OPERATING INSTRUCTIONS

Power On/Off

- To turn on the shaver, press the On/Off button once.
- To turn off the shaver, press the On/Off button once again.

Shaving Techniques

The VGR V-310 supports both wet and dry shaving.

- **Dry Shave:** For a quick and smooth shave, use the shaver on dry skin.
- **Wet Shave:** For a refreshing and clean shave, apply shaving cream or gel to your face before using the shaver. This can be done in the shower due to its waterproof design.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and hygiene of your shaver.

Cleaning the Shaver

The VGR V-310 is IPX7 waterproof, allowing for easy cleaning under running water.

- After each use, turn off the shaver.
- Remove the shaving head assembly.
- Rinse the shaving heads and the shaver body directly under running tap water to remove hair clippings and residue.
- Use the provided cleaning brush to remove any stubborn hair particles from the blades.
- Allow all parts to air dry completely before reassembling the shaver and attaching the blade protection cap.

IPX7 WATERPROOF

Durability You Can Trust

Image: The VGR V-310 shaver shown with water droplets, visually confirming its IPX7 waterproof rating and durability, indicating it can be safely rinsed under water.

TROUBLESHOOTING

If you encounter issues with your VGR V-310 shaver, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted. Travel lock is activated.	Charge the shaver for at least 3 hours. Deactivate the travel lock by pressing and holding the On/Off button for 3 seconds.
Poor shaving performance / Blades feel dull.	Hair clippings accumulated in the shaving head. Blades may be worn.	Clean the shaving head thoroughly under running water. If performance does not improve, consider replacing the shaving head (contact VGR support for replacement parts).
Shaver stops during use.	Battery is low.	Recharge the shaver. The LED display will show remaining battery life.

Problem	Possible Cause	Solution
LED display not working.	Shaver is off or battery is completely drained.	Turn on the shaver. If still not working, charge the shaver. If the issue persists, contact customer support.
