SAFETY INFORMATION

Before assembling or operating your Arcade1UP cabinet, please observe the following safety precautions:

- Always ensure the cabinet is placed on a stable, level surface to prevent tipping. An anti-tip over strap is included for additional stability.
- Keep all electrical components away from water or excessive moisture.
- Do not attempt to modify or repair the internal components of the cabinet. Refer all servicing to qualified personnel.
- This product is recommended for ages 14 and up. Adult supervision is advised for younger users.
- Ensure proper ventilation around the cabinet to prevent overheating.
- Unplug the unit from the power outlet before cleaning or when not in use for extended periods.

Assembly Instructions

Assembly of your Arcade1UP cabinet typically takes approximately 1.5 hours and is best performed by two people. You will need a Phillips head screwdriver and possibly a flathead screwdriver (not included).

1. **Unpack and Organize:** Carefully remove all components from the packaging. Identify and separate all panels, hardware, and electronic parts. Refer to the included parts list to ensure all items are present.

2. **Assemble the Base/Riser:** Begin by assembling the custom riser, if you intend to use it. Follow the numerical sequence for attaching panels using the provided screws and cam locks.

3. **Construct the Cabinet Body:** Attach the side panels to the base, then secure the back and front panels. Ensure all connections are tight and stable.

4. **Install the Screen and Marquee:** Carefully mount the 17-inch LCD screen into its designated slot. Connect the necessary cables. Install the light-up marquee at the top of the cabinet.

5. **Attach the Control Deck:** Secure the control deck to the front of the cabinet. Connect the control panel wiring to the main board as indicated in the detailed assembly guide.

6. **Final Touches:** Attach any remaining decorative pieces, such as the clear deck protector. Install the anti-tip over strap to a wall stud for added safety.

7. **Power Connection:** Once fully assembled, connect the power adapter to the cabinet and then to a wall outlet.

OPERATING INSTRUCTIONS

Operating your Arcade1UP Centipede Edition is straightforward:

1. **Power On:** Locate the power switch, usually on the back or side of the cabinet, and flip it to the 'ON' position. The screen will illuminate, and the marquee will light up.
2. **Game Selection:** Use the joystick and buttons on the control deck to navigate the game selection menu. The Centipede Edition includes 12 classic Atari games.
3. **Start Game:** Once you have selected a game, press the '1 Player' or '2 Player' start button to begin. This cabinet features coinless operation, so no coins are required.
4. **Controls:** Utilize the real-feel arcade controls, including the joystick/trackball and action buttons, to play the games. Familiarize yourself with the specific controls for each game.
5. **Adjust Volume:** An adjustable variable volume control is typically located on the control panel or side of the cabinet. Adjust to your preferred sound level.
6. **Wi-Fi Leaderboards:** This cabinet supports Wi-Fi enabled leaderboards, allowing you to connect with other gamers and post your high scores. Follow on-screen prompts to connect to your home Wi-Fi network.
7. **Power Off:** When finished playing, flip the power switch to the 'OFF' position.

INCLUDED GAMES

The Arcade1UP Atari Legacy Arcade Game Centipede Edition cabinet comes pre-loaded with 12 classic Atari titles. While Centipede is the featured game, the collection offers a variety of retro arcade experiences. For a complete and detailed list of all 12 included games, please refer to the official product packaging or the Arcade1UP website.

MAINTENANCE

To keep your Arcade1UP cabinet in optimal condition, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the cabinet surfaces. For stubborn marks, a slightly damp cloth with mild soap can be used, followed by drying. Avoid abrasive cleaners or solvents.
- **Screen Care:** Clean the LCD screen with a soft, lint-free cloth specifically designed for electronics. Do not spray cleaning solutions directly onto the screen.
- **Control Deck:** Keep the control deck clean and free of dust and debris. Periodically check that the joystick, trackball, and buttons operate smoothly.
- **Ventilation:** Ensure that the ventilation openings on the cabinet are not blocked to allow for proper airflow and prevent overheating.
- **Storage:** If storing the cabinet for an extended period, unplug it and cover it to protect from dust and moisture.

TROUBLESHOOTING

If you encounter issues with your Arcade1UP cabinet, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Cabinet does not power on.	Power cord not fully plugged in; Power switch off; Outlet issue.	Ensure power cord is securely connected to both the cabinet and a working wall outlet. Check that the power switch is in the 'ON' position. Try a different outlet.
No image on screen.	Loose display cable; Screen not powered.	Check all internal display cable connections. Ensure the cabinet is powered on.
Controls are unresponsive.	Loose control panel wiring; Software glitch.	Verify all control panel wiring connections are secure. Try powering the unit off and on again.
Sound issues (no sound, distorted sound).	Volume too low; Speaker connection issue.	Adjust the volume control. Check speaker connections if accessible and safe to do so.
Wi-Fi connection issues.	Incorrect password; Router too far; Network interference.	Double-check Wi-Fi password. Move cabinet closer to router or reduce interference. Restart router.

If these steps do not resolve your issue, please contact Arcade1UP customer support for further assistance.
