BaBylissPRO FX825BASE

BaBylissPRO LO-PROFX Clipper Charging Base User Manual

1. INTRODUCTION

The BaBylissPRO LO-PROFX Clipper Charging Base (Model FX825BASE) is designed to provide convenient and secure charging for your BaBylissPRO LO-PROFX FX825 Clipper. This base ensures your clipper remains upright and ready for use, simplifying your workflow and maintaining an organized station.

This image shows the BaBylissPRO LO-PROFX Clipper inserted into its dedicated charging base, illustrating how the clipper sits upright for charging and storage.

2. SETUP

1. **Unpack the Charging Base:** Carefully remove the charging base from its packaging.
2. **Choose a Stable Location:** Place the charging base on a flat, stable, and dry surface, away from water or excessive heat.
3. **Connect Power:** Insert the power adapter cable (sold separately with your LO-PROFX Clipper) into the designated port on the back of the charging base. Plug the adapter into a suitable electrical outlet.

A side view of the BaBylissPRO LO-PROFX Charging Base, highlighting its compact design and the slot where the clipper is inserted.

3. OPERATING INSTRUCTIONS

1. **Placing the Clipper:** Gently place your BaBylissPRO LO-PROFX FX825 Clipper into the charging slot on the base. Ensure the clipper is seated firmly and the charging contacts align.
2. **Charging Indication:** The charging indicator light on the clipper will illuminate to confirm that it is properly connected and charging. Refer to your clipper's manual for specific charging light behaviors (e.g., solid light for charging, blinking for low battery).
3. **Optimal Charging:** For best results, allow the clipper to charge fully before its first use and whenever the battery is low.

An overview image showing the BaBylissPRO LO-PROFX Clipper alongside its charging base, emphasizing the integrated design for charging and display.

4. MAINTENANCE

- **Cleaning the Base:** Disconnect the power adapter before cleaning. Use a soft, dry cloth to wipe down the exterior of the charging base. Do not use abrasive cleaners or immerse the base in water.
- **Cleaning Contacts:** Periodically inspect the charging contacts on both the base and the clipper. If necessary, gently clean them with a cotton swab lightly dampened with rubbing alcohol to ensure optimal electrical connection.
- **Storage:** When not in use, store the charging base in a cool, dry place.

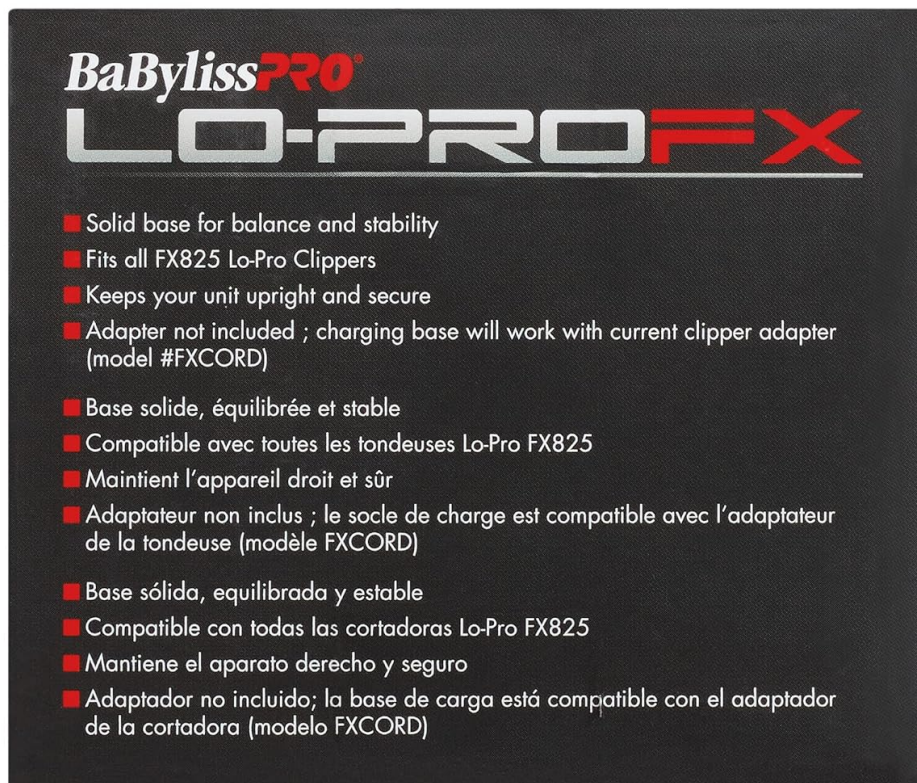

5. TROUBLESHOOTING

- **Clipper Not Charging:**
 - Ensure the power adapter is securely plugged into both the base and the electrical outlet.
 - Verify that the clipper is correctly seated in the charging base, with contacts aligned.
 - Check for any debris or residue on the charging contacts of both the clipper and the base. Clean if necessary.

- Test the electrical outlet with another device to confirm it is functional.
- **Base Appears Unstable:**
 - Ensure the base is placed on a completely flat and level surface.
 - Check the rubber feet on the bottom of the base for any damage or missing pieces.

6. SPECIFICATIONS
