Transwon X8

Transwon Tempered Glass Screen Protector Instruction Manual

Model: X8 Series (X8 Pro / X8 Max / X8 Tablet)

PRODUCT OVERVIEW

The Transwon Tempered Glass Screen Protector is engineered to provide superior protection for your XMobile X8 Pro, X8 Max, or X8 Tablet 8-inch display. This high-quality screen protector offers exceptional clarity, touch sensitivity, and durability against scratches, impacts, and daily wear.

This image displays the complete Transwon Tempered Glass Screen Protector kit. It includes the product packaging, which highlights features like 9H hardness, explosion-proof, oleophobic function, and scratch & wear resistance. Also shown are a compatible XMobile tablet and two clear tempered glass screen protectors, ready for installation.

PACKAGE CONTENTS

Each Transwon Tempered Glass Screen Protector package includes the following items:

- 2 x Tempered Glass Screen Protectors
- 2 x Wet Wipes
- 2 x Dry Wipes
- 2 x Dust-absorbers
- 6 x Guide Stickers

KEY FEATURES

- **Compatibility:** Specifically designed for XMobile X8Pro, X8Max, and X8 Tablet 8-inch models. Not compatible with other tablet models.
- **High Response Sensitivity:** With a 0.33 mm thickness, the protector maintains the original touch response, ensuring quick app launches and smooth operation.
- **High Transparency:** A 99.99% light transmission ratio preserves the tablet's vibrant 8-inch display, offering a bright viewing experience with reduced glare.

- **Scratch & Impact Resistance:** Features 9H hardness, providing robust protection against scratches, crashes, and shocks to the tablet screen.
- **Easy, Bubble-Free Installation:** The air-exhausting adhesive allows the protector to automatically attach smoothly to your tablet screen, facilitating a simple and bubble-free application.

INSTALLATION GUIDE

Follow these steps carefully for optimal installation and to ensure a bubble-free application of your screen protector.

Preparation

- Ensure you are in a clean, dust-free environment.
- Wash your hands thoroughly to avoid transferring oils or dirt to the screen.

Step-by-Step Installation

1. **Clean the Screen:** Use the provided *wet wipe* to thoroughly clean your tablet's screen, removing all dirt, dust, and smudges. Follow immediately with the *dry wipe* to dry the screen completely.
2. **Remove Dust:** Use the *dust-absorber sticker* to gently dab the screen and remove any remaining dust particles. Ensure the screen is perfectly clean before proceeding.
3. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Hold the protector by its edges and align it precisely with your tablet's screen, paying attention to the cutouts for the camera and sensors. You may use the *guide stickers* to help with alignment before fully placing it down.
4. **Apply the Protector:** Once aligned, gently lower the protector onto the screen. The adhesive will begin to spread automatically.
5. **Remove Bubbles:** If any small bubbles appear, gently push them towards the edges of the screen using a soft cloth or the provided dry wipe. The air-exhausting adhesive is designed to minimize bubbles.

Note: For best results, avoid touching the adhesive side of the screen protector during installation.

USAGE AND CARE

Once installed, the Transwon Tempered Glass Screen Protector requires minimal special care. It is designed to maintain your tablet's original touch sensitivity and display clarity.

Maintenance

To clean your screen protector, simply wipe it with a soft, lint-free cloth. For stubborn smudges, a slightly damp cloth (with water or a screen-safe cleaner) can be used, followed by a dry wipe. Avoid harsh chemicals or abrasive materials.

TROUBLESHOOTING

- **Bubbles After Installation:** Small bubbles often disappear within 24-48 hours as the adhesive fully settles. For larger bubbles, gently lift the nearest edge of the protector and re-apply, pushing the air out. Ensure no dust is trapped underneath.
- **Dust Particles Trapped:** If dust particles are visible under the protector, carefully lift the nearest edge of the protector and use a dust-absorber sticker to remove the particle. Re-apply the protector.

- **Misalignment:** If the protector is significantly misaligned, gently lift it completely and re-align from the beginning, ensuring the screen is clean before re-application.

SPECIFICATIONS

Feature	Detail
Brand	Transwon
Compatible Devices	XMobile X8Pro / X8Max / X8 Tablet
Material	Tempered Glass
Item Hardness	9H
Thickness	0.33 mm
