Color	Black
Control Method	Rotary Knob

## TROUBLESHOOTING

---

If you encounter any issues, please refer to the following common problems and solutions:

- **No Sound:**

- Ensure the USB cable is securely connected to a powered USB port.
- Verify the 3.5mm AUX cable is fully inserted into both the soundbar and your audio source.
- Check if the soundbar is powered on (press the rotary knob).
- Increase the volume using the soundbar's rotary knob and your device's volume controls.
- Confirm that your device's audio output is set to the correct port.

- **Distorted Sound:**

- Lower the volume on both the soundbar and your audio source.
- Ensure the audio cable connections are secure and free from interference.
- Test with a different audio source or cable if possible.

- **RGB Lighting Not Working:**

- Check the LED ON/OFF switch on the back of the soundbar and ensure it is in the 'ON' position.
- Ensure the soundbar is powered on via the USB connection.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your soundbar, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the soundbar. Do not use liquid cleaners or abrasive materials, as they may damage the finish or internal components.
- **Storage:** When not in use for extended periods, store the soundbar in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the soundbar or subjecting it to strong impacts.

## WARRANTY AND SUPPORT

---

### Limited Warranty

This product comes with a limited warranty. Please refer to the product packaging or contact customer support for specific warranty terms and conditions.

### Customer Support

Should you have any questions, require assistance, or encounter issues that cannot be resolved using the troubleshooting guide, please contact our professional support team. We are committed to providing excellent service and will endeavor to resolve your problem within 12 hours.

Contact information can typically be found on the product packaging or by visiting the official HPYLIF-H website.

Based on the popular RGB series, our latest 9012 audio is louder, more present and more powerful. With only one USB-C port for audio and power, you can enjoy the sound of amplified USB audio from the Tron 9012 speakers with double the audio power and improved acoustic performance.

We want to fill life with more great tech products that bring an element of the punk century to gaming, sound and everyday life.
