## 3. SETUP AND ASSEMBLY INSTRUCTIONS

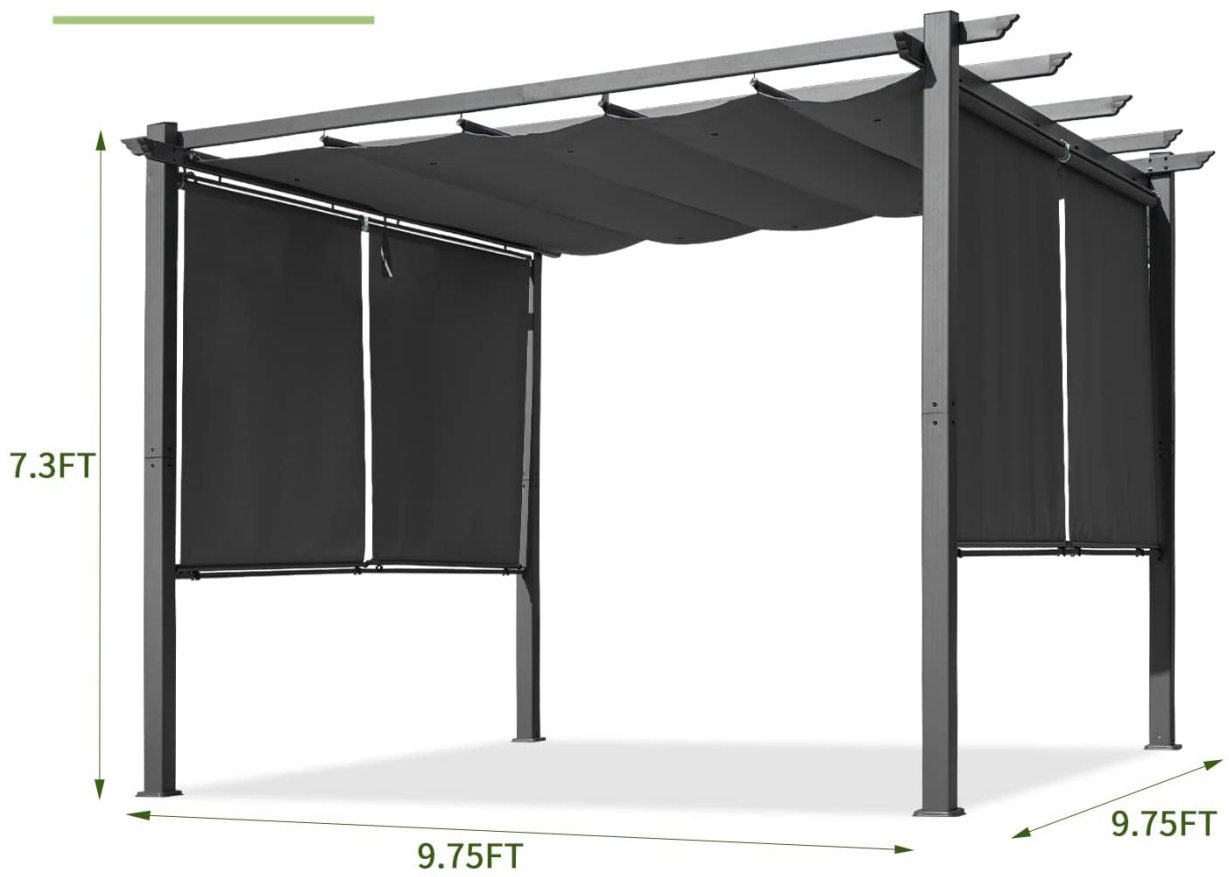

Assembly typically requires 1-2 hours with 2-3 people. Follow these steps carefully:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, flat surface. Refer to the parts list in your hardware kit to identify each piece.
2. **Assemble the Main Frame:** Connect the vertical posts to the horizontal beams using the provided hardware. Ensure all connections are secure but do not fully tighten bolts until the entire frame is assembled.
3. **Attach Crossbeams:** Install the top crossbeams that will support the canopy.
4. **Install Canopy Guide Rails:** Attach the metal guide rails for the adjustable canopy to the frame.
5. **Mount the Canopy:** Slide the waterproof fabric canopy onto the guide rails. Ensure it moves smoothly.
6. **Final Tightening:** Once the entire structure is assembled, go back and fully tighten all bolts and screws.
7. **Anchor the Pergola:** Securely anchor the pergola to the ground using appropriate anchors for your surface (e.g., concrete anchors for patio, ground stakes for lawn).

- **Frame Cleaning:** Wipe the steel frame with a damp cloth and mild detergent as needed. Dry thoroughly to prevent rust.
- **Seasonal Care:** During periods of strong winds, heavy rain, or snowfall, it is recommended to retract or remove the canopy to prevent damage to both the canopy and the frame.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary.
