SOOPYK BYCZ565

SOOPYK Hot and Cold Water Dispenser with Ice Maker User Manual

Model: BYCZ565

INTRODUCTION

Thank you for choosing the SOOPYK Hot and Cold Water Dispenser with Built-in Ice Maker. This appliance is designed to provide convenient access to hot, cold, and room-temperature water, in addition to producing ice cubes. To ensure safe and efficient operation, please read this manual thoroughly before initial setup and use.

IMPORTANT SAFETY INFORMATION

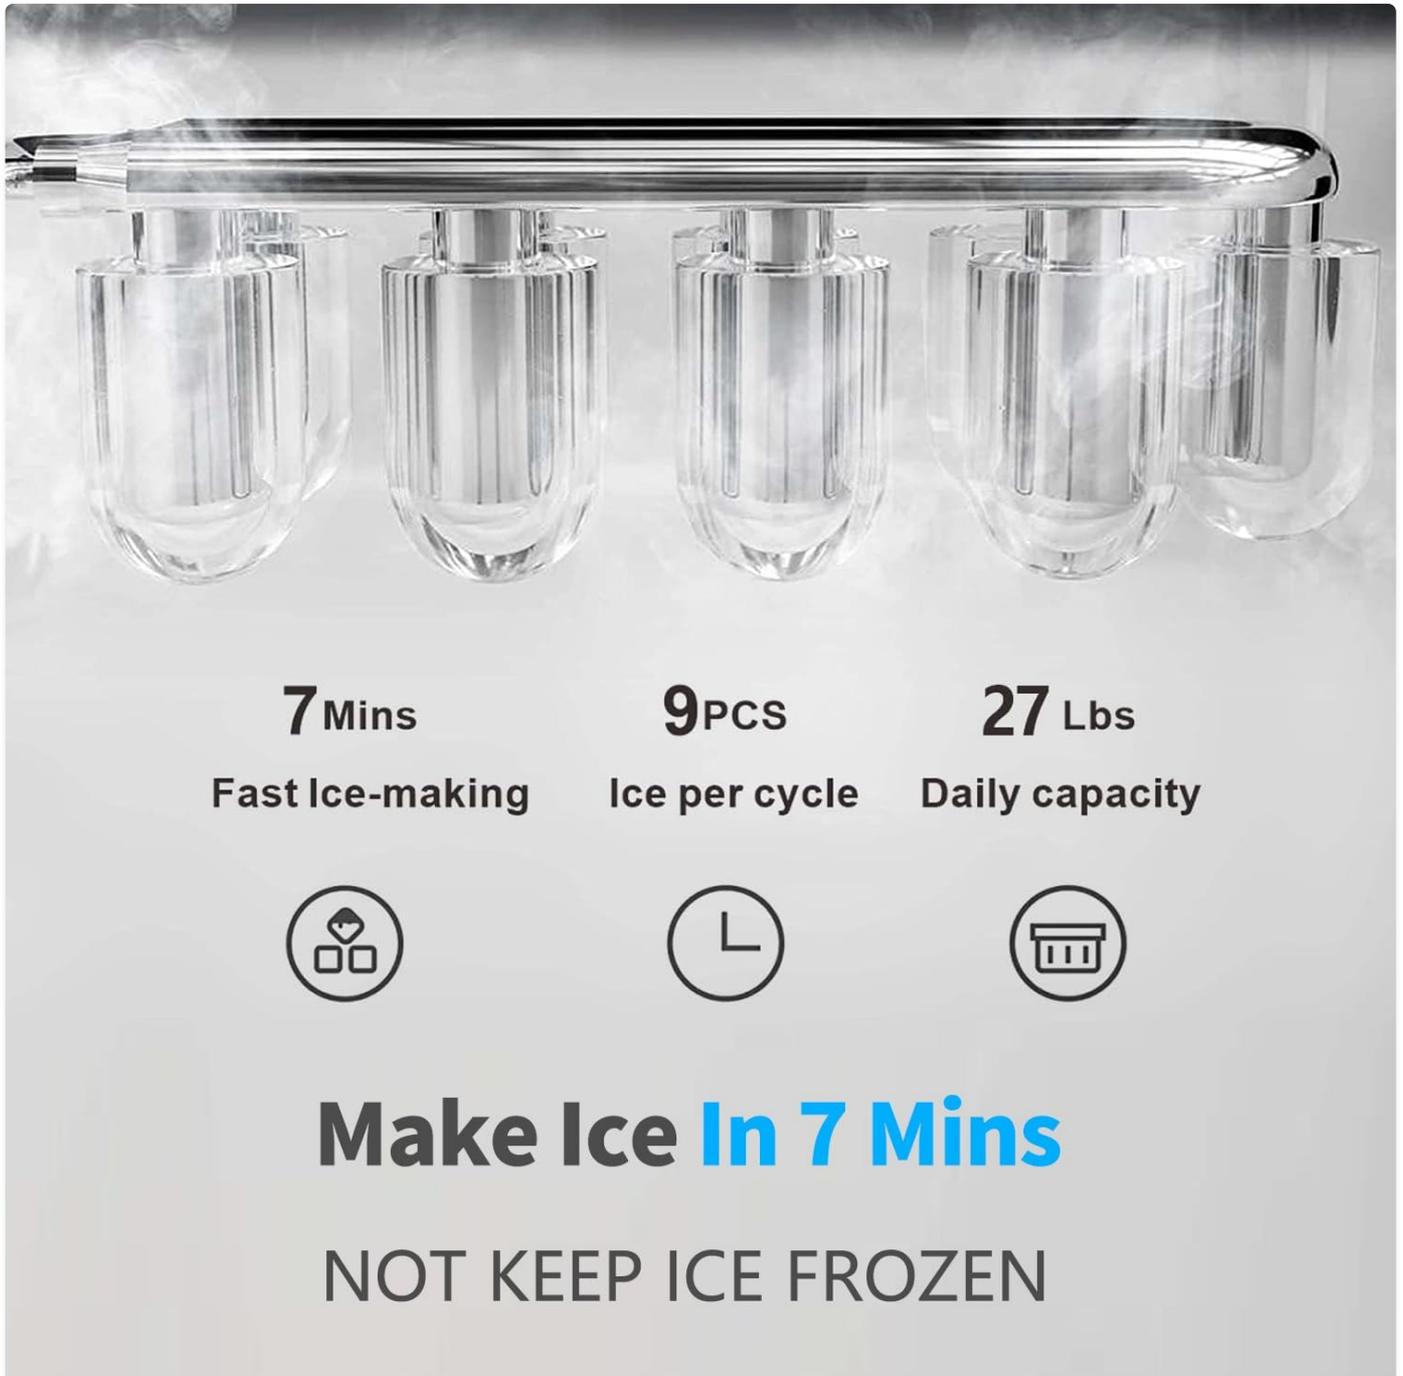

Always adhere to basic safety precautions when operating electrical appliances to minimize the risk of fire, electric shock, and personal injury.

- Read all instructions completely before using the appliance.
- Do not operate any appliance if the power cord or plug is damaged, or if the appliance has malfunctioned or been damaged in any way.
- Position the appliance away from direct sunlight and any heat sources.
- Ensure the appliance is placed on a flat, stable, and level surface.
- **Child Safety Lock:** The hot water spout is equipped with a child safety lock. Always engage this lock when the hot water function is not in active use to prevent accidental burns.
- Unplug the dispenser from the power outlet before performing any cleaning or maintenance procedures.
- This appliance is ETL Approved, indicating compliance with North American safety standards.

PRODUCT OVERVIEW

The SOOPYK water dispenser integrates multiple functionalities for enhanced user convenience:

- **Three Temperature Output:** Provides access to crisp cold, room-temperature, and piping hot water.
- **Built-in Ice Maker:** Capable of producing 9 bullet ice cubes in approximately 6-8 minutes, with a daily ice production capacity of 27 lbs.
- **Nightlight Feature:** Illuminates the water spouts for improved visibility and ease of use in low-light environments.
- **Auto Shut-Off System:** Automatically ceases ice production when the water level is insufficient or the ice bin is full.

Image: Infographic detailing the ice making performance: 7 minutes for fast ice, 9 cubes per cycle, and 27 lbs daily capacity. Please note that this unit makes ice but does not keep it frozen.

SETUP INSTRUCTIONS

1. **Unpacking:** Carefully remove the water dispenser from its packaging. Inspect the unit for any visible damage.
2. **Placement:** Place the dispenser on a firm, level, and stable surface. Ensure it is positioned away from direct sunlight and heat sources, and allow adequate ventilation space around the unit.
3. **Install Ice Tray:** Open the ice maker compartment door and carefully insert the ice collection tray into its designated slot.
4. **Install Water Bottle:** Remove the protective cap from a standard 3-5 gallon water bottle. Carefully lift and place the bottle onto the top-loading smart water barrel seat. Ensure the bottle is securely seated and water begins to flow into the dispenser's internal reservoir.
5. **Initial Flushing:** Before first use, plug in the unit. Dispense and discard at least two cups of hot water and two cups of cold water to thoroughly flush the internal system.
6. **Power Connection:** Connect the power cord to a properly grounded electrical outlet.

OPERATING INSTRUCTIONS

Water Dispensing

- **Cold Water:** Place a cup under the cold water spout. Press the cold water dispensing button to release cold water.
- **Room Temperature Water:** Place a cup under the room temperature water spout. Press the room temperature water dispensing button to release water.
- **Hot Water:** For safety, the hot water spout features a two-step dispensing mechanism. First, press and hold the child safety lock button located above the dispensing button, then press the hot water dispensing button to release hot water.

Ice Making Function

1. Ensure the water bottle is correctly installed and the dispenser's reservoir contains sufficient water.
2. Press the "ICE" button on the control panel to activate the ice maker. The corresponding indicator light will illuminate.
3. The ice maker will begin producing 9 bullet-shaped ice cubes, typically ready in approximately 6-8 minutes.
4. The ice maker will automatically stop when the ice bin is full. It will resume operation once ice is removed from the bin.
5. **Important Note:** This unit is designed to make ice but does not have a freezing function to keep ice solid long-term. For extended storage, transfer the produced ice to a freezer.

Nightlight Feature

The dispenser is equipped with a nightlight that illuminates the water spouts, facilitating easy water dispensing in low-light conditions. For energy conservation, it is recommended to turn off the ice maker function at night if not actively needed.

MAINTENANCE AND CLEANING

Regular maintenance and cleaning will ensure the longevity and optimal performance of your water dispenser.

- **Exterior Cleaning:** Unplug the unit from the power outlet. Wipe the exterior surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents.
- **Drip Tray:** The drip tray is removable for easy cleaning. Empty and clean it regularly to prevent overflow and the accumulation of residue.
- **Internal Cleaning:** To clean the internal water lines and remove any initial plastic taste, clean the water cooler with a citric acid solution. After cleaning, completely drain the unit with no water source attached.
- **Ice Maker Cleaning:** Periodically clean the ice maker compartment and the ice tray using a mild detergent. Rinse all components thoroughly with clean water before reassembly.

TROUBLESHOOTING

Refer to the table below for common issues and their potential solutions.

Problem	Possible Cause / Solution
Water tastes unusual (e.g., plastic taste).	This is common with new appliances. Clean the water cooler with citric acid and completely drain it. If the taste persists, contact customer support.
Ice melts quickly after being made.	This unit is an ice maker, not an ice freezer. It produces ice but does not keep it frozen. Transfer ice to a freezer for long-term storage. The unit will continue to make more ice as existing ice melts.
Dispenser is not working or no water is dispensing.	Check if the unit is properly plugged into a working electrical outlet and if the power switch is in the 'ON' position. Ensure the water bottle is correctly installed and is not empty. If the issue persists, contact customer support.
Ice maker is not producing ice.	Verify that there is sufficient water in the dispenser's reservoir. The auto shut-off system will activate if the water level is too low or if the ice bin is already full.

SPECIFICATIONS

Detailed technical specifications for the SOOPYK Hot and Cold Water Dispenser with Ice Maker:

Feature	Detail
Model Number	BYCZ565
Color	White
Material	Acrylonitrile Butadiene Styrene (ABS)
Ice Making Capacity	27 lbs per 24 hours
Ice Storage Capacity	5.3 lbs
Ice Cube Production Time	9 bullet ice cubes in 6-8 minutes

Feature	Detail
Water Temperatures	Hot, Room, Cold
Product Dimensions (D x W x H)	14.49"D x 12.2"W x 40.83"H
Item Weight	0.663 ounces
Power Source	Corded Electric
Installation Type	Countertop
Access Location	Top
Certifications	ETL Approved

WARRANTY AND SUPPORT

For detailed warranty information or technical support, please refer to the documentation included with your product or contact SOOPYK customer service directly.

- **Return Policy:** This product is eligible for a 30-day return or replacement policy.
- **Protection Plans:** Optional 3-Year and 4-Year protection plans are available for purchase to extend coverage beyond the standard warranty.
- **Manufacturer:** SOOPYK
