Diecast Masters 85604

Diecast Masters 1/50 Caterpillar D11 Fusion Bull Dozer with Shank Ripper

Model: 85604 - High Line Series

Introduction

This instruction manual provides comprehensive details for the Diecast Masters 1/50 Caterpillar D11 Fusion Bull Dozer with Shank Ripper. This highly detailed, collectible diecast model is part of the High Line Series, designed for display and appreciation of its intricate features. It is not intended for play and is recommended for ages 14 years and up.

Safety Information

Warning: Not recommended for ages 3 years and under due to small parts and potential choking hazards. This product is a collectible model, not a toy.

What's in the Box

- 1/50 Caterpillar D11 Fusion Bull Dozer Model
- Metal Tracks
- Cabin Roof (removable)

Setup and Display

Your Diecast Masters Caterpillar D11 Fusion Bull Dozer is designed for immediate display. Carefully remove the model from its premium collector's packaging. The model is nestled in soft foam cushioning to ensure its protection during transit.

The removable cab roof allows for placement of an operator figure (not included) inside the detailed cab interior. The access stairway can be folded down or up as desired for display purposes.

Operating Features

While primarily a static display model, the Caterpillar D11 Fusion Bull Dozer features several movable components for enhanced realism and posing:

- **Front Blade:** The full-functioning front blade can be raised, lowered, and angled side-to-side.
- **Shank Ripper:** The large three-shank ripper at the rear of the dozer can be raised or lowered.
- **Engine Bay Doors:** Numerous open doors and side engine maintenance panels are present for detailed viewing.

The model features realistic metal tracks and authentic Cat Machine Yellow paint with accurate decals. Additional details include hydraulic lines, air cleaners, exhaust stacks, fire suppression equipment, mirrors, and metal safety railings.

Maintenance and Care

To preserve the quality and appearance of your diecast model, follow these care instructions:

- **Cleaning:** Gently wipe the model with a soft, dry, lint-free cloth to remove dust. For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or solvents.
- **Handling:** Handle the model by its main body whenever possible. Avoid gripping small, delicate parts like railings, mirrors, or antennas, as these can bend or break.
- **Display Environment:** Display the model in a stable, dust-free environment away from direct sunlight,

extreme temperatures, and high humidity. These conditions can cause paint fading or material degradation over time.

- **Storage:** If storing the model, use its original packaging or a protective display case to prevent damage.

Troubleshooting

As a static display model, extensive troubleshooting is generally not required. However, if you encounter any issues:

- **Stiff Moving Parts:** If a movable part (blade, ripper) feels stiff, gently try to articulate it. Do not force it, as this may cause damage. A very small amount of silicone lubricant can be applied to pivot points if necessary, but use sparingly and wipe away any excess.
- **Loose Parts:** If a small part becomes loose, it may be reattached using a small amount of model-grade super glue, applied with a toothpick. Exercise caution to avoid gluing movable parts or getting glue on painted surfaces.
- **Damage During Shipping:** If the model arrived damaged, please contact the retailer or manufacturer immediately with photographic evidence.

Specifications

Feature	Detail
Model Name	Caterpillar D11 Fusion Bull Dozer with Shank Ripper
Series	High Line Series
Model Number	85604
Scale	1:50
Product Dimensions	Approximately 8.25 inches (L) x 5 inches (W) x 3.5 inches (H)
