INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your ODK 55 Inch Computer Desk. Designed for home office use, this desk features a monitor shelf, storage shelves, and a CPU stand, offering a functional and organized workspace.

SAFETY INFORMATION

WARNING: Assembly involves small parts that could be a choking hazard. Keep all small components away from children. The desk should be properly anchored to the wall to prevent tipping, especially in households with children or pets. Always follow assembly instructions carefully to ensure stability.

SETUP AND ASSEMBLY

Assembly of the ODK 55 Inch Computer Desk is designed to be straightforward, typically taking approximately 30 minutes. A full set of assembly tools is provided with your purchase. Please ensure all parts are present before beginning assembly.

Before You Begin:

- Unpack all components and verify against the parts list (refer to included physical manual for detailed list).
- Clear a spacious area for assembly.
- Review the assembly diagrams thoroughly.

Assembly Tips:

- Pay close attention to the orientation of pieces; many are not symmetrical.
- Do not fully tighten all screws until all components are loosely assembled. This allows for minor adjustments to align holes. Once all parts are in place, gradually tighten all screws.
- Adjustable table foot pads are included to enhance stability and protect your floor. Ensure they are properly installed and adjusted.
