SIDVAR A21

SIDVAR Bluetooth Speaker Night Light with 5W Wireless Charging User Manual

MODEL: A21

Introduction

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your SIDVAR Bluetooth Speaker Night Light with 5W Wireless Charging. This versatile device integrates a Bluetooth speaker, a multi-color night light, a 5W wireless charging pad, and a phone holder into a single unit.

The SIDVAR 4-in-1 device, featuring a circular light ring, central control panel, and phone stand.

Setup Guide

1. Power Connection

Connect the provided power adapter to the device and a power outlet. Ensure you use the original adapter for optimal performance and to enable all functions, including wireless charging.

Original adapter is required for normal use

First press the "+" button on the speaker to adjust it. If the sound is still low, you need to increase the volume on your phone.

A smartphone wirelessly charging on the device, with text indicating that the original adapter is required for normal operation and to adjust volume if sound is low.

2. Bluetooth Pairing

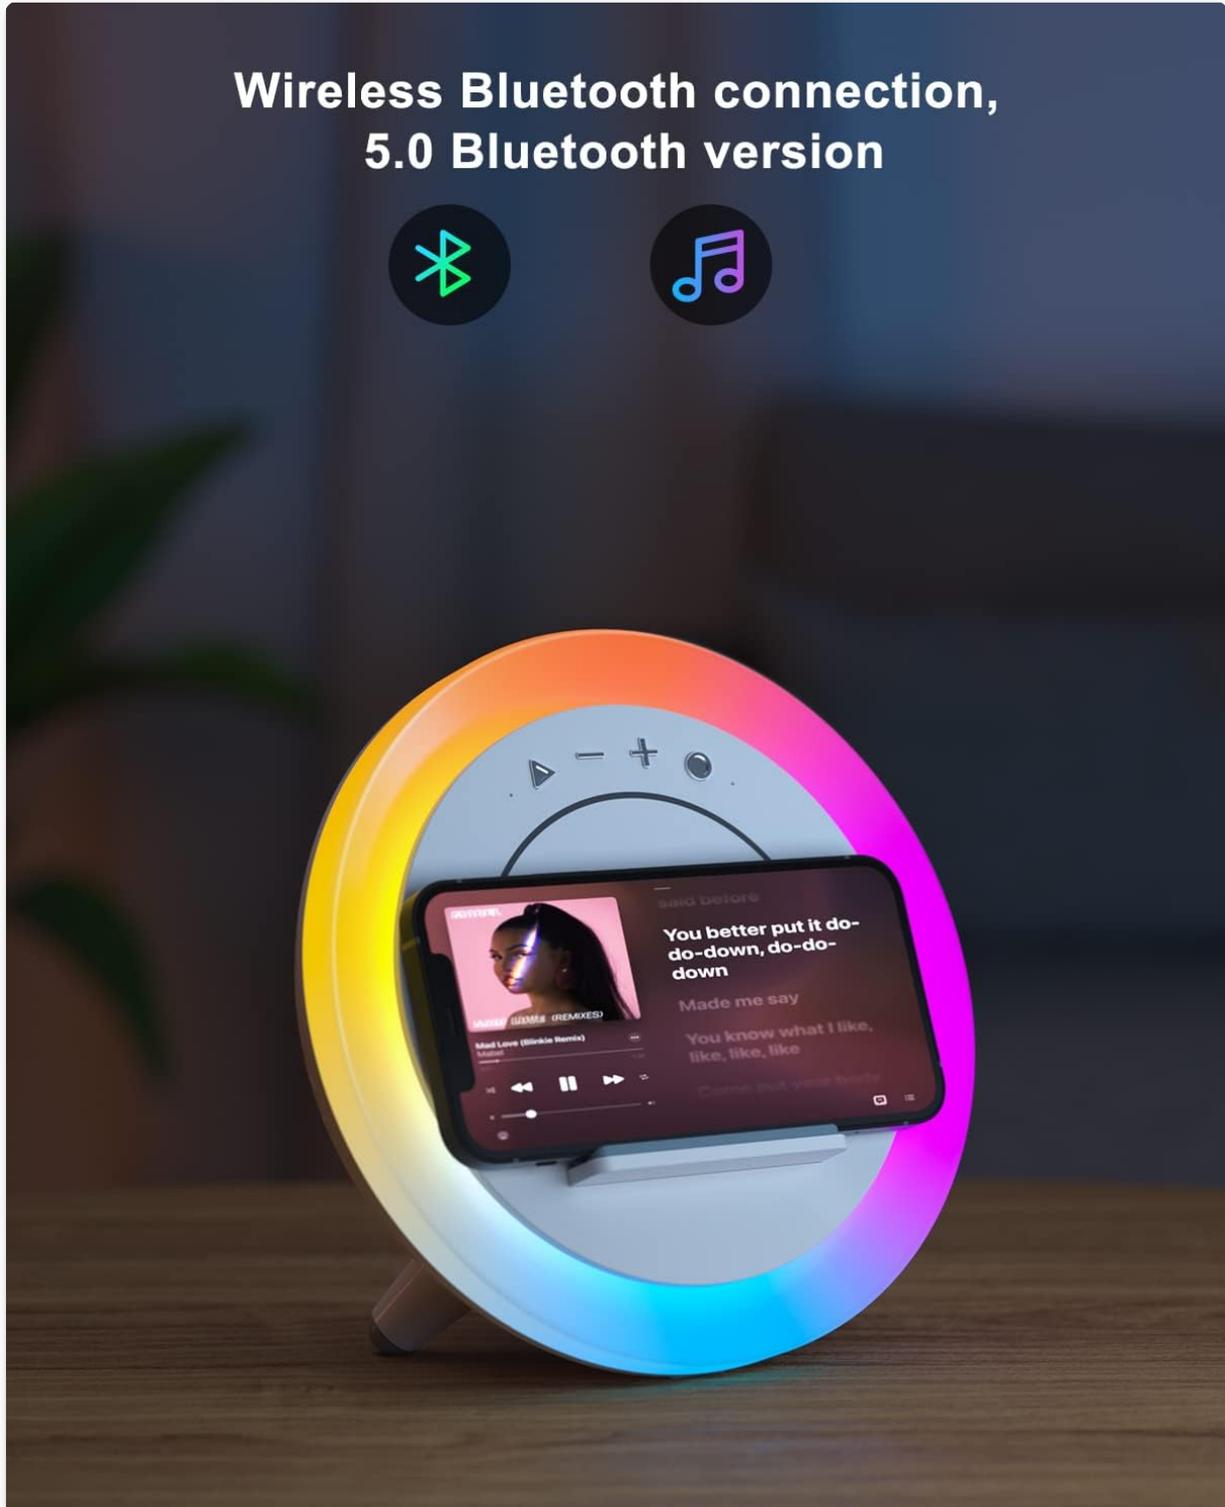

1. Power on the device by pressing the power button.
2. The device will automatically enter Bluetooth pairing mode, indicated by a flashing blue light.
3. On your smartphone or other Bluetooth-enabled device, search for "Bluetooth Speaker" in the Bluetooth settings.
4. Select the device to pair. A confirmation sound will indicate successful pairing.

Operating Instructions

1. Bluetooth Speaker Function

Once paired, you can play audio from your connected device. Use the physical buttons on the speaker for basic controls:

- **Play/Pause Button:** Press to play or pause audio.
- **Volume Up (+):** Press to increase volume.
- **Volume Down (-):** Press to decrease volume.
- **Next Track:** Long press the Volume Up (+) button.
- **Previous Track:** Long press the Volume Down (-) button.

2. Night Light Function

The device features a night light with multiple color options:

- **Light Button:** Press the light button (usually indicated by a sun or lightbulb icon) to cycle through 7 solid colors and 2 dynamic lighting modes.
- **Power Off Light:** Long press the light button to turn off the light function.

A collage showing the SIDVAR device illuminated in different solid colors (yellow, pink, blue) and dynamic rainbow modes, demonstrating its versatile lighting options.

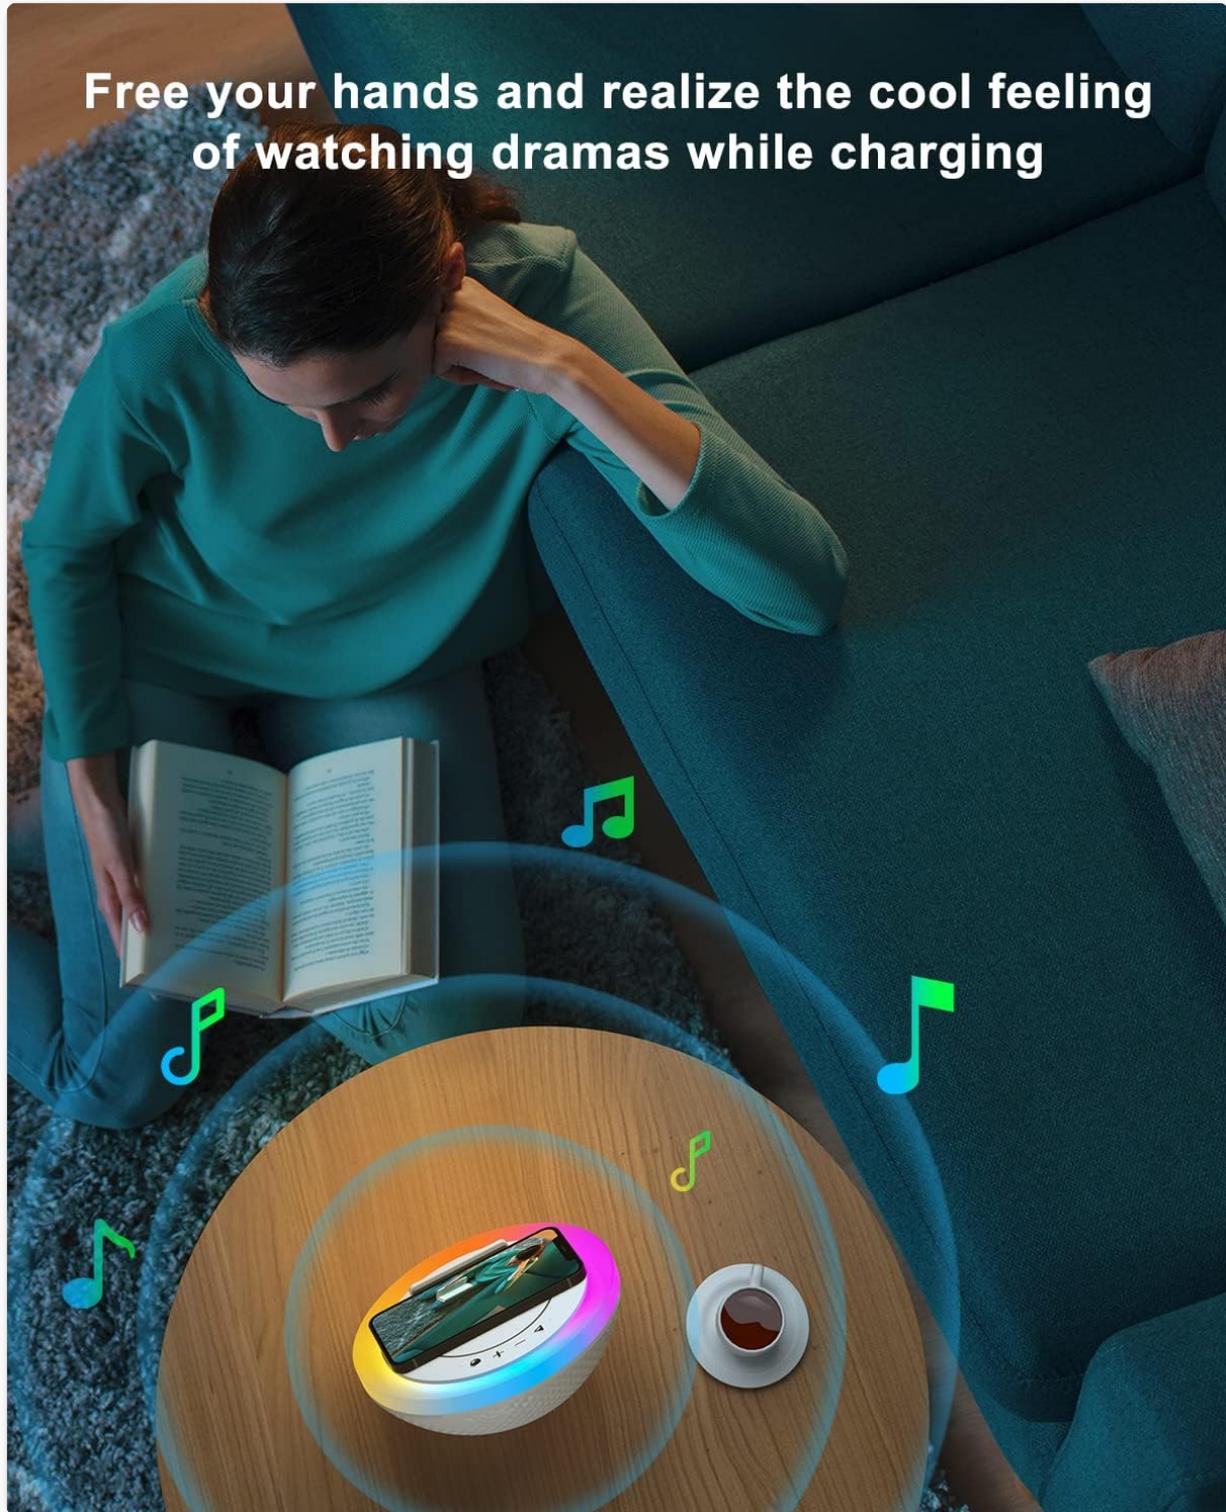

3. Wireless Charging Function

The device supports 5W Qi-certified wireless fast charging:

- Place your Qi-compatible smartphone directly onto the central charging pad.
- Ensure the phone is centered on the charging area for optimal connection.

- The charging pad is equipped with overcurrent, overcharge, overvoltage, overheating, automatic shutdown, foreign object recognition, and metal object recognition functions for safety.

Important Note: If wireless charging is interrupted or not working, ensure no magnets, metal cases, or credit cards are between your phone and the charging pad. If issues persist, restart the device.

Reduce desktop clutter, charging + audio + lighting to achieve three-in-one.

An illustration warning against placing magnets, metal cases, or credit cards near the wireless charging area of the SIDVAR device to ensure proper function.

4. Phone Holder Function

The integrated stand allows you to prop up your smartphone horizontally for convenient viewing while charging or listening to music.

Maintenance

- To clean the device, use a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Keep the device away from water and excessive moisture. It is not waterproof.
- Avoid dropping the device or subjecting it to strong impacts.

Troubleshooting

- **Low Sound Volume:** If the sound is low, first press the "+" button on the speaker. If still low, increase the volume on your connected phone.
- **Wireless Charging Not Working:** Ensure the original adapter is used. Check for any foreign objects (magnets, metal cases, credit cards) between the phone and the charging pad. If a magnet was touched, restart the device to reactivate wireless charging.
- **Bluetooth Disconnection:** If the device disconnects, ensure it is within the 33-foot wireless range and re-pair it through your device's Bluetooth settings.
