NIIMBOT Thermal Labels Instruction Manual

Brand: NIIMBOT | Model: NIIMBOT-B21

INTRODUCTION

NIIMBOT thermal labels are designed for use with NIIMBOT B1, B21, B3S, and K3 label makers. These self-adhesive labels offer clear printing, are waterproof, oil-proof, tear-resistant, non-toxic, harmless, and degradable, ensuring ease of use and environmental safety. They are ideal for various applications including business, office, and home use, perfect for creating 1D/QR codes, product prices, addresses, and logo labels.

KEY FEATURES

- **Durable Material:** Waterproof, oil-proof, tear-resistant, and non-toxic for long-lasting use.
- **Clear Printing:** Utilizes thermal print technology for sharp, fade-resistant text and graphics.
- **No Ink Required:** Direct thermal printing eliminates the need for ink or toner.
- **Strong Adhesion:** Features a peel-and-stick design with strong self-adhesive backing that leaves no residue upon removal.
- **Versatile Use:** Suitable for various labeling needs in business, office, and home environments.

SETUP AND INSTALLATION

1. Loading Labels

To load the labels, open the label maker's cover. Place the label roll onto the spindle, ensuring the labels feed from underneath. Close the cover securely. The label maker will automatically align the paper.

Your browser does not support the video tag.

Video: Demonstrates the process of loading thermal labels into the NIIMBOT B3S label maker and automatic template recognition.

2. Connecting to the NIIMBOT App

Download the official NIIMBOT app from your device's app store. Ensure Bluetooth is enabled on your mobile device. Open the NIIMBOT app and navigate to the device connection section. Select your NIIMBOT label maker

from the list of available devices to pair. The app will automatically recognize the label size once connected.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

Once connected, use the NIIMBOT app to design your labels. The app offers a variety of fonts, frames, icons, and allows for one-click printing. You can input text, add images, barcodes, QR codes, and adjust various elements to customize your labels. After designing, preview your label and initiate printing directly from the app.

CARE AND MAINTENANCE

To ensure the longevity of your NIIMBOT thermal labels and label maker, store labels in a cool, dry place away from direct sunlight. Keep the label maker clean by gently wiping its exterior with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure the print head is free from dust or debris for optimal print quality.

TROUBLESHOOTING

- **Poor Print Quality:** Ensure the label roll is correctly inserted and aligned. Check for any dust or debris on the print head and clean if necessary.
- **Connectivity Issues:** Verify that Bluetooth is enabled on your device and the label maker is powered on. Try restarting both the app and the label maker.
- **Labels Not Feeding:** Confirm the label roll is properly seated and the leading edge of the label is correctly fed into the printer mechanism.

PRODUCT SPECIFICATIONS

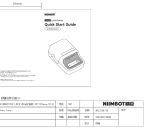

Attribute	Detail
Brand	NIIMBOT
Model Number	NIIMBOT-B21

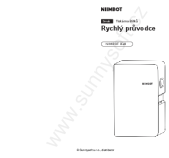

Label Size	1.57" x 1.18" (40x30mm)
Labels per Roll	230
