WHAT'S IN THE BOX

Upon unpacking, please ensure all items are present and in good condition:

- VAVOFO KM-6775 Rechargeable Book Light
- USB Type-C Charging Cable
- User Manual (this document)

PRODUCT FEATURES

- **14 LEDs & Eye-Care Amber Light:** Equipped with 14 upgraded SMD LEDs. The warm amber light mode filters 99.95% of blue spectrum light, reducing eye strain.
- **9 Brightness Modes & Memory Function:** Offers 3 color temperatures (Amber, Amber+Cool White, Cool White) and 3 brightness settings (Low, Medium, High) for a total of 9 modes. The memory function recalls the last used color temperature

mode.

- **Rechargeable & Long-lasting:** Built-in 1000mAh rechargeable battery provides up to 80 hours of use on low mode, or 5 hours on high mode. Includes a Type-C charging cable.
- **360° Flexible Goose Neck & Non-slip Clip:** The adjustable neck allows precise light positioning. The multi-use non-slip clip securely attaches to books, tables, or headboards.
- **Low Battery Display:** A red indicator light flashes every 4 seconds when the battery is low, signaling the need for charging.

OPERATING INSTRUCTIONS

The book light features a single button for controlling both brightness and color temperature.

Power On/Off and Brightness Adjustment:

1. **To Turn On:** Short press the switch button once. The light will turn on in low illumination.
2. **To Adjust Brightness:** While the light is on, short press the button repeatedly to cycle through brightness levels: Low > Medium > High.
3. **To Turn Off:** After cycling through High brightness, a fourth short press will turn the light off.

Color Temperature Adjustment:

1. **To Change Color Temperature:** While the light is on, long press the switch button. The color temperature will cycle through: Cool White > Amber Light > Amber Light + Cool White. Release the button when your desired color temperature is reached.

Memory Function: The book light will automatically remember the last used brightness and color temperature settings when turned off and on again.

9 Lighting Modes

to meet your different needs

When the book light is on:
Long press—control the color temperatures
Short press—control the brightness

The book light will automatically memorize the last setting brightness and color temperature when you turn on the book light again after turning it off.

SWITCH BUTTON

At first, touch the switch button shortly, the reading book light will be turned on. Please noted, don't long press the switch button if the book light is off.

When the book light is on, Short Press the switch button functions:

1. Short press the switch button for the first time, the reading light is turned on, low light illumination;
2. Short press for the second time, medium light illumination;
3. Short press for the third time, strong light illumination;
4. Short press for the fourth time, the reading light is turned off, stopping illumination;

If you continue to press the switch position for a short time, the led lighting will cycle from low light, medium light, strong light and stop lighting in turn, until you choose the light brightness you need.

When the book light is on, Long Press the switch button functions:

When the Led book light is amber light, long press the book light's switch button has the following functions:

1. Long press the switch button for the first time, the book light is cool white;
2. Long press for the second time, the book light is amber light + cool white;
3. Long press for the third time, the book light is amber light again;

If you continue to press the lamp head switch position longly, the Led lighting will cycle from cool white, amber light + cool white, and amber light until you choose the color temperature you need.

CHARGING AND BATTERY

The VAVOFO book light is equipped with a 1000mAh rechargeable battery and charges via a Type-C USB cable.

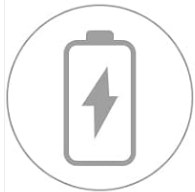

Charging Procedure:

1. Connect the provided Type-C USB cable to the charging port on the book light.
2. Connect the other end of the USB cable to a power source such as a power bank, charger adapter, laptop, or PC.
3. The power indicator light will show charging status (specific indicator behavior not detailed, assume solid light while charging and off/different color when full).
4. A full charge can provide up to 80 hours of light on the lowest setting or 5 hours on the highest setting.

Low Battery Indication:

During use, if the red indicator light flashes every 4 seconds, it signifies that the battery is low and requires charging. Please charge the book light promptly to ensure continued operation and battery longevity.

MAINTENANCE

- **Cleaning:** Wipe the book light with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** If the book light will not be used for an extended period, fully charge it before storing. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To maintain battery health, charge the book light every 3 months, even if it has not been used.

WARM NOTED

Please pay attention to the book light charging method if you don't often use the book light. The book light should be fully charged before stored when the book light is not used for a long time.

The book light should be fully charged every **3** months even if you don't use the book light.
