AutoSky WUA-2

AutoSky Wireless CarPlay Adapter 2025 Pro Edition User Manual

Model: WUA-2

Introduction

The AutoSky Wireless CarPlay Adapter 2025 Pro Edition transforms your existing wired CarPlay system into a seamless wireless experience. This compact device allows you to enjoy all the features of Apple CarPlay without the need for physical cable connections, enhancing convenience and reducing clutter in your vehicle.

Important Note: This device does not add CarPlay functionality to vehicles that do not already have wired CarPlay. It converts an existing wired CarPlay connection to wireless.

Product Features

- **Carbon Fiber Finish:** Durable and stylish design with a protective coat to protect it from scratches of daily use.
- **Dual-Band Connectivity:** Equipped with 2.4Ghz and 5Ghz modules for the fastest and best connection and experience possible.
- **Easy Automatic Connection:** Connects quickly and automatically after initial Bluetooth pairing.
- **Broad Compatibility:** Compatible with over 600 vehicle models that feature wired CarPlay. Please refer to the compatibility list in the product images for details.
- **Included Cables:** Comes with USB-A to USB-A extension and USB-A to USB-C cables for versatile installation in various car stereo setups.
- **OTA Updates:** Supports Over-The-Air software updates for continuous improvement.
- **Full Control Compatibility:** Works seamlessly with your car's existing controls, including steering wheel controls, touch screens, and OEM knobs/dials.

What's in the Box

- AutoSky Wireless CarPlay Adapter - Pro Edition
- USB-A to USB-A extension cable
- USB-A to USB-C cable

Setup Guide

1. **Verify Wired CarPlay:** Ensure your vehicle has factory-installed wired CarPlay. If your car has a USB port and displays the Apple CarPlay screen when you plug in your iPhone, you are all set.
2. **Connect the Adapter:** Plug the AutoSky Wireless CarPlay Adapter into your vehicle's USB port that supports wired CarPlay. Use the provided USB-A to USB-A extension cable or USB-A to USB-C cable if needed for compatibility or tight spaces.
3. **Pair via Bluetooth:** On your iPhone, go to Bluetooth settings and search for the "AutoSky-XXXX" device (where XXXX is a unique identifier). Select it to pair.

4. **Confirm CarPlay Connection:** Follow any on-screen prompts on your iPhone or car's infotainment system to confirm the CarPlay connection. Ensure Wi-Fi is enabled on your iPhone for the adapter to function correctly.
5. **Automatic Reconnection:** After the initial pairing, the adapter should automatically connect to your iPhone when you start your vehicle.

Image: An infographic clarifying that the AutoSky adapter transforms wired CarPlay to wireless and does not add CarPlay functionality to vehicles that lack it.

Operating Instructions

- **Accessing CarPlay:** Once connected, your car's infotainment screen will display the Apple CarPlay interface. You can navigate through apps like Phone, Music, Maps, Messages, and more.
- **Using Controls:** Utilize your car's existing controls, including the touch screen, steering wheel buttons, and OEM knobs/dials, to interact with CarPlay.
- **Voice Control:** Activate Siri for hands-free operation by pressing the voice command button on your steering wheel or by saying "Hey Siri" if enabled on your iPhone.
- **App Functionality:** All compatible CarPlay apps installed on your iPhone will be accessible through the car's

display.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the adapter. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use for extended periods, store the adapter in a cool, dry place away from direct sunlight and extreme temperatures.
- **Software Updates:** Regularly check for and install Over-The-Air (OTA) software updates to ensure optimal performance and compatibility. Scan the QR code provided in the manual or visit the local address for updates.

Troubleshooting

Problem	Solution

Problem	Solution
Adapter not connecting automatically.	Ensure Bluetooth and Wi-Fi are enabled on your iPhone. Try forgetting the device in your iPhone's Bluetooth settings and re-pairing. Restart your car's infotainment system.
Lag or delay in CarPlay.	Ensure your iPhone is close to the adapter. Check for and install any available software updates for the adapter. Close unnecessary apps on your iPhone.
No sound or distorted audio.	Check volume levels on both your iPhone and car stereo. Ensure the car stereo input is set to CarPlay. Restart the adapter and your iPhone.
"Wired CarPlay Required" message.	This adapter requires your vehicle to have existing wired CarPlay functionality. It does not add CarPlay to vehicles without it. Verify your car model and year are on the compatibility list.

For more detailed troubleshooting, refer to theTroubleshooting Guide (PDF).
