INTRODUCTION

This manual provides comprehensive instructions for the Lykke Indigo 6-Inch Interchangeable Tunisian Crochet Hook Set. It covers the components, assembly, usage, care, and specifications of your new crochet hook set. Please read this manual thoroughly before use to ensure proper handling and longevity of your tools.

PACKAGE CONTENTS

Your Lykke Indigo Interchangeable Tunisian Crochet Hook Set includes the following items:

- 12 pairs of 6-inch (15cm) birchwood crochet hook tips in various US and Metric sizes.
- 5 interchangeable cords: two 24-inch (60cm), two 32-inch (80cm), and one 40-inch (100cm).
- 2 cord connectors for extending cord length.
- 4 tightening keys for securing hook tips to cords.
- 8 cord stoppers (end caps) to hold stitches on the cord.
- 1 Azure Denim Case for organized storage.
- 1 Craft Project Bag (approximately 13 x 16 inches).

Lightweight & Strong Dyed Birchwood

SETUP AND ASSEMBLY

1. **Select Hook Size:** Choose the desired crochet hook tip based on your project requirements. Both US and Metric sizes are etched on each hook for easy identification.
2. **Choose Cord Length:** Select an appropriate cord length (24", 32", or 40") for your project. For longer projects, use cord connectors to join two cords.
3. **Attach Hook to Cord:** Gently screw the metal end of the hook tip onto the threaded metal end of the cord. Ensure it is finger-tight.

4. **Secure Connection with Key:** Insert a tightening key into the small hole on the metal joint where the hook meets the cord. Turn the key gently to secure the connection, preventing the hook from unscrewing during use. Do not overtighten.
5. **Add Cord Stoppers:** If working on a project that requires holding stitches on the cord, screw a cord stopper onto the free end of the cord. This prevents stitches from sliding off.

OPERATING INSTRUCTIONS

The Lykke Indigo Tunisian Crochet Hook Set is designed for Tunisian crochet, a technique that combines elements of knitting and traditional crochet. The smooth birchwood hooks provide a comfortable grip and allow yarn to glide easily.

Tunisian Crochet Basics:

- **Forward Pass:** Work stitches onto the hook, similar to picking up stitches in knitting. All active loops remain on the hook.
- **Return Pass:** Work stitches off the hook, reducing the number of loops until only one remains.
- The cord allows for larger projects by holding a greater number of stitches than a standard crochet hook.

Using the Project Bag:

The included project bag is suitable for carrying your current crochet project and supplies. It features a drawstring closure to keep contents secure and shoulder straps for convenient transport.

MAINTENANCE AND CARE

- **Cleaning Hooks:** Wipe birchwood hooks with a soft, dry cloth to remove any residue or oils. Avoid using harsh chemicals or abrasive materials, which can damage the wood finish.
- **Storing Hooks:** Always store hooks and accessories in the provided Azure Denim Case to protect them from damage and keep them organized. The case's built-in Velcro stand helps keep hooks secure.
- **Cord Care:** Cords may develop memory or kinks over time. To relax a cord, gently warm it (e.g., with warm water or a hairdryer on low heat, keeping it away from direct contact) and then straighten it. Ensure cords are completely dry before storage.
- **Connection Points:** Periodically check the screw connections between hooks and cords for any wear. Ensure they are clean and free of debris to maintain a smooth connection.

TROUBLESHOOTING

- **Hooks Unscrewing from Cords:** Ensure the connection is tightened using the provided tightening

key. Do not overtighten, as this can strip the threads. If the issue persists, check for debris in the threads.

- **Cord Kinking:** If cords retain kinks, gently warm them as described in the Maintenance section to help them relax.
- **Stitches Snagging:** Ensure the hook tips are smooth. If any rough spots are detected, contact customer support. Verify that the connection between the hook and cord is flush to prevent yarn from snagging.
