Monopoly Hasbro-F5023

Monopoly Safe Board Game Instruction Manual

Model: Hasbro-F5023 | Brand: Monopoly

1. INTRODUCTION

Welcome to Monopoly Safe, an exciting twist on the classic Monopoly game! In this edition, players aim to get rich by guessing the code to Mr. Monopoly's safe, which is filled with valuable items. The game combines traditional property trading with a unique code-breaking element, making every turn a suspenseful experience.

This game is designed for **2 to 6 players** and is suitable for ages **8 and up**. Prepare for a thrilling game night where strategy and a bit of luck will determine who becomes the wealthiest player!

2. COMPONENTS

Before you begin, ensure all components listed below are present in your game box. Refer to the image for visual identification of the game contents.

Image: All game components, including the game board, safe, money, property cards, Chance and Community Chest cards, player tokens, dice, and hotels.

- 1 Game Board
- 1 Mr. Monopoly's Safe Unit
- Monopoly Money (various denominations)
- Property Title Deed Cards
- Chance Cards
- Community Chest Cards
- 6 Themed Player Tokens (Scottie, Hat, Tyrannosaurus, Hazel, Race Car, Rubber Duck)
- 2 Dice
- Hotels (red plastic pieces)
- Cardboard Keys for Locked Properties

3. GAME SETUP

Follow these steps to set up your Monopoly Safe game:

1. **Place the Board:** Unfold the game board and place it on a flat surface.
2. **Position the Safe:** Place the Mr. Monopoly's Safe unit in the center of the game board, in the designated area.
3. **Prepare the Safe:** Fill the safe with a mix of Monopoly money, hotels, and cardboard keys. The safe should always contain valuable items.
4. **Banker:** Choose one player to be the Banker. The Banker is responsible for all money not in play, properties, houses, and hotels until they are bought by players. The Banker also handles all transactions.
5. **Starting Money:** Each player receives \$1500 in Monopoly money, distributed as follows:
 - Two \$500 bills
 - Two \$100 bills
 - Two \$50 bills
 - Six \$20 bills
 - Five \$10 bills
 - Five \$5 bills
 - Five \$1 bills
6. **Property Cards:** Separate the Property Title Deed cards by color group and place them next to the board.
7. **Chance & Community Chest:** Shuffle the Chance cards and Community Chest cards separately and place them face down on their designated spaces on the board.
8. **Player Tokens:** Each player chooses a unique token and places it on the "GO" space.
9. **Determine First Player:** Each player rolls both dice. The player with the highest total goes first. In case of a tie, those players roll again.

4. How to Play

The objective of Monopoly Safe is to be the player with the most money (including the value of properties and hotels) at the end of the game. This is achieved by buying properties, collecting rent, and successfully opening Mr. Monopoly's Safe.

4.1. Player Turn Sequence

1. **Roll the Dice:** Roll both dice and move your token clockwise around the board the number of spaces indicated.
2. **Land on a Space:** Follow the instructions for the space you land on:
 - **Unowned Property:** You may buy it for the price printed on the board. If you don't, the Banker immediately auctions it to the highest bidder.
 - **Owned Property:** Pay rent to the owner.
 - **Chance or Community Chest:** Draw the top card from the respective pile and follow its instructions.
 - **Go to Jail:** Move your token directly to Jail. Do not collect \$200 for passing GO.
 - **Free Parking, Just Visiting, GO:** No special action required. Collect \$200 when passing GO.
3. **The Safe Mechanism:** This is a key part of the game.

Image: The Mr. Monopoly's Safe unit, showing its contents and the dial for guessing the code.

To open the safe, players must guess a random code (a number from 1 to 6). When it's your turn, before rolling the dice, you can attempt to open the safe. Turn the dial on the safe to a number you think is the code. If you guess correctly, the safe will open, and you can take all its contents (money, hotels, keys). After the safe is opened, it is immediately refilled with new items, and the code randomly resets. Pay attention to numbers other players have tried, as this can help you deduce the current code.

Important: Only one number will open the safe at any given time. The code changes every time the safe is successfully opened.

4. Hotels and Locked Properties:

- **Hotels:** Some hotels can only be acquired by opening the safe. These are special hotels that provide higher rent.
- **Locked Properties:** The game includes 4 locked properties. To unlock these, you need to find a cardboard key inside the safe. Once you have a key, you can unlock the corresponding property and purchase it.

5. **End of Turn:** After completing your actions, your turn ends, and play passes to the player on your left.

4.2. Winning the Game

The game ends when all properties have been purchased and all players have had an equal number of turns (or by mutual agreement). The player with the most money (including the value of properties and hotels) at the end of the game is the winner!

5. MAINTENANCE

Proper care will ensure the longevity of your Monopoly Safe game.

- **Storage:** Store all game components in their original box in a cool, dry place away from direct sunlight. Ensure all small pieces are securely stored to prevent loss.
- **Cleaning:** The game board and plastic components (safe, tokens, hotels) can be wiped clean with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure all parts are completely dry before storing.
- **Material:** The primary material for the game components is plastic. Handle with care to avoid damage.

6. TROUBLESHOOTING

If you encounter any issues with your Monopoly Safe game, please refer to the following common problems and solutions:

- **Safe Not Opening:**
Problem: The safe does not open when you turn the dial to a number.
Solution: Ensure you are turning the dial firmly and completely to the desired number. Remember, the code is random and changes every time the safe is successfully opened. It's possible you haven't found the correct code yet. Continue trying different numbers (1-6) on subsequent turns.
- **Missing Components:**
Problem: A game piece or component is missing from the box.
Solution: Carefully check all packaging materials. If a component is genuinely missing, please contact the retailer or manufacturer for assistance. Information regarding spare parts availability is currently unavailable.
- **Difficulty Understanding Rules:**
Problem: Players are confused about specific game rules or interactions.
Solution: Re-read the relevant sections of this manual. For common Monopoly rules, refer to official Hasbro Monopoly resources. For specific questions about the Safe mechanism, review Section 4.1 carefully.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions (L x W x H)	1 x 1 x 1 cm (0.39 x 0.39 x 0.39 inches); 1.07 kilograms (2.36 lbs)
Recommended Age	8 years and up
Number of Players	2 to 6 players
Main Material	Plastic
Color	Multicolored
Educational Value	Colors, Numbers, Problem Solving, Imagination, Social Development
Language	English (Original product language: French)
Model Number	Hasbro-F5023

8. WARRANTY AND SUPPORT

For information regarding product warranty, returns, or further support, please refer to the official website of Hasbro or contact the retailer from whom you purchased the game. Specific warranty details are not provided in this manual.

For general inquiries or to explore other Monopoly products, visit the official Monopoly website or Hasbro's customer support portal.
