Setup and Assembly

Before beginning assembly, ensure you have a clean, well-lit workspace. Due to the miniature size of nanoblocks (as small as 4mm x 5mm), careful handling is essential. Each blind box contains the specific blocks and instructions for one character.

1. **Unboxing:** Carefully open one of the individual blind boxes.
2. **Identify Components:** Inside, you will find sealed bags of nanoblocks and a folded instruction sheet.
3. **Review Instructions:** Unfold the instruction sheet and familiarize yourself with the building steps and block types.
4. **Prepare Blocks:** Open the sealed bags and carefully sort the blocks by color or shape if desired, to facilitate easier assembly.

Building Instructions

Follow the detailed step-by-step instructions provided within each individual blind box. The instructions use clear diagrams to guide you through the assembly process. Pay close attention to the number and type of blocks required for each step.

- **Step-by-Step Assembly:** Each instruction sheet illustrates the precise placement of each block.
- **Precision Building:** Nanoblocks are designed for a perfect fit, allowing for intricate detail. Ensure blocks are firmly pressed together.
- **Visual Guidance:** Refer to the diagrams frequently to ensure correct orientation and layering of blocks.

Care and Maintenance

To ensure the longevity and appearance of your nanoblock creations, follow these care guidelines:

- **Cleaning:** Gently wipe assembled figures with a dry, soft cloth to remove dust. For more thorough cleaning, use a slightly damp cloth and allow to air dry completely. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store unbuilt blocks and assembled figures in a cool, dry place away from direct sunlight to prevent discoloration or damage. Keep small, unbuilt blocks in their original packaging or a secure container to prevent loss.
- **Handling:** Handle assembled figures with care, especially delicate parts, to avoid accidental disassembly.

Troubleshooting

If you encounter any issues during assembly or with your nanoblock set, consider the following:

- **Missing Pieces:** Double-check all packaging and your workspace. Due to the small size, blocks can be easily overlooked. If pieces are genuinely missing, contact KAWADA customer support.

- **Difficulty Assembling:** Ensure you are following the instructions precisely. Sometimes, a block may need to be rotated or placed in a specific orientation. The small size requires patience and precision.
- **Loose Connections:** Ensure each block is firmly pressed into place. Nanoblocks are designed for a tight fit.
