-way built-in adjustable lumbar support system provides personalized back support.
- **Recline and Multi-Tilt Mechanism:** Full-length backrest with up to 165° recline and a multi-tilt mechanism for full control over your chair's position.
- **Durable Leatherette:** Constructed with new-generation premium leatherette, offering 12x greater durability than standard PU leather.
- **Reinforced Aluminum Wheelbase:** Provides extra stability and smooth movement.

PATENT-PENDING MAGNETIC MEMORY FOAM HEAD PILLOW

Easy adjustments. With custom embedded neodymium magnets.

3. SETUP

The Secretlab Titan Evo chair requires assembly. Please refer to the detailed assembly instructions provided in the product packaging for step-by-step guidance. Ensure all components are present and undamaged before beginning assembly. It is recommended to assemble the chair on a soft, clean surface to prevent scratches.

4. OPERATING INSTRUCTIONS

4.1. Height Adjustment

To adjust the chair's height, locate the lever on the right side, beneath the seat. Pull the lever upwards while applying or releasing weight from the seat to move the chair up or down. Release the lever to lock the height in place.

4.2. Recline Adjustment

The recline lever is located on the right side of the backrest. Pull the lever upwards and lean back to recline the backrest to your desired angle (up to 165°). Release the lever to lock the backrest position.

4.3. Multi-Tilt Mechanism

The multi-tilt mechanism allows the entire seat and backrest to tilt. Use the lever on the left side, beneath the seat, to engage or disengage the tilt function. A tension knob, usually located at the front under the seat, can be rotated to adjust the resistance of the tilt.

4.4. 4D Armrest Adjustment

Each armrest features multiple buttons and levers for 4-dimensional adjustment:

- **Height:** Press the button on the side of the armrest support and move the armrest up or down.
- **Forward/Backward:** Press the button on the front of the armrest pad and slide the pad forward or

backward.

- **Left/Right:** Press the button on the inner side of the armrest pad and slide the pad left or right.
- **Pivot:** Rotate the armrest pad inwards or outwards.

4.5. Lumbar Support Adjustment

Adjust the integrated 4-way lumbar support using the knobs on the sides of the backrest. Rotate the knobs to adjust the depth and height of the lumbar support to fit your lower back comfortably.

5. MAINTENANCE

To maintain the longevity and appearance of your Secretlab Titan Evo chair, regularly wipe clean the leatherette surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the material. For specific cleaning instructions or stubborn stains, refer to the Secretlab official website or contact customer support.

6. TROUBLESHOOTING

If you encounter any issues with your Secretlab Titan Evo chair, please consider the following general troubleshooting steps:

- **Squeaking Noises:** Check all bolts and screws to ensure they are tightened. Apply a small amount of silicone lubricant to moving parts if necessary.
- **Difficulty Adjusting:** Ensure no obstructions are preventing movement. Verify that adjustment levers are fully engaged or disengaged.
- **Unstable Chair:** Confirm that the wheelbase is correctly assembled and all casters are securely attached. Ensure the chair is on a flat, stable surface.

For persistent issues or concerns not addressed here, please contact Secretlab customer support.
