3. Setup and Assembly

The Falk Super Builder Ride-On Construction Truck requires adult assembly. Please follow the steps below. If detailed instructions are provided in a separate manual included with the product, refer to that document for precise assembly steps.

General Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components are present according to the parts list (if provided).
2. **Attach Wheels:** Securely attach the wheels to the main body of the ride-on truck. Ensure they are firmly in place and rotate freely.
3. **Install Steering Wheel:** Mount the steering wheel onto the steering column. Connect any horn or sound lever mechanisms as instructed.
4. **Assemble Seat and Storage:** Attach the seat, ensuring the storage compartment lid functions correctly.
5. **Assemble Trailer:** If the trailer requires assembly, follow the specific instructions for attaching its wheels and any other components.
6. **Attach Trailer to Truck:** Connect the assembled trailer to the rear hitch of the ride-on truck.
7. **Insert Accessories:** Place the sand tools and brick molds into the trailer or storage compartment.
8. **Final Check:** Before first use, inspect all connections and fasteners to ensure they are tight and secure.

5. Maintenance

Regular maintenance ensures the longevity and safe operation of the ride-on truck.

- **Cleaning:** Clean the toy with a damp cloth and mild soap. Avoid abrasive cleaners or solvents. Rinse thoroughly and dry completely.
- **Inspection:** Periodically check all parts for wear, damage, or loose connections. Pay attention to wheels, axles, steering components, and trailer hitch.
- **Storage:** Store the toy in a clean, dry place away from direct sunlight and extreme temperatures when not in use.
- **Spare Parts:** Information regarding the availability of spare parts is not provided in the product data.

6. Troubleshooting

If you encounter any issues with your Falk Super Builder Ride-On Construction Truck, refer to the following common troubleshooting tips:

- **Unstable Operation:** Ensure all wheels are securely attached and that the steering mechanism is properly assembled. Check for any loose fasteners.

- **Trailer Detaches Easily:** Verify that the trailer hitch is correctly engaged and not damaged.
- **Horn/Sound Not Working:** Check for any obstructions or damage to the horn mechanism or sound lever. If battery-operated (not indicated for this model), ensure batteries are correctly installed and functional.
- **Difficulty Steering:** Inspect the steering wheel and front axle for any obstructions or damage. Ensure the steering column is properly seated.

If problems persist, contact the manufacturer for assistance.
