## **INTRODUCTION**

This instruction manual provides guidance for the installation and maintenance of your Ecleanfy replacement parts kit for Shark AI Robot Vacuums. Regular replacement of these components is essential to maintain your robot vacuum's cleaning efficiency and extend its lifespan. This kit includes a self-cleaning brushroll, main brush, various filters, and side brushes.

## COMPATIBILITY

This replacement parts kit is compatible with the following Shark AI Robot Vacuum models:

- Shark AI AV2511AE
- Shark AI AV2501S
- Shark AI AV2610WA
- Shark AI AV2501AE
- Shark AI RV2502AE
- Shark AI RV2610WA
- Shark AI UR2500SR
- Shark AI RV2520AOUS
- Shark AI AV2510AOUS
- Shark AI AV2510SOUS

- Shark AI RV2520AFUS
- Shark AI AV2610BFUS
- Shark AI RV2610WD
- Shark AI UR250BE0US
- Shark AI UR250BEYUS
- Shark AI UR250BEXUS
- Shark AI AV251WAXUS
- Shark AI AV251WAOUS
- Shark AI RV2610BFUS
- Shark AI AV2610BZUS
- Shark AI RV2610BTUS
- Shark AI RV2820AE
- Shark AI RV2520
- Shark AI RV2510
- Shark AI UR250BE0US
- Shark AI RV2402WXUS
- Shark AI RV2400WD
- Shark AI RV2410WD

Please verify your robot vacuum model number before purchasing to ensure proper fit.

## WHAT'S INCLUDED

Your Ecleanfy 12-part replacement kit includes the following components:

- 1 x Self-Cleaning Brushroll
- 1 x Main Brush
- 1 x Base Pre-Motor Filter
- 1 x Base Post-Motor Filter
- 1 x Pre-Motor Filter
- 1 x Dust Bin Filter
- 6 x Side Brushes
- 1 x Free Cleaning Tool

# Products Size

## SETUP AND INSTALLATION

### Replacing the Self-Cleaning Brushroll

1. Turn off your robot vacuum and place it upside down on a clean, flat surface.
2. Locate the brushroll cover on the underside of the vacuum.
3. Press the tabs or release buttons to open and remove the brushroll cover.
4. Carefully lift out the old brushroll. Dispose of it properly.
5. Insert the new self-cleaning brushroll into the slot, ensuring the ends align with the vacuum's drive mechanism.
6. Replace the brushroll cover and press firmly until it clicks into place.

# 6 Pack Side Brushes

**99%**  
Edge Coverage

**0mm**  
Distance Cleaning

Image: A detailed view of the self-cleaning brushroll, highlighting its durable brush roll tab, soft bristles, flexible silicone fins, and well-fitted slot for effective cleaning.

## Replacing the Side Brushes

1. Turn off your robot vacuum and place it upside down.
2. Gently pull the old side brushes straight up to remove them from their posts.
3. Align the new side brushes with the posts and push them down firmly until they snap into place.

# HEPA Filter -- High Filtration & Washable

Block and filter particles as small as **0.3** microns,  
keep robotic vacuum at the highest cleaning efficiency

Dust

Odors

Crumbs

Fiber

Pet Fur

## Replacing Filters (Pre-Motor, Base Post-Motor, Dust Bin, Foam)

1. Open the dust bin compartment on your robot vacuum.
2. Remove the dust bin.
3. Locate the various filters within the dust bin and the vacuum's base.
4. Remove the old filters and discard them.
5. Insert the new Pre-Motor Filter, Base Post-Motor Filter, Dust Bin Filter, and Foam Filter into their respective slots, ensuring a snug fit.
6. Close the dust bin compartment securely.

# Self-Cleaning Brushroll

Pick up more hair and easy to clean, soft material to protect the floor.

Image: Two types of filters, a pre-filter and a pre-motor filter, designed for high filtration and washability, capturing dust, odors, crumbs, fiber, and pet fur.

# HEPA Filter Base Post-Motor Filter

Attach **99.97%** of particles as small as 0.3 micron.

## OPERATING TIPS

With new replacement parts installed, your Shark AI Robot Vacuum will operate at peak efficiency. The new self-cleaning brushroll effectively captures dust, pet hair, and debris, while the side brushes ensure thorough cleaning along edges and corners. Fresh filters maintain optimal suction power and improve air quality.

## MAINTENANCE

---

To ensure your robot vacuum continues to perform optimally, adhere to the following replacement schedule:

- **Main Brush:** Replace every 6 months.
- **Sweeping Side Brushes:** Replace every 2 months.
- **Filters (Pre-Motor, Base Post-Motor, Dust Bin, Foam):** Replace every 2 months.

While some parts can be washed and reused, wear and tear will eventually reduce their effectiveness. Regular replacement is crucial for maintaining high performance.

## TROUBLESHOOTING

---

If you experience any of the following issues after extended use, it may be time to replace your parts:

- **Reduced Suction Power:** Often caused by clogged or worn filters.
- **Poor Debris Pickup:** May indicate a worn main brushroll or side brushes.
- **Unusual Noises:** Could be due to debris tangled in the brushroll or worn components.
- **Incomplete Edge Cleaning:** Worn or bent side brushes can lead to this issue.

Replacing the appropriate parts from this kit can resolve these common performance issues.

## SPECIFICATIONS

---

<b>Brand:</b>	Ecleanfy
<b>Model Info:</b>	AV2501S RV2502AE AV2501AE
<b>Item Weight:</b>	8.1 ounces
<b>Package Dimensions:</b>	7.99 x 5.47 x 3.03 inches
<b>Material Type:</b>	Foam
<b>Included Components:</b>	1*Self-Cleaning Brushroll, 1>Main Brush, 1>Base Pre-Motor Filters, 1>Base Post-Motor Filter, 1>Pre-Motor Filter, 1>Dust Bin Filter, 6>Side Brushes and 1 Free cleaning tool
<b>Number of Pieces:</b>	12
<b>Reusability:</b>	Reusable (for some components)
