## 3. SETUP

### Initial Charging:

Before first use, fully charge your SLuB Power Bank. This ensures optimal battery performance and longevity.

1. Connect the provided USB-C cable to the USB-C input/output port on the power bank, or use a Micro USB cable with the Micro USB input port.
2. Connect the other end of the cable to a compatible USB wall charger (not included).
3. The LED digital display will show the charging progress, indicating the battery percentage.
4. The power bank is fully charged when the display shows "100".

## 4. OPERATING INSTRUCTIONS

### Checking Battery Level:

Press the power button once to activate the LED digital display and view the current battery percentage.

### Charging Your Devices:

The power bank can charge two devices simultaneously using its USB-A and USB-C output ports.

1. Connect your device's charging cable to either the USB-A output port (5V/2A) or the USB-C output port (5V/3A) on the power bank.
2. Connect the other end of the cable to your mobile device.
3. The power bank will automatically begin charging your device. The LED display will remain active during charging.
4. Disconnect your device once it is fully charged or when you no longer need to charge.
