4. Setup and Assembly

Assembly of your nanoblock Jiraiya figure requires careful attention due to the small size of the bricks. Follow the included step-by-step instructions precisely for the best results.

1. **Preparation:** Clear a well-lit, flat surface for assembly. Ensure you have enough space to spread out the pieces without losing them.
2. **Sorting:** Open the individual bags and, if desired, sort the bricks by color or shape to facilitate easier building.
3. **Follow Instructions:** Refer to the detailed instruction manual provided. Each step illustrates which bricks to use and where to place them. Pay close attention to the orientation of each brick.
4. **Precision:** nanoblocks are designed for a perfect fit. Apply gentle, firm pressure to connect the bricks. Avoid forcing pieces together.
5. **Small Bricks:** Remember that bricks are as small as 4mm x 4mm x 5mm. Using tweezers (not included) can aid in placing very small pieces accurately.

6. Maintenance

- **Cleaning:** Dust the figure regularly with a soft, dry cloth or a soft brush. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** If disassembling for storage, keep all pieces in a secure container to prevent loss.
- **Avoid Extreme Conditions:** Do not expose the figure to direct sunlight for prolonged periods or extreme temperatures, as this may cause discoloration or warping of the plastic bricks.

7. Troubleshooting

Problem	Solution
Missing pieces	Carefully check all packaging and the building area. Sometimes, extra pieces are included, which might resolve minor shortages. If critical pieces are missing, contact KAWADA customer support.
Difficulty connecting bricks	Ensure the bricks are correctly aligned and apply gentle, even pressure. Avoid forcing them. Refer to the instruction manual for correct placement.
