KAWADA NBCC_145

KAWADA Nanoblock NBCC_145 My Hero Academia Shoto Todoroki Building Kit Instruction Manual

1. Introduction

This manual provides instructions for assembling and caring for your KAWADA Nanoblock NBCC_145 My Hero Academia Shoto Todoroki building kit. Nanoblock kits feature micro-sized building blocks, allowing for intricate detail in compact models. This kit allows you to construct a detailed model of Shoto Todoroki from the popular anime series My Hero Academia.

2. Safety Information

This Nanoblock kit contains very small parts and is recommended for ages 15 and up due to its complexity and the size of the components. Keep all parts out of reach of small children to prevent choking hazards. Adult supervision is recommended for younger builders.

3. Package Contents

Upon opening your Nanoblock NBCC_145 kit, you should find the following items:

- Approximately 200 micro-sized building blocks required for assembly.
- One detailed instruction guide for step-by-step assembly.

4. Getting Started and Assembly Preparation

Nanoblock pieces are significantly smaller than standard building blocks, with some as tiny as 4mm x 5mm. Careful preparation can enhance your building experience:

- **Clear Workspace:** Ensure you have a clean, well-lit, and flat surface to work on to prevent losing small pieces.
- **Sorting:** Consider sorting the blocks by color and shape before you begin. This can make finding the correct pieces easier during assembly.
- **Tools:** Tweezers can be helpful for handling the tiny blocks and for separating pieces if a mistake is made.
- **Difficulty Level:** This model is rated as Level 3 out of 5 in difficulty, indicating a moderate challenge suitable for experienced builders.

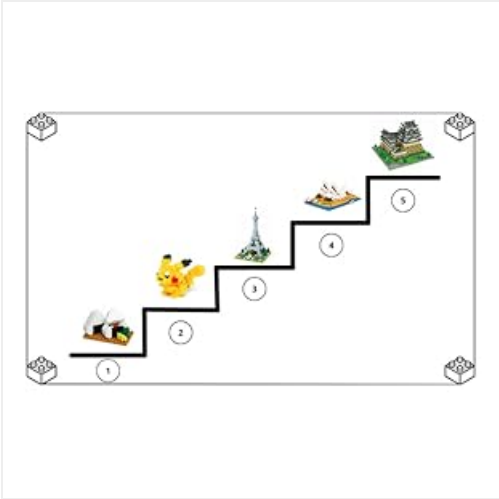

Image 3: A visual representation of Nanoblock difficulty levels, ranging from simple to advanced builds.

5. Assembly Instructions

Follow the step-by-step instructions provided in the included instruction guide. The guide typically illustrates each layer of the model, indicating where to place each block. Pay close attention to the arrows and diagrams, which show how pieces connect and how the model builds up layer by layer.

- **Layer-by-Layer Construction:** Nanoblock models are built from the base upwards, one layer at a time.
- **Precision:** Ensure each block is firmly pressed into place for a stable connection.
- **Review Steps:** If you encounter difficulty, re-examine the previous steps and diagrams to ensure accuracy.

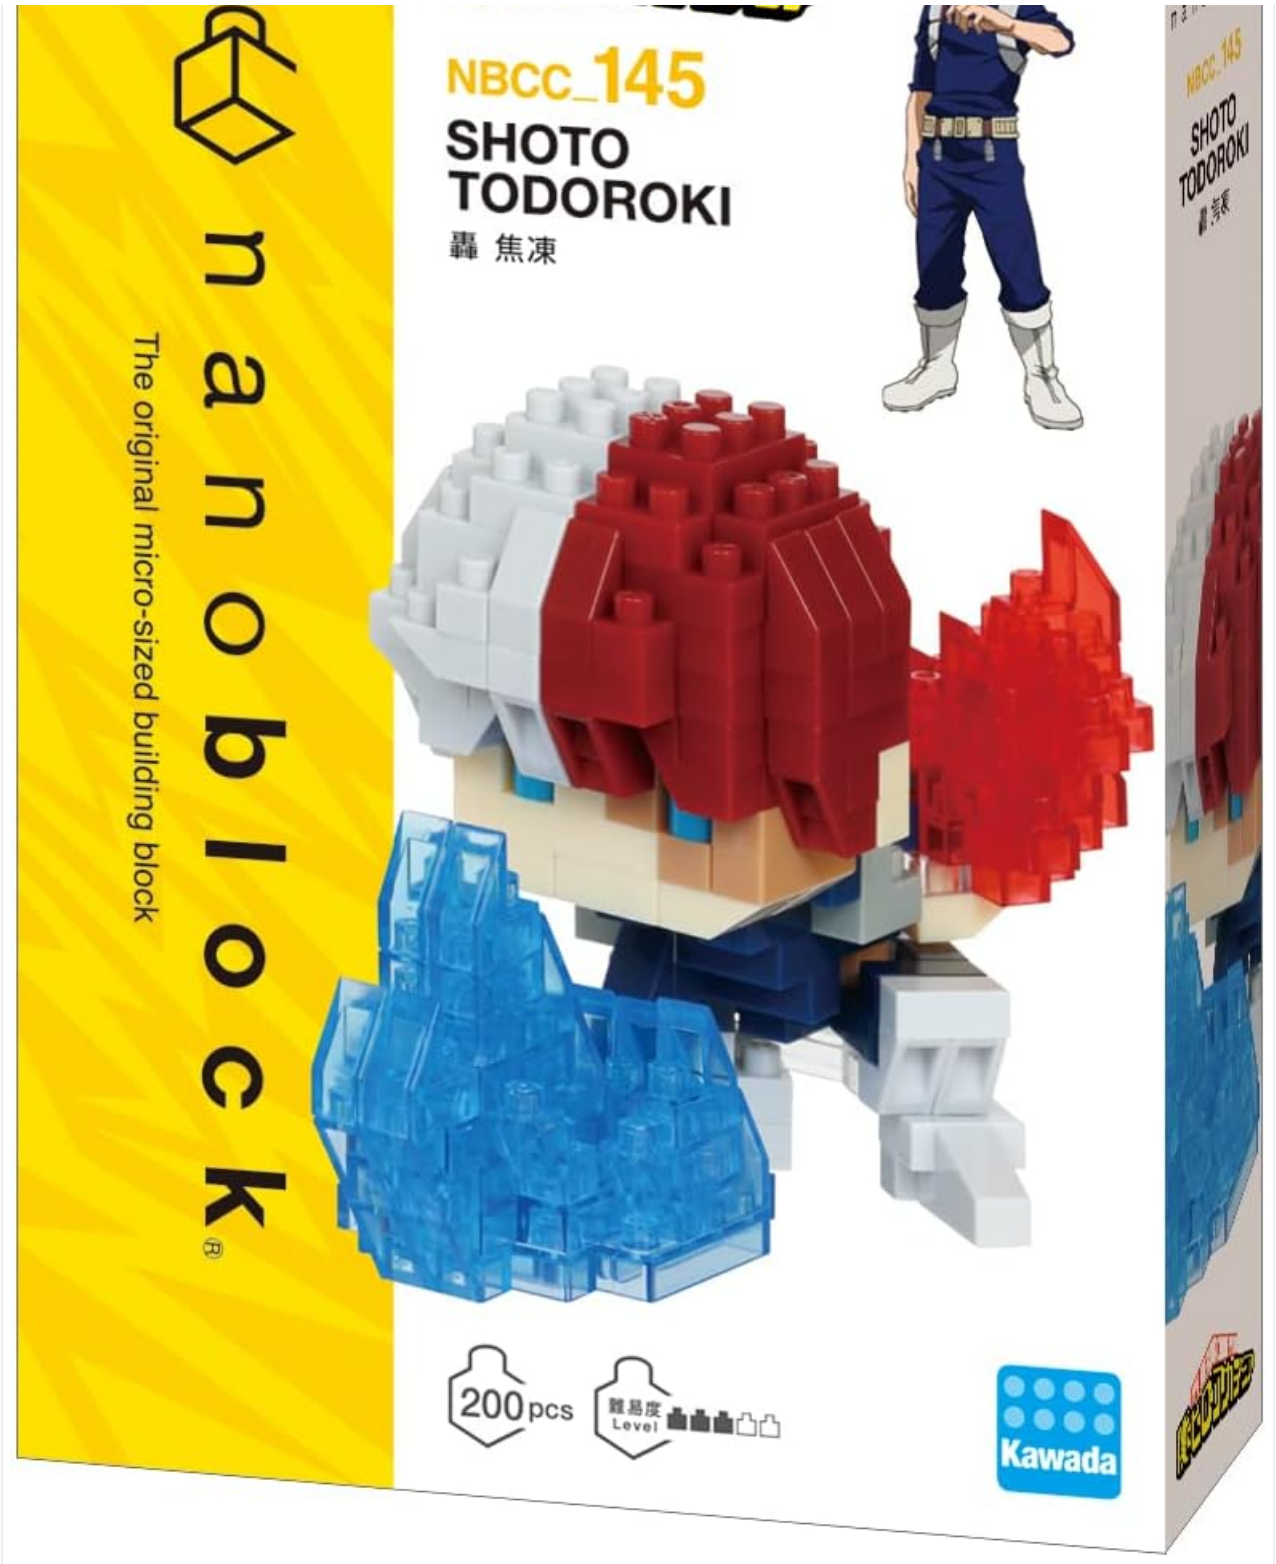

Image 5: A side view of the completed Nanoblock Shoto Todoroki model, highlighting its profile and block construction.

6. Display and Handling

Once assembled, your Nanoblock Shoto Todoroki model is ready for display. Due to the small size and interlocking nature of the blocks, the finished model can be delicate. Handle it with care to prevent pieces from detaching.

- **Stable Surface:** Place your model on a stable, flat surface where it is unlikely to be knocked over.
- **Dust Protection:** Consider displaying it in a dust-free environment or a display case to maintain its appearance.
- **Optional Gluing:** For a more permanent display, some builders choose to apply a small amount of model glue to the connections, especially if the model will be moved frequently.

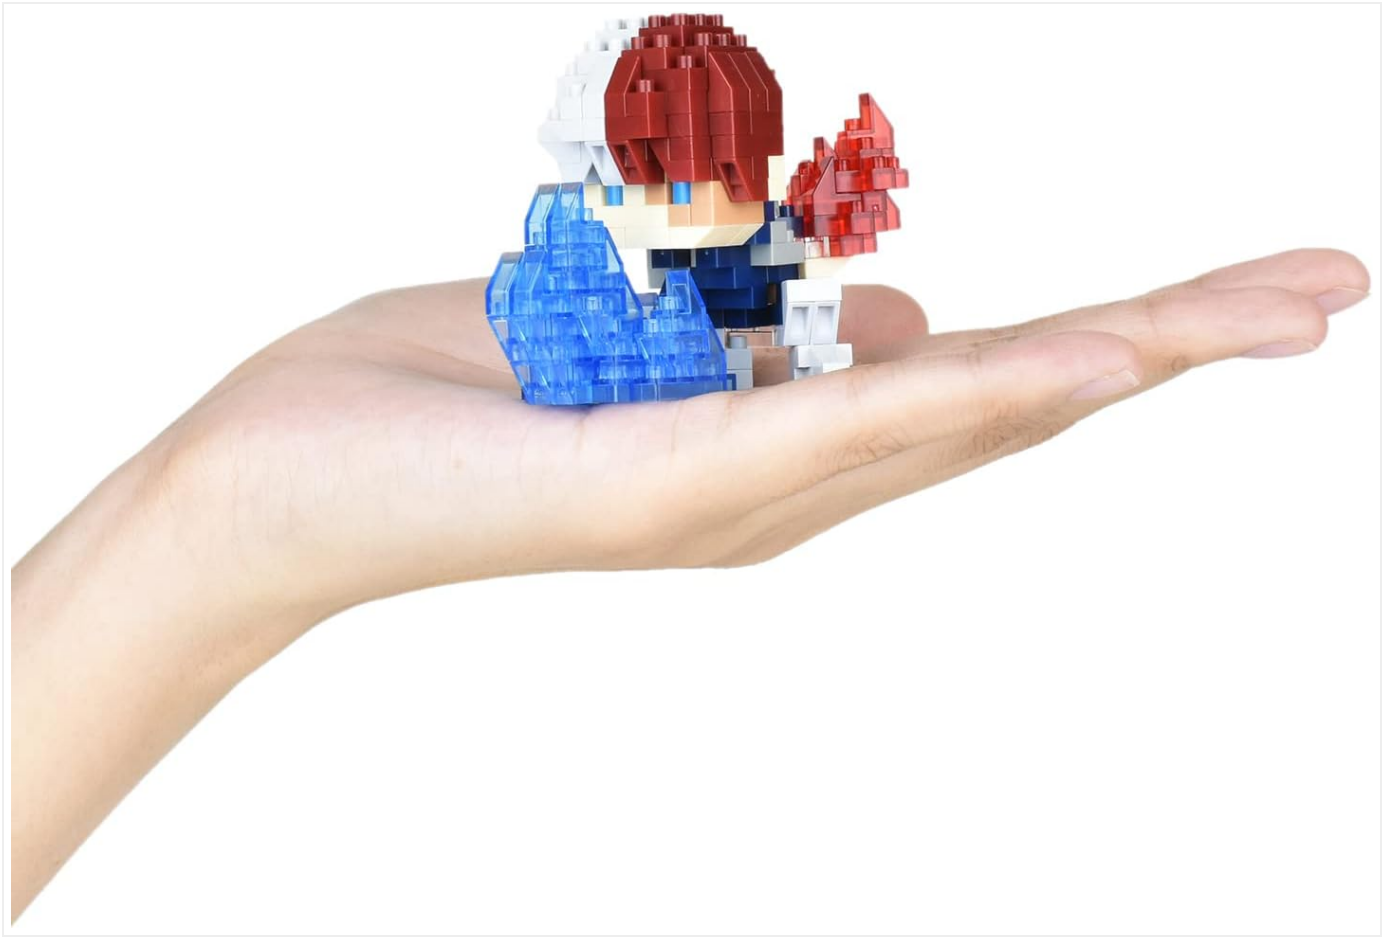

Image 6: A collection of Nanoblock My Hero Academia characters, including Shoto Todoroki, displayed in a setting.

7. Maintenance and Care

To keep your Nanoblock model in good condition:

- **Cleaning:** Gently dust the model with a soft brush or a can of compressed air. Avoid using water or harsh cleaning agents, as these may damage the plastic or loosen connections.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss.

8. Troubleshooting

- **Missing Pieces:** While rare, if you find a piece missing, carefully check your workspace. If a piece is genuinely missing from a new kit, refer to the warranty and support section for assistance.
- **Difficulty Assembling:** Nanoblocks require precision. If you're struggling, take a break and return with fresh eyes. Double-check the instruction guide, ensuring you are following each step accurately and that blocks are oriented correctly. Tweezers can aid in placing difficult pieces.
- **Model Falling Apart:** Ensure all blocks are pressed firmly together. Some connections, especially those relying on a single peg, can be less stable. For display models, consider the optional gluing method mentioned in Section 6.

9. Specifications

Model Number	NBCC_145
Character	Shoto Todoroki

Brand	KAWADA
Number of Pieces	200
Material	Plastic
Recommended Age	15+ years
Product Dimensions (L x W x H)	3.99 x 5.49 x 6.99 cm (approx.)
Educational Objective	Team Building Skills (Focuses on precision and following instructions)

10. Warranty and Support

Only products with an affixed official Bandai Namco label have been thoroughly tested for safety and meet all North American consumer product safety regulations. This label also entitles the purchaser to product support assistance. For any inquiries or support regarding your Nanoblock kit, please refer to the contact information provided with your official Bandai Namco labeled product.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
