MSI MP272C

MSI PRO MP272C 27-inch Curved Full HD Monitor

USER MANUAL

Introduction

This user manual provides detailed instructions for the installation, operation, and maintenance of your MSI PRO MP272C 27-inch Curved Full HD Monitor. Designed for business and productivity, this monitor features a 1500R curvature, Full HD resolution (1920 x 1080), a 75 Hz refresh rate, and eye-friendly technologies such as Anti-Flicker and Less Blue Light mode. Please read this manual thoroughly before using the product to ensure proper setup and functionality.

Setup

1. Monitor Assembly

Carefully remove the monitor and its components from the packaging. Attach the stand base to the stand column, then secure the assembled stand to the back of the monitor panel. Ensure all screws are tightened securely. Alternatively, the monitor supports VESA mounting for wall or arm installation (VESA mount sold separately).

2. Connecting the Monitor

Connect the necessary cables to the corresponding ports on the back of the monitor and your computer. The monitor supports HDMI and DisplayPort connections. Plug the power adapter into the monitor's power input and then into an electrical outlet.

Operating Instructions

1. Powering On and Off

Locate the power button, typically on the back or bottom edge of the monitor. Press it to turn the monitor on or off. The power indicator light will illuminate when the monitor is active.

2. On-Screen Display (OSD) Navigation

The monitor features an On-Screen Display (OSD) menu for adjusting various settings. Access the OSD menu using the control buttons or joystick located on the monitor. Navigate through the menu options to customize your

display preferences.

3. Adjusting Display Settings

Within the OSD menu, you can adjust settings such as brightness, contrast, color temperature, and input source. Select the desired option and use the controls to modify the values. Confirm your changes before exiting the menu.

4. Key Features

- **1500R Curved Screen:** Provides an immersive viewing experience and a more uniform focal distance, reducing eye strain.
- **Anti-Flicker Technology:** Delivers a stable output current to the monitor, preventing invisible flickering that can cause dry eyes and eye strain.
- **Less Blue Light Mode:** Filters out blue spectrum light to provide a more comfortable viewing experience, especially during extended use.
- **Built-in Speakers:** The monitor includes integrated speakers for audio output.

Maintenance

Cleaning the Monitor

To clean the monitor screen, gently wipe it with a soft, lint-free cloth. For stubborn marks, lightly dampen the cloth with water or a mild, non-abrasive screen cleaner. Avoid using harsh chemicals or abrasive materials. For the monitor casing, use a soft, dry cloth. Ensure the monitor is powered off and unplugged before cleaning.

Troubleshooting

If you encounter issues with your monitor, refer to the following common problems and solutions:

- **No Display:**

- Ensure the power cable is securely connected to both the monitor and the power outlet.
- Verify that the video cable (HDMI or DisplayPort) is firmly connected to both the monitor and your computer.
- Check if the correct input source is selected in the monitor's OSD menu.
- Confirm your computer is powered on and not in sleep mode.

- **Screen Flickering:**

- Ensure the video cable is properly connected.
- Adjust the refresh rate in your computer's display settings.
- Enable or disable the monitor's Anti-Flicker feature in the OSD menu.

- **No Sound from Built-in Speakers:**

- Check the volume settings on both the monitor and your computer.
- Ensure the audio output is set to the monitor in your computer's sound settings.
- Verify that the video cable (HDMI or DisplayPort) is capable of transmitting audio and is properly connected.

- **Dead Pixels:**

- While rare, a small number of dead or stuck pixels may be present on LCD panels. Refer to MSI's pixel policy for warranty coverage.
