3. CARE AND MAINTENANCE

Proper care will extend the life and appearance of your Skechers Melson Chad shoes.

3.1 Cleaning

- Mesh Upper:** For the textile mesh upper, gently brush off loose dirt. Use a mild soap diluted in cool water with a soft cloth or sponge to clean soiled areas. Do not machine wash.
- Outsole:** Wipe the outsole with a damp cloth to remove dirt and debris.
- Drying:** Allow shoes to air dry naturally at room temperature. Avoid direct sunlight or heat sources, as this can damage the materials.
- Insoles:** The Air Cooled Memory Foam insoles can be spot cleaned with a mild detergent and air dried.

3.2 Storage

Store your shoes in a cool, dry place away from direct sunlight when not in use. Avoid storing them in damp or humid environments.

4. TROUBLESHOOTING

If you encounter any issues with your Skechers Melson Chad shoes, refer to the following common solutions.

4.1 Discomfort or Rubbing

- Fit:** Ensure you have the correct size. If the shoes feel too tight or too loose, consider trying a different size.
- Break-in Period:** New shoes may require a short break-in period. Wear them for shorter durations initially.
- Socks:** Wearing appropriate socks can help prevent rubbing and improve comfort.

4.2 Odor

The Air Cooled Memory Foam insole is designed to reduce odor. If odor persists, remove the insoles and air them out. You may also use shoe deodorizers.

4.3 Reduced Traction

Regularly clean the outsole to prevent dirt and debris buildup, which can reduce traction. The grippy steady grip outsole is designed for general use; exercise caution on wet or slippery surfaces.
