Soobaby 3-in-1 Baby Crib and Bedside Sleeper Instruction Manual

Model: 006-khaki

INTRODUCTION

Thank you for choosing the Soobaby 3-in-1 Baby Crib and Bedside Sleeper. This versatile product is designed to provide a safe and comfortable sleeping environment for your infant, functioning as a standalone crib, a bedside sleeper, and a portable bed. It features adjustable height settings, breathable mesh sides, and an anti-reflux design to ensure your baby's well-being. Please read this manual thoroughly before assembly and use to ensure proper operation and safety.

SAFETY INFORMATION

Your baby's safety is our top priority. This baby bedside crib meets all relevant safety regulations. Always follow these guidelines:

- **WARNING: SUFFOCATION HAZARD.** Infants have suffocated on soft bedding. Never add a pillow, comforter, or extra padding. Use ONLY the mattress provided by the manufacturer.
- **WARNING: FALL HAZARD.** To prevent falls, do not use this product once the infant begins to push up on hands and knees, or has reached 20 lbs (9 kg), or is 5 months old, whichever comes first.
- Ensure all assembly steps are completed correctly and all parts are securely fastened before placing your baby in the crib.
- Always use the safety straps to securely attach the bedside sleeper to the adult bed when in co-sleeping mode.
- Keep the area around the crib clear of cords, blinds, or any objects that could pose a strangulation risk.
- Regularly inspect the crib for any signs of wear or damage. Discontinue use if any parts are broken or missing.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Crib Frame (pre-assembled components)
- Mattress (Size: 33"x19"x1.1") with removable sheet cover
- Detachable Mosquito Net
- Wheels with locking mechanism
- Storage Basket (underneath the bassinet)
- Instruction Manual

SETUP

The Soobaby 3-in-1 Baby Crib is designed for easy and tool-free installation. Follow the clear instructions provided in the included manual for a quick setup.

1. Unpack all components from the carrying case.
2. Extend the main frame until it locks into place.
3. Attach the support bars and ensure they are securely fastened.
4. Insert the mattress into the bassinet.
5. Attach the wheels to the legs of the bassinet, ensuring they click securely.
6. If desired, attach the mosquito net by clipping it to the crib frame.

3-in-1

Convertible Design

OPERATING INSTRUCTIONS

3-in-1 Functionality

The Soobaby crib offers three modes of use:

- **Standalone Crib:** Use as a traditional crib in any room.
- **Bedside Sleeper:** To use as a bedside sleeper, simply roll down the co-sleep side and latch it securely to your adult bed. This allows for easy nighttime access to your baby.
- **Portable Bed with Mosquito Net:** The product includes a detachable mosquito net for added protection, making it suitable for outdoor use or in areas with insects.

Height Position Adjustment

The crib features multiple height adjustment levels, ranging from 16.9 inches (min) to 20.8 inches (max) from the floor to the bottom of the mattress. This allows it to suit most adult beds for safe co-sleeping.

Anti-reflux Design

The crib can be unilaterally raised to prevent the baby from spilling milk, providing a slight incline for comfort and safety.

Figure 5: The anti-reflux design allows for a gentle incline.

Portability and Wheels

Equipped with smooth-gliding wheels, the crib can be easily moved between rooms. The wheels also feature a locking mechanism to ensure stability when stationary.

MAINTENANCE

Proper care ensures the longevity and hygiene of your Soobaby crib:

- **Mattress Cover:** The mattress comes with a removable sheet cover that can be cleaned. Follow the care instructions on the label.
- **Product Care:** Hand wash only for fabric components. Do not bleach or tumble dry.
- **Frame Cleaning:** Wipe down the frame with a damp cloth and mild soap. Ensure all parts are dry before reassembly or storage.

TROUBLESHOOTING

If you encounter any issues with your Soobaby crib, please refer to these common solutions:

- **Crib feels unstable:** Ensure all frame connections are securely locked into place. Check that the wheels are properly attached and locked when stationary.
- **Difficulty adjusting height:** Verify that the adjustment buttons on both sides are fully depressed and released when changing height levels.
- **Side rail not dropping smoothly:** Check for any obstructions or fabric caught in the mechanism. Ensure the zippers are fully unzipped and the release buttons are pressed.

For further assistance, please contact customer support.
