3. Setup Guide

3.1 Soundbar Placement

The Bestisan SE05P Soundbar offers flexible placement options to suit your home entertainment setup. It can be placed on a desktop or mounted on a wall.

- **Desktop Placement:** Position the soundbar directly on a flat surface in front of your television. Ensure there are no obstructions in front of the speakers for optimal sound delivery.
- **Wall Mounting:** Use the provided wall mounting screws and plugs to securely attach the soundbar to a wall below your television. Refer to the included Quick Start guide for detailed wall mounting instructions.

BT 5.0 W/LOWER LATENCY

- Less buzzing naise
- Instant pair
- Range up to 30ft
- 4x stable connection

3.2 Connecting Your Soundbar

The soundbar supports multiple connection types. Choose the one that best suits your device.

- **HDMI ARC:** For the best audio quality and control using your TV remote, connect an HDMI cable (not included) from the soundbar's HDMI ARC port to your TV's HDMI ARC port. This allows your TV remote to control the soundbar's volume and power.
- **Optical:** Connect the included optical cable from the soundbar's OPTICAL port to your TV's optical digital audio output.
- **Coaxial:** Connect a coaxial cable (not included) from the soundbar's COAXIAL port to your TV's coaxial digital audio output.
- **AUX:** Use the included 3.5mm audio cable to connect the soundbar's AUX port to the headphone jack or audio output of your device.
- **USB:** Insert a USB drive into the soundbar's USB port to play audio files directly.

Powerful Acoustic Structure

Built-in 4x 20W powerful full-range speakers and 2x bass reflex tubes, produce crystal clear sound and deep bass for all your movie, music, news, gaming.

4.3 Equalizer (EQ) Modes

The soundbar features three preset EQ modes to optimize audio for different content types:

- **Movie Mode:** Enhances surround sound effects and bass for an immersive cinematic experience.
- **Music Mode:** Provides balanced audio for music playback, emphasizing clarity and fidelity.
- **Dialogue Mode:** Boosts vocal clarity, making conversations easier to understand, especially in TV shows and news.

Press the corresponding **MOVIE**, **MUSIC**, or **DIALOGUE** button on the remote control to switch between modes.

4.4 Bluetooth Pairing

To connect a Bluetooth device to your soundbar:

1. Press the **BT** button on the remote control or the soundbar to switch to Bluetooth mode. The indicator light will flash, indicating pairing mode.
2. Enable Bluetooth on your mobile device (smartphone, tablet, etc.) and search for available devices.
3. Select "BESTISAN SE05P" from the list of devices.
4. Once connected, the indicator light on the soundbar will stop flashing and remain solid. You can now stream audio wirelessly from your device.

Broad Remote Compatibility

Support HDMI-ARC&HDMI-CEC,and could let you use your TV remote or universal remote to control volume and on/off.

Image: Shows a smartphone wirelessly connected to the Bestisan Soundbar via Bluetooth 5.0, emphasizing lower latency, less buzzing noise, instant pairing, and a stable connection up to 30 feet.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Bestisan Soundbar, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the soundbar. Do not use liquid cleaners or aerosol sprays, as they may damage the finish or internal components.
- **Ventilation:** Ensure the soundbar's vents are not blocked to prevent overheating.
- **Storage:** If storing the soundbar for an extended period, disconnect it from power and store it in a cool, dry place.

6. TROUBLESHOOTING

If you encounter issues with your soundbar, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from soundbar	Incorrect input selected; cables not connected properly; soundbar muted; TV audio output settings.	Ensure correct input is selected. Check all cable connections. Unmute the soundbar. Adjust TV audio output to external speakers or PCM format.
Remote control not working	Battery depleted; obstruction between remote and soundbar; remote not pointed correctly.	Replace remote battery. Remove any obstructions. Point remote directly at the soundbar's sensor.
Bluetooth connection issues	Soundbar not in pairing mode; device too far; interference.	Ensure soundbar is in Bluetooth pairing mode. Move device closer to soundbar. Avoid placing soundbar near other wireless devices. Try unpairing and re-pairing.
Sound distortion or buzzing noise	Volume too high; poor audio source; cable interference.	Lower the volume. Try a different audio source. Ensure cables are securely connected and not near power cables.

If the problem persists after trying these solutions, please contact customer support.
