TEMI Boys Dinosaur Race Track Playset Instruction Manual

1. INTRODUCTION

Thank you for choosing the TEMI Boys Dinosaur Race Track Playset. This educational toy is designed to provide hours of engaging play for children aged 3 years and up. It features a multi-level parking garage with ramps, a dinosaur-themed tunnel, and an automatic car elevator, creating an exciting and interactive experience. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure safe and enjoyable use of the product.

2. WHAT'S IN THE BOX

Your TEMI Dinosaur Race Track Playset includes the following components:

- Main track assembly parts (ramps, bridges, dinosaur head, base structures)
- 10 Mini Cars (including school bus, police car, ambulance, mail car, beetle car, taxi, fire truck, and 3 random vehicles)
- 1 Play Map
- Stickers for decoration and traffic signs
- Instruction manual (this document)

3. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

- This product is recommended for ages 3 years and up.
- Adult supervision is required during assembly and initial play.
- Ensure all small parts, especially the mini cars, are kept away from children under 3 years of age to prevent choking.
- Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Remove batteries if the toy is not used for an extended period.

4. SETUP AND ASSEMBLY

Assembly of the TEMI Dinosaur Race Track Playset requires adult supervision. The process is designed to be straightforward, with no tools required.

4.1. Assembly Steps

1. Unpack all components and verify against the 'What's in the Box' section.
2. Connect the main base sections, ensuring they click securely into place.
3. Attach the mountain and dinosaur head sections to the base.
4. Install the multi-level ramps and the automatic elevator mechanism.
5. Place the bridge and service area components as indicated in the visual guides.
6. Apply the provided stickers to the designated areas for traffic signs, parking spaces, and decorative elements.
7. Insert 3 AA batteries (not included) into the battery compartment located at the base of the automatic elevator. Ensure correct polarity.

For detailed visual instructions, please refer to the assembly video available via the QR code on the product box or on the product's purchase page online.

5. OPERATING INSTRUCTIONS

Once assembled and batteries are installed, the playset is ready for operation.

5.1. Powering On

Locate the power switch, typically at the base of the automatic elevator or mountain section. Flip the switch to the 'ON' position. The highway rail car system will activate, accompanied by colorful lights and cheerful music.

Figure 5.1: Location of the power switch for the automatic elevator.

5.2. Placing Mini Cars

Place the mini cars onto the track at the designated entry points. The automatic elevator will transport cars to the upper levels, allowing them to descend the ramps and navigate the track. Up to 10 cars can run on the track simultaneously, creating a dynamic racing scene.

Figure 5.2: Mini cars in motion on the track, demonstrating the continuous loop.

5.3. Interactive Features

- **Dinosaur Tunnel:** Cars pass through the mouth of the dinosaur, adding an adventurous element.
- **Lane Change Mode:** Utilize the levers to change the direction of the cars, allowing for varied routes and interactive play.
- **Parking Lot:** Cars can enter and exit the parking lot area, simulating real-world traffic scenarios.

6. MAINTENANCE

- Clean the playset regularly with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Ensure all track connections are secure to prevent cars from derailing.
- Check the battery compartment periodically for corrosion. Replace batteries as needed.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Cars not moving on the automatic elevator.	Batteries are low or incorrectly installed. Obstruction in the elevator mechanism.	Check battery installation and replace if necessary. Inspect the elevator for any foreign objects and remove them. Manually turn the gear a few times to dislodge any internal obstruction.
Burning smell from the toy.	Motor overheating or internal friction.	Immediately turn off the toy and remove batteries. Discontinue use and contact customer support if the smell persists.
Cars getting stuck on the track.	Loose track connections. Too many cars on the track.	Ensure all track pieces are securely connected. Reduce the number of cars on the track.
Lights and music not working.	Batteries are low or not installed. Power switch is off.	Check battery installation and replace if necessary. Ensure the power switch is in the 'ON' position.

8. SPECIFICATIONS
