Iaret I18-CC

Iaret Smart Watch USB Charging Cable - User Manual

Model: I18-CC | Brand: Iaret

INTRODUCTION

This manual provides instructions for the safe and effective use of your Iaret Smart Watch USB Charging Cable. This cable is designed to provide reliable power to compatible smartwatches, specifically models I18 and I70, through a 2-pin, 2.5mm magnetic connector.

PRODUCT OVERVIEW

Image 1: The Iaret Smart Watch USB Charging Cable. This image displays the USB-A connector on one end and the 2-pin, 2.5mm magnetic charging head on the other, designed for smartwatches.

The Iaret Smart Watch USB Charging Cable features a standard USB-A connector for power input and a magnetic 2-pin, 2.5mm connector for output to your smartwatch. It is engineered for fast charging capabilities.

COMPATIBILITY

This charging cable is specifically designed for use with the following smartwatch models:

- Iaret I18 Smartwatch
- Iaret I70 Smartwatch

Ensure your smartwatch has a 2-pin, 2.5mm magnetic charging port for proper compatibility.

SETUP INSTRUCTIONS

1. **Inspect the Cable:** Before first use, visually inspect the charging cable for any signs of damage, such as frayed wires or bent pins. Do not use if damaged.
2. **Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB

power adapter (e.g., wall charger, computer USB port, power bank). Ensure the power source provides stable 5V output.

3. **Prepare Smartwatch:** Locate the charging port on your laret I18 or I70 smartwatch. Ensure the port is clean and free of debris.
4. **Attach to Smartwatch:** Align the magnetic 2-pin connector of the cable with the charging contacts on your smartwatch. The magnets will help guide the connector into the correct position. A secure connection is indicated by the cable snapping firmly into place.

OPERATING INSTRUCTIONS (CHARGING)

Once the cable is properly connected to both a power source and your smartwatch:

1. **Verify Connection:** Confirm that the charging icon or indicator appears on your smartwatch screen, signifying that charging has begun.
2. **Charging Time:** Charging times may vary depending on the smartwatch model and its current battery level. Refer to your smartwatch's manual for specific charging duration estimates.
3. **Disconnecting:** Once your smartwatch is fully charged, gently pull the magnetic connector away from the smartwatch. Then, disconnect the USB-A end from the power source.

Note: Avoid leaving the smartwatch connected to the charger for extended periods after it is fully charged to prolong battery life.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the cable and its connectors. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable sharply to prevent internal damage.
- **Handling:** Always grasp the connectors when plugging or unplugging the cable, rather than pulling on the cable itself.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Smartwatch not charging.	Loose connection. Faulty power source. Dirty charging contacts. Incompatible smartwatch model.	Ensure the magnetic connector is firmly attached to the smartwatch and the USB-A end is fully inserted into the power source. Try a different USB power adapter or USB port. Clean the charging contacts on both the cable and the smartwatch with a dry cloth. Verify your smartwatch is an laret I18 or I70 model.
Slow charging.	Low power output from USB source. Background apps running on smartwatch.	Use a USB power adapter with sufficient output (e.g., 5V/1A or higher). Close unnecessary applications on your smartwatch before charging.

Problem	Possible Cause	Solution
Cable appears damaged.	Physical stress or wear.	Discontinue use immediately and replace the cable.

SPECIFICATIONS

- **Brand:** laret
- **Model Number:** I18-CC
- **Connector Type:** USB-A (input), 2-Pin 2.5mm Magnetic (output)
- **Cable Type:** USB
- **Compatible Devices:** laret I18, laret I70 Smart Watches
- **Special Feature:** Fast Charging
- **Connector Gender:** Male-to-Male
- **Number of Pins:** 2
- **Item Weight:** 0.317 ounces (approx. 9 grams)
- **Package Dimensions:** 2.52 x 1.54 x 0.47 inches
