Setup and Assembly

Follow these steps to assemble your Lookout Tower Playset:

1. Carefully remove all parts from the packaging.
2. Assemble the tower structure according to the detailed instructions provided in the box. Pay close attention to the elevator mechanism to ensure correct alignment.
3. Apply any included stickers to the designated areas on the tower. A steady hand is recommended for precise placement.
4. Place the 3 double-sided mission cards into the control panel slot at the top of the tower.
5. Insert one of the 3 double-sided periscope disks into the periscope viewer.

Operating Instructions

Engage in rescue missions with your PAW Patrol Lookout Tower Playset:

1. Pup Transformation (Elevator)

- Place the Off-Duty Chase figure into the front section of the tower elevator.
- Place the Hero-Pup Chase figure into the back section of the elevator.
- Raise the elevator to the top. As it rises, it will rotate, simulating the transformation of Off-Duty Chase into Hero-Pup Chase.

2. Mission Control

- At the top of the tower, use the mission control panel to select a mission by choosing one of the 3 double-sided mission cards.
- Look through the periscope and select one of the 3 double-sided periscope disks to view the mission details or location.

3. Vehicle Launch

- Once the mission is set, slide the Hero-Pup Chase figure down the tower slide.
- The figure will land directly into Chase's police cruiser.
- Slam down on the vehicle launcher mechanism to propel the police cruiser into action.

Maintenance

To ensure the longevity and cleanliness of your playset:

- **Cleaning:** Wipe the playset with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners, as these may damage the plastic or painted surfaces.
- **Storage:** Store the playset in a dry, cool place away from direct sunlight to prevent material degradation.
- **Inspection:** Periodically check for any loose or damaged parts. Discontinue use if any significant damage is found.

Troubleshooting

Problem	Possible Cause	Solution
Elevator gets stuck or does not rotate smoothly.	Incorrect assembly of the elevator mechanism.	Carefully review the assembly instructions for the elevator. Disassemble and reassemble the elevator, ensuring all pieces are correctly aligned and snapped into place. Avoid excessive force during assembly.

Problem	Possible Cause	Solution
Parts detach easily during play.	Parts may not be fully secured or are subject to rough play.	Ensure all connecting parts are firmly snapped together during assembly. Remind users to handle the playset gently during play. If a part is consistently loose, inspect for damage.
Vehicle launcher does not propel the car effectively.	Obstruction in the launch path or insufficient force applied.	Check the launch track for any debris or misaligned parts. Ensure the vehicle is correctly positioned on the launcher. Apply a firm, quick press to the launcher mechanism.
