UPBRIGHT OttLite SCEY708S Thrive LED Lamp Power

UpBright 12V AC/DC Adapter User Manual

Model: OttLite SCEY708S Thrive LED Lamp Power

1. PRODUCT OVERVIEW

This UpBright 12V AC/DC Adapter is designed to provide reliable power to compatible electronic devices, specifically the OttLite Model SCEY708S C8USC LED 9W DC12V 2A wellness series Thrive LED Sanitizing Lamp with USB Charging and Clock. It converts standard AC wall power to the required 12V DC output.

Key features include:

- **World Wide Input Voltage:** 100-240VAC 50/60Hz, allowing for international use with appropriate plug adapters.
- **Comprehensive Protection:** Features OVP (Over Voltage output Protection), OCP (Over Current output Protection), and SCP (Short Circuit output Protection) to ensure the safety of your device and the adapter.
- **High Compatibility:** Specifically engineered to match the power requirements of the OttLite SCEY708S lamp.

2. SETUP INSTRUCTIONS

1. **Unpack the Adapter:** Carefully remove the AC/DC adapter from its packaging. Inspect it for any visible damage.
2. **Connect to Device:** Locate the DC input port on your OttLite Model SCEY708S lamp. Insert the barrel connector of the UpBright adapter firmly into this port. Ensure a snug fit.
3. **Plug into Power Outlet:** Insert the two-prong plug of the adapter into a standard 100-240V AC wall outlet. Ensure the outlet is easily accessible and not overloaded.
4. **Verify Power:** Once connected, your OttLite lamp should power on or indicate that it is receiving power (e.g., a charging indicator light).

3. OPERATING THE ADAPTER

The UpBright AC/DC adapter operates automatically once connected to a power source and a compatible device. It provides a stable 12V DC output to power or charge your OttLite lamp.

- **Continuous Power:** The adapter is designed for continuous operation, providing power to your device as long as it is plugged into a live outlet.

- **Safety Features:** Built-in OVP, OCP, and SCP protections automatically safeguard against electrical irregularities. If an issue occurs, the adapter may temporarily cease operation to protect itself and the connected device.
- **Unplug When Not in Use:** For energy conservation and safety, it is recommended to unplug the adapter from the wall outlet when the device is not in use for extended periods.

4. MAINTENANCE

Proper care and maintenance will extend the lifespan of your UpBright AC/DC adapter.

- **Cleaning:** Disconnect the adapter from all power sources and devices before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly winding the cable, which can cause damage over time.
- **Cable Care:** Do not bend, twist, or pinch the power cord excessively. Avoid placing heavy objects on the cord. Regularly inspect the cord for any signs of fraying or damage. If damaged, discontinue use immediately.

5. TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC adapter, refer to the following common troubleshooting steps:

- **No Power Output:**
 - Ensure the adapter is securely plugged into a working wall outlet. Test the outlet with another device.
 - Verify that the DC connector is fully inserted into the OttLite lamp's power input.
 - Check the adapter's cable for any visible damage or breaks.
- **Device Not Charging/Functioning Properly:**
 - Confirm that the OttLite lamp model (SCEY708S) is indeed compatible with this 12V 2A adapter. Refer to your lamp's specifications.
 - Ensure the lamp itself is functioning correctly and is not the source of the issue.
- **Adapter Overheating:**
 - It is normal for adapters to feel slightly warm during operation. However, if it becomes excessively hot, immediately unplug it from the wall and the device.
 - Ensure adequate ventilation around the adapter. Do not cover it or place it in an enclosed space.
 - Verify that the connected device is not drawing more power than the adapter's rated output (12V 2A).

If these steps do not resolve the issue, please contact customer support.

6. SPECIFICATIONS

Feature	Specification
Brand	UPBRIGHT
Model Number	OttLite SCEY708S Thrive LED Lamp Power
Input Voltage	100-240VAC, 50/60Hz
Output Voltage	12V DC

Feature	Specification
Output Current	2 Amps (2000mA)
Wattage	24 watts
Connectivity Technology	USB (for compatible devices, adapter provides power to lamp which may have USB charging)
Special Feature	Short Circuit Protection (SCP)
Item Weight	4 ounces
Manufacturer	UpBright

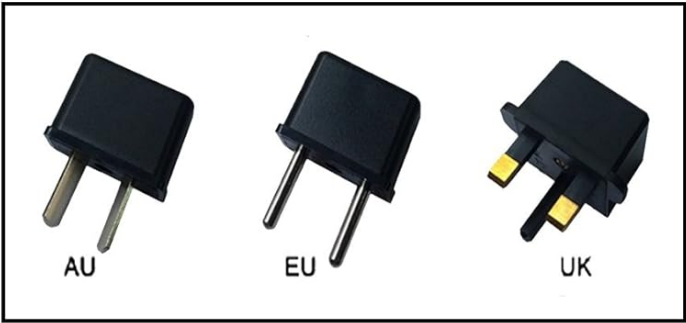

7. WARRANTY INFORMATION

Your UpBright AC/DC Adapter comes with the following warranty and return policy:

- **30 Days Refund:** If you are not satisfied with your purchase, you may be eligible for a refund within 30 days of receipt.
- **24 Months Exchange:** The product is covered by a 24-month exchange policy for manufacturing defects or performance issues under normal use.

Please retain your proof of purchase for warranty claims.
