# Jurassic World HJK02 Epic Battle Pack

## INSTRUCTION MANUAL

Model: HJK02 | Brand: Jurassic World

### Introduction

Welcome to the world of Jurassic World: A New Age! This Epic Battle Pack allows you to recreate thrilling scenes and embark on new adventures with Dr. Ellie Sattler and three formidable dinosaur figures. Each dinosaur features unique attack actions and realistic details, bringing the prehistoric world to life. Additionally, the figures can be integrated into a digital game world through augmented reality for an enhanced play experience.

### Safety Information

**WARNING: Not suitable for children under 36 months due to small parts that may present a choking hazard.**

Please ensure all packaging materials are removed before giving the product to a child. Adult supervision is recommended during play.

### What's in the Box

Your Jurassic World HJK02 Epic Battle Pack includes the following components:

- 1 x Dr. Ellie Sattler Figure
- 1 x Strike 'N Roar Giganotosaurus Figure
- 1 x Thrash 'N Devour Tyrannosaurus Rex Figure
- 1 x Sound Slashin' Therizinosaurus Figure

## Setup

- 1. Unboxing:** Carefully remove all figures and accessories from the packaging. Dispose of packaging materials responsibly.
- 2. Figure Articulation:** All figures feature articulated joints. Gently move the limbs and tails to understand their range of motion. Do not force movements beyond their natural articulation points.
- 3. Augmented Reality (AR) Setup:**
  - Download the free **Jurassic World Facts app** from your mobile device's app store (available on Android and iOS).
  - Locate the hidden DNA code on each dinosaur figure. This code is typically found on the underside or a less visible part of the figure.
  - Open the Jurassic World Facts app and follow the in-app instructions to scan the DNA code. Ensure good lighting for successful scanning.

## Operating Instructions

Engage in epic battles and creative storytelling with your Jurassic World figures. Each dinosaur has unique interactive features:

- **Strike 'N Roar Giganotosaurus:** This figure features a powerful biting action and a roaring sound. To activate, manipulate the figure's tail or a designated lever (refer to the figure's specific design) to make its neck move back and forth, triggering the roar and bite.

- **Thrash 'N Devour Tyrannosaurus Rex:** This T-Rex can bite, roar, and shake. Activate its features by moving its tail or a specific mechanism to initiate the thrashing motion, which also triggers biting and roaring sounds. This figure is designed for dynamic confrontations.

MINI DINO SOLD SEPARATELY. SUBJECT TO AVAILABILITY.

- **Dr. Ellie Sattler Figure:** The human figure has articulated joints, allowing for various poses and

interactions with the dinosaur figures. Use her to recreate scenes or imagine new adventures.

- **Augmented Reality (AR) Play:** After scanning the DNA codes with the Jurassic World Facts app, you can expand your play into the digital world. The app allows you to bring the dinosaurs to life, learn facts, and engage in digital games. Follow the instructions within the app for specific AR experiences.

## Maintenance

- **Cleaning:** Wipe figures with a damp cloth to remove dust and dirt. Do not submerge figures in water or use harsh chemicals, as this may damage the electronics or paintwork.
- **Storage:** Store figures in a cool, dry place away from direct sunlight to prevent fading or material degradation.
- **Battery Information:** This product does not require batteries for operation.

## Troubleshooting

- **Dinosaur Action/Sound Not Working:**
  - Ensure you are activating the correct mechanism (tail, lever, etc.) as described in the Operating Instructions.
  - Check for any obstructions in the moving parts.
  - If the sound is intermittent or distorted, it might indicate a minor mechanical issue. Gentle manipulation of the activating part may resolve it.
- **AR DNA Code Not Scanning:**
  - Ensure you have downloaded the official Jurassic World Facts app.
  - Check that your mobile device's camera is clean and functioning correctly.
  - Provide adequate, even lighting when scanning. Avoid glare or shadows on the code.
  - Hold the device steady and at an appropriate distance from the code.
  - Verify that the DNA code on the figure is clean and undamaged.
