## 1. PRODUCT OVERVIEW

This manual provides essential information for the safe and effective use of your Intex Inflatable Color Whirl Inner Tube. This 6-pack of Inflatable Round Color Whirl Tubes from Intex is designed to add vibrant colors to your water activities. Each tube measures 47 inches in diameter and is suitable for one rider, featuring two built-in heavy-duty handles for ease of use and transport. Constructed from durable 12-gauge vinyl materials, these tubes are built for longevity. Inflation is simplified with two separate air chambers per tube.

Image 1.1: A set of six Intex Inflatable Color Whirl Inner Tubes, showcasing their vibrant red, green, blue, and orange designs. Each tube is round with a central opening and features two white handles on the sides.

## 2. IMPORTANT SAFETY INFORMATION

**WARNING: THIS IS NOT A LIFE SAVING DEVICE. DO NOT LEAVE CHILD UNATTENDED WHILE DEVICE IS IN USE. SEE PRODUCT FOR ADDITIONAL WARNINGS.**

- Always supervise children and inexperienced swimmers when the product is in use.
- Do not use in rough water, strong currents, or open seas.
- Ensure the product is fully inflated before use.
- Do not over-inflate.
- Keep away from sharp objects, heat sources, and open flames.
- Inspect the product for damage before each use. Do not use if damaged.
- This product is designed for recreational use only and is not intended for commercial or rescue purposes.
- Adhere to the maximum weight capacity.

### 3. SETUP INSTRUCTIONS

---

1. **Unpack:** Carefully remove the inner tube from its packaging.
2. **Locate Air Chambers:** Each tube has two separate air chambers. Identify the inflation valves on each chamber.
3. **Inflate:** Using an air pump (not included), inflate each air chamber until the tube is firm to the touch but not rigid. Avoid over-inflation, as this can damage the product. Ensure the valves are securely closed after inflation.
4. **Inspect:** After inflation, check the entire surface of the tube for any leaks or damage. If a leak is detected, refer to the Troubleshooting section.
5. **Ready for Use:** Once fully inflated and inspected, the inner tube is ready for use.

Image 3.1: A detailed view of a single Intex Color Whirl Inner Tube, highlighting its vibrant color pattern and the two built-in handles.

## 4. OPERATING THE INNER TUBE

---

The Intex Color Whirl Inner Tube is designed for comfortable lounging and floating in calm water environments.

- **Entry:** Carefully enter the tube by sitting in the center opening. Use the built-in handles for stability when getting on and off the tube.
- **Usage Environment:** Ideal for use in backyard swimming pools, calm lakes, or lazy rivers. Avoid areas with sharp objects, strong currents, or heavy boat traffic.
- **Handles:** The two heavy-duty handles provide a secure grip for stability and ease of carrying the tube to and from the water.
- **Relaxation:** Position yourself comfortably within the tube for relaxation and enjoyment on the water.

Image 4.1: A person comfortably seated on an Intex Color Whirl Inner Tube, floating in a clear blue swimming pool, demonstrating typical use.

## 5. CARE AND MAINTENANCE

---

- **Cleaning:** After each use, rinse the inner tube with fresh water to remove chlorine, salt, or dirt. Wipe it clean with a soft cloth. Do not use harsh chemicals or abrasive cleaners.
- **Drying:** Ensure the tube is completely dry before deflating and storing to prevent mildew and material degradation.
- **Deflation:** Open the air valves and gently press on the tube to release air. For quicker deflation, an air pump

with a deflate function can be used.

- **Storage:** Store the deflated tube in a cool, dry place, away from direct sunlight and extreme temperatures. Keep it away from sharp objects and pests.
- **Inspection:** Periodically inspect the tube for any signs of wear, punctures, or seam separation.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Tube loses air quickly	<ul style="list-style-type: none"><li>• Valve not fully closed</li><li>• Small puncture or leak</li><li>• Temperature change (cold air contracts)</li></ul>	<ul style="list-style-type: none"><li>• Ensure valves are securely sealed.</li><li>• Locate the leak (e.g., using soapy water) and apply the included repair patch.</li><li>• Re-inflate if used in colder conditions.</li></ul>
Tube does not inflate properly	<ul style="list-style-type: none"><li>• Valve obstruction</li><li>• Large puncture</li></ul>	<ul style="list-style-type: none"><li>• Check valve for debris.</li><li>• Inspect for large tears. If irreparable, replace the product.</li></ul>

A repair patch is included with your Intex Color Whirl Inner Tube for minor punctures. For larger damage or persistent issues, contact Intex customer support.

## 7. PRODUCT SPECIFICATIONS

**Model Name:** 6 x 58202EP

**ASIN:** B0B4PS5TWD

**Brand:** Intex
