

Noise ColorFit Ultra 2 Buzz

Noise ColorFit Ultra 2 Buzz Smartwatch User Manual

Model: ColorFit Ultra 2 Buzz

1. INTRODUCTION

This manual provides essential instructions for setting up, operating, and maintaining your Noise ColorFit Ultra 2 Buzz smartwatch. Please read this guide thoroughly to ensure proper use and to maximize your device's features.

2. WHAT'S IN THE BOX

Upon unboxing your Noise ColorFit Ultra 2 Buzz, verify that all the following items are present:

- Noise ColorFit Ultra 2 Buzz Smartwatch
- Magnetic Charger
- User Manual
- Warranty Card

3. SETUP

3.1 Charging the Smartwatch

Before initial use, fully charge your smartwatch. Connect the magnetic charger to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port.

Good-bye battery woes

Up to 7-day battery | Power saving mode

*1 day with calling

The smartwatch display indicates battery status. A full charge provides up to 7 days of battery life under typical usage, or 1 day with continuous Bluetooth calling.

3.2 Pairing with Your Smartphone

To unlock the full functionality of your smartwatch, pair it with the NoiseFit app on your smartphone.

1. Download the **NoiseFit app** from your smartphone's app store (available for Android and iOS).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the NoiseFit app and follow the on-screen instructions to create an account or log in.
4. Select 'Add Device' and choose your Noise ColorFit Ultra 2 Buzz from the list of available devices.
5. Confirm the pairing request on both your smartphone and the smartwatch.

Manage your smartwatch settings, view health insights, and track progress through the NoiseFit app.

Upgrade your smartwatch experience

The smartwatch features a compact and stylish design with a 10.9mm ultra-thin metallic finish.

5. MAINTENANCE

5.1 Cleaning

Regularly clean your smartwatch to maintain its appearance and functionality. Use a soft, dry, lint-free cloth to wipe the screen and body. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the device.

5.2 Water Resistance

While smartwatches often feature some level of water resistance, specific ratings are not provided for this model. To prevent damage, avoid submerging the watch in water, wearing it during swimming or showering, or exposing it to high-pressure water jets.

5.3 Storage

When not in use for extended periods, store the smartwatch in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the battery is partially charged (around 50%) before storing to prolong battery health.

6. TROUBLESHOOTING

6.1 Connectivity Issues

- **Watch not connecting to phone:** Ensure Bluetooth is on for both devices. Restart both the watch and phone. Re-pair the devices through the NoiseFit app.
- **Call quality issues:** Ensure your watch is within Bluetooth range of your phone. Check for any obstructions between the devices.

6.2 Display Not Responding

- **Screen frozen:** Try restarting the smartwatch by pressing and holding the side button until it powers off, then power it back on.
- **Screen dark:** Ensure the watch is charged. Adjust brightness settings in the watch menu.

6.3 Battery Draining Quickly

- **Short battery life:** Reduce screen brightness, disable Always On Display if not needed, limit frequent heart rate monitoring, and turn off unnecessary notifications. Frequent Bluetooth calling will also consume more battery.
- **Charging issues:** Ensure the magnetic charger is properly aligned with the watch's charging pins. Use a compatible power adapter.

6.4 Data Sync Issues with NoiseFit App

- **Data not syncing:** Ensure the NoiseFit app is running in the background and has necessary permissions. Check your internet connection. Try force-closing and reopening the app.
