5. MAINTENANCE AND CARE

Proper care will ensure the longevity of your Star Wars: Legion miniatures and components.

- **Cleaning:** Dust miniatures regularly with a soft brush. For deeper cleaning, use a damp cloth with mild soap, avoiding harsh chemicals. Ensure miniatures are completely dry before storage.
- **Storage:** Store miniatures in a cool, dry place away from direct sunlight to prevent warping or paint fading. Foam trays or compartmentalized cases are recommended to protect painted miniatures during transport and storage.
- **Painting:** If you choose to paint your miniatures, use acrylic hobby paints. Apply thin coats to preserve detail. A protective varnish can be applied after painting to seal and protect the finish.
- **Card Care:** Keep game cards flat and protected. Card sleeves can prevent wear and tear during gameplay.

6. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Miniature Stability:** If a miniature is unstable on its base, ensure it is properly glued. For persistent issues, consider adding weight to the base or using a stronger adhesive.
- **Missing Components:** Carefully check all packaging and sprues. If components are genuinely missing, contact Atomic Mass Games customer support with your proof of purchase.
- **Paint Adhesion Issues:** Ensure miniatures are clean and free of mold release agents before priming. Washing miniatures with warm soapy water and allowing them to dry thoroughly before priming can improve paint adhesion.
