SETUP

Follow these steps for initial setup of your action figure:

This image displays the Aniplex BUZZmod Giyu Tomioka 1/12 Scale Action Figure. The figure is shown standing upright, equipped with his Nichirin Blade. He wears his signature half-patterned, half-plain haori over a dark Demon Slayer Corps uniform. The figure's articulation points allow for dynamic posing.

OPERATING (POSING AND ARTICULATION)

The BUZZmod. Giyu Tomioka figure features multiple points of articulation for dynamic posing. Handle the figure with care to prevent damage.

- **Joint Movement:** Gently manipulate the joints at the neck, shoulders, elbows, wrists, torso, hips, knees, and ankles to achieve desired poses. Avoid excessive force.
- **Accessory Handling:** When attaching or detaching accessories like the Nichirin Blade, do so carefully to avoid bending or breaking small parts.
- **Fabric Components:** The figure's haori is made of fabric. Adjust it gently to complement your chosen pose. Avoid snagging or tearing the fabric.

MAINTENANCE

Proper care will help preserve the condition of your action figure.

- **Cleaning:** Use a soft, dry cloth or a soft brush to gently remove dust from the figure. For stubborn dirt, lightly dampen a cloth with water and wipe carefully, then dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the figure away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or material degradation. Keep it in a dust-free environment.
- **Handling:** Always handle the figure by its main body parts, avoiding excessive pressure on delicate accessories or thin limbs.

TROUBLESHOOTING

If you encounter issues with your figure, consider the following:

- **Loose Joints:** If a joint feels loose, it may be a characteristic of the figure's design for articulation. If it significantly impacts posing, ensure all parts are correctly seated. Avoid attempting to disassemble joints unless specifically instructed by the manufacturer.
- **Stiff Joints:** If a joint is stiff, gently warm the area with your hands for a few moments to make the plastic more pliable before attempting to move it. Do not use excessive force.
- **Damaged Parts:** If any part appears damaged upon arrival, contact the retailer or manufacturer immediately. Do not attempt to repair it yourself, as this may void any potential warranty.
